#### INDEPENDENT AUDITOR'S REPORT

Board of Directors Champlain Valley School District Shelburne, Vermont

#### Report on the Audit of the Financial Statements

#### **Opinions**

We have audited the financial statements of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Champlain Valley School District as of and for the year ended June 30, 2024 and the related notes to the financial statements, which collectively comprise the Champlain Valley School District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Champlain Valley School District as of June 30, 2024 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

#### Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Champlain Valley School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Champlain Valley School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatements of the financial statements, whether due to fraud or error and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Champlain Valley School District's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness
  of significant accounting estimates made by management, as well as evaluate the
  overall presentation of the financial statements.

 conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise doubt about the Champlain Valley School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, pension and OPEB information on pages 5 through 12 and 72 through 77 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Champlain Valley School District's basic financial statements. The Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual - General Fund - Revenues, Schedule of Departmental Operations - General Fund and combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards and* is also not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves and other additional procedures in accordance with

auditing standards generally accepted in the United States of America. In our opinion, the Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual - General Fund Revenues, Schedule of Departmental Operations - General Fund, combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 30, 2025 on our consideration of the Champlain Valley School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion the effectiveness of the Champlain Valley School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Champlain Valley School District's internal control over financial reporting and compliance.

# REQUIRED SUPPLEMENTARY INFORMATION MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2024

#### (UNAUDITED)

The following management's discussion and analysis of the Champlain Valley School District's financial performance provides an overview of the School District's financial activities for the fiscal year ended June 30, 2024. Please read it in conjunction with the School District's financial statements.

#### **Financial Statement Overview**

The School District's basic financial statements include the following components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also includes required supplementary information which consists of the general fund budgetary comparison schedule, pension and OPEB information and other supplementary information which includes combining and other schedules.

#### **Basic Financial Statements**

The basic financial statements include financial information in two differing views: the government-wide financial statements and the fund financial statements. These basic financial statements also include the notes to financial statements that explain in more detail certain information in the financial statements and also provide the user with the accounting policies used in the preparation of the financial statements.

#### **Government-Wide Financial Statements**

The government-wide financial statements provide a broad view of the School District's operations in a manner that is similar to private businesses. These statements provide both short-term as well as long-term information in regard to the School District's financial position. These financial statements are prepared using the accrual basis of accounting. This measurement focus takes into account all revenues and expenses associated with the fiscal year regardless of when cash is received or paid. The government-wide financial statements include the following two statements:

The Statement of Net Position - this statement presents *all* of the government's assets, deferred outflows of resources, liabilities and deferred inflows of resources with the difference being reported as net position.

The Statement of Activities - this statement presents information that shows how the government's net position changed during the period. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows.

Both of the above-mentioned financial statements have separate columns for the two different types of School District activities. The types of activities presented for the School District are:

- Governmental activities The activities in this section are mostly supported by intergovernmental revenues (federal and state grants) and charges for services. Most of the School District's basic services are reported in governmental activities, which instructional programs, instructional support, administrative/other support, building operations and maintenance, fiscal services, transportation, prior year and program expenses.
- Business-type activities These activities are normally intended to recover all
  or a significant portion of their costs through user fees and/or charges to
  external users for goods and/or services. These activities for the School
  District include the Food Service Program and CVU Access.

#### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School District, like other local governments uses fund accounting to ensure and demonstrate compliance with financial related legal requirements. All of the funds of the School District can be classified into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds: Most of the basic services provided by the School District are financed through governmental funds. Governmental funds are used to account for essentially the same functions reported in governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental fund financial statements focus on near-term inflows and outflows of spendable resources. They also focus on the balance of spendable resources available at the end of the fiscal year. Such information will be useful in evaluating the government's near-term financing requirements. This approach is known as the current financial resources measurement focus and the modified accrual basis of accounting. Under this approach, revenues are recorded when cash is received or when susceptible to accrual. Expenditures are recorded when liabilities are incurred and due. These statements provide a detailed short-term view of the School District's finances to assist in determining whether there will be adequate financial resources available to meet the current needs of the School District.

Because the focus of governmental funds is narrower than that of government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund

balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. These reconciliations are presented on the page immediately following each governmental fund financial statement.

The School District presents five columns in the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances. The School District's four major funds are the general fund, medicaid fund, construction fund and 2022-2 bond fund. All other funds are shown as nonmajor and are combined in the "Other Governmental Funds" column on these statements.

The general fund is the only fund for which the School District legally adopted a budget. The Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual - General Fund provides a comparison of the original and final budget and the actual expenditures for the current year.

Proprietary Funds: The School District maintains two proprietary funds, the food service program and CVU access. These funds are used to show activities that operate more like those of commercial enterprises. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. Like the government-wide financial statements, proprietary fund financial statements use the accrual basis of accounting. No reconciliation is needed between the government-wide financial statements for business-type activities and the proprietary fund financial statements.

Fiduciary Funds: These funds are used to account for resources held for the benefit of parties outside the School District. These funds are not reflected in the government-wide financial statements because the resources of these funds are not available to support the School District's own programs. The accounting used for fiduciary funds are much like that of proprietary funds. They use the accrual basis of accounting.

#### **Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the Government-Wide and the Fund Financial Statements. The Notes to Financial Statements can be found following the Statement of Changes in Net Position - Fiduciary Funds.

#### **Required Supplementary Information**

The basic financial statements are followed by a section of required supplementary information, which includes a Budgetary Comparison Schedule - Budgetary Basis - Budget and Actual - General Fund, Schedule of Proportionate Share of the Net Pension Liability, Schedule of Contributions - Pensions, Schedule of Proportionate Share of the Net OPEB Liability, Schedule of Contributions - OPEB and Notes to Required Supplementary Information.

#### Other Supplementary Information

Other supplementary information follows the required supplementary information. These combining and other schedules provide information in regard to nonmajor funds and other detailed budgetary information for the general fund.

#### **Government-Wide Financial Analysis**

Our analysis below focuses on the net position and changes in net position of the School District's governmental and business-type activities. The School District's total net position for governmental activities decreased by \$2,092,009 from \$39,462,909 to \$37,370,900. The School District's total net position for business-type activities decreased by \$186,175 from \$188,312 to \$2,137.

Unrestricted net position - the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements - decreased for governmental activities to a deficit balance of \$6,072,175 at the end of this year. The business-type activities decreased to a deficit balance of \$17,148 at the end of this year.

#### **Revenues and Expenses**

Revenues for the School District's governmental activities increased by 5.73% from the prior year while expenses increased by 5.77%. The largest increase in revenues was in operating grants and contributions. The largest increases in expenses were in instructional programs, instructional support and building operations and maintenance.

Revenues for the School District's business-type activities decreased by 0.28% from the prior year while expenses increased by 4.93%.

#### **Financial Analysis of the School District's Fund Statements**

Governmental funds: The financial reporting focus of the School District's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information may be useful in assessing the School District's financial requirements. In particular, unassigned fund balance may serve as a useful measure of a government's financial position at the end of the year and the net resources available for spending.

Table 3
Champlain Valley School District
Fund Balances - Governmental Funds
June 30,

						ncrease/
		2024		2023	<u>(</u>	Decrease)
Major Funds:						
General Fund:						
Nonspendable	\$	187,343	\$	119,525	\$	67,818
Committed		3,275,547		1,977,414		1,298,133
Unassigned (deficit)		(537,430)		1,775,646		(2,313,076)
Total General Fund	\$	2,925,460	\$	3,872,585	\$	(947,125)
		_		_		
Medicaid Fund:						
Restricted	\$	108,853	\$		\$	108,853
Total Medicaid Fund	\$	108,853	\$		\$	108,853
Construction Fund:						
Restricted	\$	974	\$	222,549	\$	(221,575)
Total Construction Fund	\$	974	\$	222,549	\$	(221,575)
2022-2 Bond Fund:						
Restricted	\$	1,858,638	\$		\$	1,858,638
Total 2021 Bond Fund	\$	1,858,638	\$		\$	1,858,638
Nonmajor Funds:						
Special Revenue Funds:	_		_			
Restricted	\$	888,920	\$	774,489	\$	114,431
Capital Projects Funds:						
Restricted	_	306,205		397,328	_	(91,123)
Total Nonmajor Funds	\$	1,195,125	\$	1,171,817	\$	23,308

The changes to total fund balances for the general fund, medicaid fund, construction fund, 2022-2 bond fund and nonmajor funds occurred due to the regular activity of operations.

*Proprietary funds*: The School District's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

The food service program had a decrease in net position of \$200,100 and the CVU Access program had an increase in net position of \$13,925 for the year ended June 30, 2024.

#### **Budgetary Highlights**

The general fund actual revenues were under budgeted revenues by \$619,154, mainly due to transfers from other funds being less than budgeted.

The general fund actual expenditures were under budgeted amounts by \$272,029. Instructional programs and administrative/other support were under budget significantly, which was enough to offset overspending in all other expense categories.

#### **Capital Asset and Long-Term Debt Activity**

#### **Capital Assets**

As of June 30, 2024, the School District capital assets increased by \$1,296,011. This increase was due to net current year additions of \$5,337,953 less net disposals of \$3,082 and depreciation expense of \$4,038,860. Refer to Note 5 of Notes to Financial Statements for detailed information.

Table 4
Champlain Valley School District
Capital Assets (Net of Depreciation)
June 30,

		2024		2023

Machinery, equipment and vehicles		2,348,782		2,461,272
Right of use lease assets		173,585		171,491
Total	\$	76,141,934	\$	74,845,923

#### **Debt**

At June 30, 2024, the School District had \$35,843,164 in bonds payable, notes from direct borrowings payable and lease liabilities versus \$32,704,257 in the prior fiscal year. Refer to Note 7 of the Notes to Financial Statements for detailed information.

#### **Currently Known Facts, Decisions or Conditions**

The School District has noted subsequent events as currently known facts. Refer to Note 20 of Notes to Financial Statements for more detailed information.

#### **Economic Factors and Next Year's Budgets and Rates**

The 2024-2025 financial performance will be impacted by inflationary pressures in wages as well as goods and services. Legislative changes may also contribute to financial performance.

#### **Contacting the School District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, customers and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the School District at 5420 Shelburne Road, Suite 300, Shelburne, Vermont 05482.

# RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2024

Net change in fund balances - total governmental funds (Statement E)	\$ 822,099
Amounts reported for governmental activities in the Statement of Activities (Statement B) are different because:	
Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense allocated to those expenditures over the life of the assets:	
Capital asset acquisitions	5,329,604
Capital asset disposals	(3,082)
Depreciation expense	 (4,024,493)
	 1,302,029
Deferred outflows of resources are a consumption of net position by the government that are applicable to a future reporting period and	
therefore are not reported in the funds	 (691,540)
Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term obligations in the Statement of Net Position	(6,461,264)
	(5,151,-51)
Repayment of long-term debt principal is an expenditure in the	
governmental funds, but the repayment reduces long-term obligations in the Statement of Net Position	3,322,357

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Reporting Entity

The School District operates under the authority of the Vermont education laws. The School District provides services to Champlain Valley Union High School and the towns of St George, Williston, Shelburne, Hinesburg and Charlotte.

The School District's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations).

The School District's combined financial statements include all accounts and all operations of the School District. We have determined that the School District has no component units as described in GASB Statement No. 14 and amended by GASB Statements No. 39 and No. 61.

#### Implementation of New Accounting Standards

During the year ended June 30, 2024, the following statement of financial accounting standards issued by the Governmental Accounting Standards Board became effective:

Statement No. 100 "Accounting Changes and Error Corrections - an Amendment of GASB Statement No. 62". The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent and comparable information for making decisions or assessing accountability. Management has determined the impact of this Statement is not material to the financial statements.

#### **Government-Wide and Fund Financial Statements**

The School District's basic financial statements include both government-wide (reporting the School District as a whole) and fund financial statements (reporting the School District's major funds).

Both the government-wide and fund financial statements categorize primary activities as governmental or business-type. The School District's food service fund and CVU Access fund is categorized as a business-type activity. All other activities of the School District are categorized as governmental.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

In the government-wide Statement of Net Position, both the governmental and business-type activities columns are (a) presented on a consolidated basis by column and (b) reported on a full accrual, economic resources basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The School District's net position is reported in three parts - net investment in capital assets, restricted net position and unrestricted net position. The School District first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the School District's functions (instruction, administration, etc.) excluding fiduciary activities. The functions are also supported by general government revenues (certain intergovernmental revenues, charges for services, miscellaneous revenues, etc.). The Statement of Activities reduces gross expenses by related program revenues, operating and capital grants. Program revenues must be directly associated with the function or a business-type activity. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants. For the most part, the interfund activity has been eliminated from these government-wide financial statements.

The net costs (by function) are normally covered by general revenue (assessments, certain intergovernmental revenues and interest income, etc.).

The School District does not allocate indirect costs. All costs are charged directly to the corresponding departments.

The government-wide focus is more on the sustainability of the School District as an entity and the change in the School District's net position resulting from the current year's activities.

#### Measurement Focus - Basic Financial Statements and Fund Financial Statements

The financial transactions of the School District are reported in the individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balances, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements. The following fund types are used by the School District:

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Governmental Funds:

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position (sources, uses and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the School District:

#### Major Funds

- a. The General Fund is the general operating fund of the School District. It is used to account for all financial resources except those required to be accounted for in another fund.
- b. The Medicaid Fund is used to account for the proceeds of Medicaid revenues that are legally restricted to expenditures for specified purposes.
- c. The Construction Fund is used to account for the acquisition or construction of major capital facilities that are financed through transfer from the general fund or debt proceeds.
- d. The 2022-2 Bond Fund is used to account for debt proceeds related to certain public school building improvements.

#### Nonmajor Funds

- e. Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.
- f. The Capital Projects Fund is used to account for the acquisition or construction of major capital facilities.

#### 2. Proprietary Funds:

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. Operating revenues include charges for services, intergovernmental reimbursements and other miscellaneous fees which are a direct result of the proprietary activity. Nonoperating revenues are any revenues which are generated outside of the general proprietary activity, i.e. interest income. The following is a description of the proprietary funds of the School District:

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

a. Enterprise Funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of net revenues, (b) has third party requirements that the cost of providing, services, including capital costs, be recovered with fees and charges or (c) established fees and charges based on a pricing policy designed to recover similar costs.

#### 3. Fiduciary Funds:

Fiduciary funds are used to report assets held in a trustee or agency capacity for others and therefore are not available to support the School District's programs. The reporting focus is on net position and changes in net position and is reported using accounting principles similar to proprietary funds. Component units that are fiduciary in nature have been excluded from these financial statements.

The School District's fiduciary funds are presented in the fiduciary fund financial statements by type (private-purpose). Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, etc.) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide financial statements.

The emphasis in fund financial statements is on the major funds in the governmental activity category. Nonmajor funds by category are summarized into a single column. GASB Statement No. 34 sets forth minimum criteria (percentage of the assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues or expenses of either the fund category or the governmental and enterprise combined) for the determination of major funds. The nonmajor funds are combined in a column in the fund financial statements.

#### Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

#### 1. Accrual

Governmental activities in the government-wide financial statements and fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### 2. Modified Accrual

The governmental fund financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

#### **Budget**

The School District's policy is to adopt an annual budget for operations. The budget is presented on the modified accrual basis of accounting which is consistent with generally accepted accounting principles.

In accordance with Governmental Accounting Standards Board Statement No. 24, Accounting and Reporting for Certain Grants and Other Financial Assistance, payments made by the State of Vermont to the Vermont State Retirement System for teachers and certain other school employees are reported as offsetting revenues and expenditures of the general fund.

Revenues per budgetary basis Add: On-behalf payments	\$ 94,900,650 10,619,270
Total GAAP basis	\$ 105,519,920
Expenditures per budgetary basis	\$ 95,847,775
Add: On-behalf payments	10,619,270
Total GAAP basis	\$ 106,467,045

The following procedures are followed in establishing budgetary data reflected in the financial statements:

1. The annual school budget is the planning management tool, which delineates the School District's educational priorities and programs and forms the basis for voter review and approval of the budget according to applicable State of Vermont education finance laws.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- 2. The Board budget process includes input from school district administration and staff, educational priorities for the next school year, along with public hearings, which include the Board of Directors and general public.
- 3. The budget document itself is based upon the most current funding information available along with the projection of current revenues and expenditures for the next year. At the conclusion of the budget process, a final budget is approved by the Board of Directors.

#### **Deposits and Investments**

The School District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

It is the School District's policy to value investments at fair value. None of the School District's investments are reported at amortized cost. For purposes of the statement of cash flows, all highly liquid investments with a maturity of three months or less when purchased are considered to be a cash equivalent. The School District Treasurer is authorized by State Statutes to invest all excess funds in the following:

- Obligations of the U.S. Government, its agencies and instrumentalities
- Certificates of deposit and other evidence of deposits at banks, savings and loan associations and credit unions
- Repurchase agreements
- Money market mutual funds

The Champlain Valley School District has no formal investment policy but instead follows the State of Vermont Statutes.

#### Receivables

Receivables include amounts due from governmental agencies and local businesses. All receivables are current and therefore due within one year. Receivables are reported net of an allowance for uncollectible accounts and revenues net of uncollectibles. Allowances are reported when accounts are proven to be uncollectible. The allowance for uncollectible accounts is estimated to be \$0 as of June 30, 2024. Accounts receivable netted with allowances for uncollectible accounts were \$2,716,230 for the year ended June 30, 2024.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **Inventories and Prepaid Items**

Inventories consist of expendable supplies held for consumption and are valued at cost which approximates market, using the first-in/first-out (FIFO) method. The costs of inventories are recorded as expenditures when used (consumption method). Inventory of the food service fund consists of supplies and food.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

#### Interfund Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Any residual balances outstanding between governmental activities and business-type activities are reported in the governmental-wide financial statements as "internal balances".

#### **Transactions Between Funds**

Legally authorized transfers are treated as interfund transfers and are included in the results of operations of both Governmental and Proprietary Funds.

#### **Capital Assets**

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the estimated useful lives.

The assets are valued at historical cost when available and estimated historical cost where actual invoices or budgetary data was unavailable. Donated capital assets are reported at their estimated fair market value on the date received. All retirements have been recorded by eliminating the net carrying values.

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Estimated useful lives are as follows:

Buildings and site improvements

Buildings

Computers, servers and related equipment

Furniture and other equipment

Vehicles

10 - 20 years
50 years
5 - 10 years
5 - 8 years

### **Long-term Obligations**

The accounting treatment of long-term obligations depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term obligations to be repaid from governmental and business-type resources are reported as liabilities in government-wide statements. The long-term obligations consist of bonds payable, notes from direct borrowings payable, leases, accrued compensated absences, accrued severance payable and net pension liability.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest reported as expenditures. The accounting for the proprietary funds is the same in the fund statements as it is in the government-wide statements.

### **Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Vermont State Teachers' Retirement System (VSTRS) and the Vermont Municipal Employees' Retirement System (VMERS) Plans and additions to/deductions from the VSTRS and VMERS Plans' fiduciary net position have been determined on the same basis as they are reported by the VSTRS and VMERS Plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### **OPEB**

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, information about the fiduciary net position of the Vermont State Teachers' Retirement System (VSTRS) and additions to/deductions from the VSTRS OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by VSTRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

### **Net Position**

Net position represents the difference between all other elements in a statement of financial position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for those assets and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on its use either through enabling legislations adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Unrestricted net position is the net amount of the assets, deferred outflows of resources, liabilities and deferred inflows of resources that are not included in the determination of net investment in capital assets or restricted net position.

#### Fund Balance

In the fund financial statements, fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the School District is bound to honor constraints on the specific purpose for which amounts in the funds can be spent. Fund balance is reported in five components - nonspendable, restricted, committed, assigned and unassigned.

Nonspendable - This includes amounts that cannot be spent either because they are not in spendable form or because they are legally or contractually required to be maintained intact.

Restricted - This includes amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors or the laws or regulations of other governments.

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Committed - This includes amounts that can be used only for specific purposes determined by a formal action of the inhabitants of the School District. The inhabitants of the School District through School Board meetings are the highest level of decision-making authority of the School District. Commitments may be established, modified or rescinded only through a School District meeting vote.

Assigned - This includes amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. The authority for assigning fund balance is given through Vermont Statues Annotated Title 16 §567 and is expressed by the School Board.

Unassigned - This includes all other spendable amounts. The general fund is the only fund that reports a positive unassigned fund balance amount. Other governmental funds besides the general fund can only report a negative unassigned fund balance amount.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, the School District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned or unassigned fund balances are available, the School District considers amounts to have been spent first out of committed funds, then assigned funds and finally unassigned funds, as needed, unless the School Board meeting vote has provided otherwise in its commitment or assignment actions.

#### Deferred Outflows and Inflows of Resources

In addition to assets, the statement of financial position and/or balance sheet will at times report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The School District currently has one type of this item, deferred outflows related to pensions. This item is reported in the statement of net position.

In addition to liabilities, the statement of financial position and or balance sheet will at times report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Deferred revenues qualify for reporting in this category. This item is reported in the statement of net position. Deferred inflows related to pensions also qualifies for reporting in this category as well. This item is reported only

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

in the statement of net position. All items in this category are deferred and recognized as inflows of resources in the period that the amounts become available.

### **Program Revenues**

Program revenues include all directly related income items applicable to a particular program (charges to customers or applicants for goods, services or privileges provided, operating or capital grants and contributions, including special assessments).

### Operating/Nonoperating Proprietary Fund Revenues

Operating revenues consist mainly of direct revenue sources and/or charges for services applicable to that fund's ongoing operations. All revenue and expenses not meeting this definition are reported as nonoperating revenues and expenses.

### **Encumbrance Accounting**

Encumbrances are not liabilities and, therefore, are not recorded as expenditures until receipt of material or service. For budgetary purposes, appropriations lapse at fiscal year-end. The School District does not utilize encumbrance accounting for its general fund.

#### Use of Estimates

During the preparation of the School District's financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosure of contingent items as of the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results may differ from these estimates.

### NOTE 2 - DEPOSITS AND INVESTMENTS

#### Deposits:

The School District's investment policies, which follow state statutes, authorize the School District to invest in obligations of the U.S. Treasury, agencies and instrumentalities, other States and Canada, provided such securities are rated within the three highest grades by an approved rating service of the State of Vermont, corporate stocks and bonds within statutory limits, financial institutions, mutual funds and repurchase agreements. These investment policies apply to all School District funds.

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

### NOTE 2 - DEPOSITS AND INVESTMENTS (CONTINUED)

Custodial credit risk for deposits is the risk that, in the event of a failure of a depository financial institution, the School District will not be able to recover its deposits or will not be able to recover collateral securities that are in possession of an outside party. The School District does not have a policy covering custodial credit risk.

At June 30, 2024, the School District's cash and cash equivalents balance of \$7,656,475 was comprised of bank deposits and cash equivalents of \$8,135,979. The variance between the bank balances and cash equivalents presented and the cash and cash equivalents balances are reconciling items (i.e., deposits in transit, uncleared checks, etc.). This entire amount was either fully insured by federal depository insurance or Securities Investor Protection Corporation (SIPC) and consequently was not exposed to custodial credit risk or was collateralized with securities held by the financial institution in the School District's name or by debt issued in the School District's name.

		Bank				
Account Type	Balance					
Checking accounts Sweep account ICS accounts Money market fund	\$	1,535,874 3,263,803 40,553 3,295,749				
	\$	8,135,979				

#### **Investments:**

Custodial credit risk for investments is that, in the event of failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. Currently, the School District does not have a policy for custodial credit risk for investments.

Interest rate risk - is the risk that changes in interest rates will adversely affect the fair value of an investment. The School District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from fluctuations in interest rates.

The School District did not have any investments at June 30, 2024.

Credit risk - Statutes for the State of Vermont authorize the School District to invest in obligations of the U.S. Treasury, agencies and instrumentalities, other States and Canada, provided such securities are rated within the three highest grades by an approved rating service of the State of Vermont, corporate stocks and bonds within

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

### NOTE 2 - DEPOSITS AND INVESTMENTS (CONTINUED)

statutory limits, financial institutions, mutual funds and repurchase agreements. The School District does not have an investment policy on credit risk. Generally, the School District invests excess funds in savings accounts and various insured certificates of deposit.

#### NOTE 3 - INTERFUND RECEIVABLES AND PAYABLES

Interfund balances at June 30, 2024 consisted of the following individual fund receivables and payables:

	Receivables (Due from)	Payables (Due to)
General Fund	\$ 1,965,475	\$ 1,065,771
Medicaid Fund	102,205	-
Construction Fund	-	104,274
2022-2 Bond Fund	-	256,932
Nonmajor Governmental Funds	960,875	1,489,606
Enterprise Funds	2,691	114,663
	\$ 3,031,246	\$ 3,031,246

The result of amounts owed between funds are considered to be in the course of normal operations by the School District. Reconciliation of the amounts owed between funds may or may not be expected to be repaid within one year in their entirety due to the recurring nature of these transactions during operations.

#### **NOTE 4 - INTERFUND TRANSFERS**

Interfund transfers at June 30, 2024 consisted of the following:

	T	ransfers Out	Transfers In			
General Fund	\$	725,509	\$	227,411		
Construction Fund		-		110,000		
Nonmajor Governmental Funds		225,000		370		
Enterprise Funds		370		613,098		
	\$	950,879	\$	950,879		

Interfund transfers are the results of legally authorized activity and are considered to be in the course of normal operations.

All bonds payable and notes from direct borrowings payable are direct obligations of the School District, for which its full faith and credit are pledged. The School District is not obligated for any special assessment debt. All debt is payable from taxes levied on all taxable property within the School District.

In 2010, the School District issued two Series 2010 Qualified School Construction Bonds (QSCB) totaling \$5,300,000. Annual principal payments of \$301,000 are deposited into a sinking fund held by the third-party paying agent, Community Bank Trust Services. The deposits and the interest earned on those deposits will be used to make

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

### NOTE 7 - LONG-TERM DEBT (CONTINUED)

the principal payments in March 2027. The School District is also required to pay its proportionate share of any investment losses incurred on the investment of sinking fund deposits resulting in insufficient funds to pay the bank bonds when due. As of June 30, 2024, the most recent financial information available, the balance in the sinking fund for the School District totaled \$4,382,898.

#### NOTE 8 - OTHER LONG-TERM OBLIGATIONS

A summary of other long-term obligations for the year ended June 30, 2024 is as follows:

	Balance, 7/1/23		,		Balance, 6/30/24		Current Year Portion		
Accrued compensated									
absences	\$	534,027	\$	47,555	\$ -	\$	581,582	\$	29,079
Accrued severance payable		64,975		48,300	(64,975)		48,300		38,300
Net pension liability		11,583,798		2,298,653	 (2,145,361)		11,737,090		
	\$	12,182,800	\$	2,394,508	\$ (2,210,336)	\$	12,366,972	\$	67,379

Refer to Notes 9, 10 and 16 for more detailed information regarding other long-term obligations.

#### NOTE 9 - ACCRUED COMPENSATED ABSENCES

The School District's policies regarding vacation permits employees to accumulate earned but unused vacation. The liability for these compensated absences is recorded as a long-term obligation in the government-wide financial statements. In the fund financial statements, governmental funds report only the compensated absence liability payable from expendable available financial resources, while the proprietary funds report the liability as it is incurred. As of June 30, 2024, the School District's liability for compensated absences is \$581,582.

#### NOTE 10 - ACCRUED SEVERANCE PAYABLE

Teachers that have taught a minimum of ten consecutive years and that are on the 14<sup>th</sup> step of the salary schedule are eligible for severance pay. The liability for accrued severance payable is recorded as a long-term obligation in the government-wide financial statements. In the fund financial statements, governmental funds report only the severance liability payable from expendable available financial resources, while the proprietary funds report the liability as it is incurred. As of June 30, 2024, the School District's liability for severance payable is \$48,300.

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

### NOTE 11 - NET INVESTMENT IN CAPITAL ASSETS

The following is the calculation of the net investment in capital assets at June 30, 2024:

	Governmental Activities	siness-type Activities
Investment in capital assets Accumulated depreciation Capital related debt	\$ 129,489,527 (53,366,878) (35,843,164)	\$ 229,611 (210,326)
	\$ 40,279,485	\$ 19,285

### NOTE 12 - RESTRICTED NET POSITION AND RESTRICTED FUND BALANCES

At June 30, 2024, the School District had the following restricted net position and restricted fund balances:

Medicaid	\$ 108,853
Construction fund	974
2022-2 bond fund	1,858,638
Nonmajor special revenue funds (Schedule E):

2022 Bond Fund	 133
	\$ 3,163,590

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

#### NOTE 13 - NONSPENDABLE FUND BALANCES

At June 30, 2024, the School District had the following nonspendable fund balances:

General fund:

Inventory	\$ 5	121,438
Prepaid items		65,905
	\$ }	187,343

#### NOTE 14 - COMMITTED FUND BALANCES

At June 30, 2024, the School District had the following committed fund balances:

General fund:

Revenue for future budgets

\$ 3,275,547

#### NOTE 15 - DEFICIT NET POSITION

At June 30, 2024, the School District had the following deficit fund net position:

Enterprise fund CVU Access

\$ 17,147

#### NOTE 16 - DEFINED BENEFIT PENSION PLANS

#### VERMONT STATE TEACHERS' RETIREMENT SYSTEM

#### Plan Description

All of the teachers employed by the School District participate in the Vermont State Teachers' Retirement System ("VSTRS"), a cost-sharing multiple-employer defined benefit pension plan with a special funding situation, covering nearly all public day school and nonsectarian private Union teachers and administrators as well as teachers in schools and teacher training institutions within and supported by the State of Vermont that are controlled by the State Board of Education. Membership in the system for those covered classes is a condition of employment. During the year ended June 30, 2022 (the most recent period available), the retirement system consisted of 24,552 participating members.

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

### NOTE 16 - DEFINED BENEFIT PENSION PLANS (CONTINUED)

The plan was established effective July 1, 1947 and is governed by *Title 16, V.S.A. Chapter 55*. Subsequent Vermont state legislation, *Act 74*, which became effective on July 1, 2010, and updated to reflect Act 114 and Act 173, effective on July 1, 2022 and contained numerous changes to the plan benefits available to current and future members, as well as a change in access to health care coverage after retirement, resulting from a multi-party agreement to provide sustainability of quality pension and retiree health benefits for Vermont teachers.

The general administration and responsibility for formulating administrative policy and procedures of the retirement System for its members and their beneficiaries is vested in the Board of Trustees consisting of six members. They are the Secretary of Education (ex-officio), the State Treasurer (ex-officio), the Commissioner of Financial Regulation (ex-officio), two members and one alternate elected by active members of the System under rules adopted by the Board and one retired member and one alternate elected by the board of directors of Association of Retired Teachers of Vermont. The Chair is elected by the Board and acts as executive officer of the Board.

All assets are held in a single trust and are available to pay retirement benefits to all members. Benefits available to each group are based on average final compensation (AFC) and years of creditable service. The Vermont State Agency of Administration issues a publicly available Annual Comprehensive Financial Report that includes financial statements and required supplementary information for the VSTRS. That report may be viewed on the State's Department of Finance and Management website at: Annual Comprehensive Financial Report | Department of Finance and Management (vermont.gov).

#### **Benefits Provided**

The VSTRS provides retirement and disability benefits, annual cost-of-living adjustments, health care and death benefits to plan members and beneficiaries. There are two levels of contributions and benefits in the System: Group A - for public school teachers employed within the State of Vermont prior to July 1, 1981 and elected to remain in Group A and Group C - for public school teachers employed within the State of Vermont on or after July 1, 1990. Group C also includes those teachers hired prior to July 1, 1990 and were in Group B on July 1, 1990. When *Act 74* became effective on June 30, 2010, Group C was further bifurcated into Groups #1 and #2. Group #1 contains members who were at least 57 years of age or had at least 25 years of service and Group #2 contains members who were less than 57 years of age and had less than 25 years of service.

Benefits available to each group are based on average final compensation (AFC) and years of creditable service and are summarized below:

## NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

NOTE 16 - DEFINED BENEFIT PENSION PLANS (CONTINUED)

VSTRS	Group A	Group C - Group # 1	Group C - Group # 2
Normal service retirement eligibility (no reduction)	Age 60 or 30 years of service	Grandfathered: Age 62 or with 30 years of service	Non-grandfathered: Age 65 or when the sum of age and service equals 90
Average Final Compensation (AFC)	Highest 3 consecutive years, including unused annual leave, sick leave and bonus/incentives	Highest 3 consecutive years, excluding all payments for anything other than service actually performed	Highest 3 consecutive years, excluding all payments for anything other than service actually performed
Benefit formula - normal service retirement	1.67% x creditable service x AFC	to 7/1/90 x AFC +	1.25% x service prior to 7/1/90 x AFC + 1.67% x service after 7/1/90 x AFC, 2.0% after attaining 20 years
Maximum Benefit Payable	100% of AFC	53.34% of AFC	60% of AFC
Post-Retirement COLA	Full CPI, up to a maximum of 5% after 12 months of retirement; minimum of 1%	50% CPI, up to a maximum of 5% after 12 months of retirement or with 30 years; minimum of 1%	50% CPI, up to a maximum of 5%, minimum of 1% after 12 months of normal retirement or age 65
Early Retirement Eligibility	Age 55 with 5 years of service	Age 55 with 5 years of service	Age 55 with 5 years of service
Early Retirement Reduction	Actuarial reduction	6% per year from age 62	Actuarial reduction

Other post-employment benefits are available to all plan members include the following:

VSTRS	Group A	Group C – Group # 1	Group C – Group # 2
	based on member's	Health subsidy based on member's service credit	
		Members pay full premium	Members pay full premium

#### Contributions

VSTRS is a cost-sharing public employee retirement system with one exception: all risks and costs are not shared by the School District but are the liability of the State of Vermont. VSTRS is funded through State and employee contributions and trust fund investment earnings; and the School District has no legal obligation for paying benefits. Required contributions to the System are made by the State of Vermont based upon a valuation report prepared by the System's actuary, which varies by plan group. The Vermont State Teachers Retirement System estimates the contributions on behalf of the School District's employees included in the teacher's retirement plan which approximates \$10,619,270 or 25.64% of total payroll for employees covered under the plan.

Employee contribution rates by plan group follow:

VSTRS	Group A	Group C – Group # 1	Group C – Group # 2
Employee Contributions	5.5% of earnable compensation; contributions stop after 25 years of creditable service	5.0% of gross salary	Based on earnable compensation \$0-\$40K is 6.10%, \$40K-\$50K is 6.15%, \$50K-\$60K is 6.25%, \$60K-\$70K is 6.35%, \$70K-\$80K is 6.50%, \$80K-\$90K is 7.00%, \$100K+ is 7.25%

Employee contributions totaled \$2,841,835 during the year and were paid by the School District to the State of Vermont. The School District has no other liability under the plan. The School District's total payroll for all employees covered under this plan was \$41,416,810 for the year ended June 30, 2024. Beginning in 2016, School Districts that pay for teachers with federal dollars are required to include costs of pensions in the

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

### NOTE 16 - DEFINED BENEFIT PENSION PLANS (CONTINUED)

federal grant, lowering the liability for the State. Federally funded pension costs reimbursed to the State by the School District for the fiscal year ending June 30, 2024 were \$417,366. The School District's total payroll for all federal funded employees covered under this plan was \$1,625,790 for the year ended June 30, 2024.

### VERMONT MUNICIPAL EMPLOYEES' RETIREMENT SYSTEM

### **Plan Description**

The Vermont Municipal Employees' Retirement System (VMERS) is a cost sharing, multi-employer defined benefit pension plan that is administered by the State Treasurer and its Board of Trustees. The plan was established effective July 1, 1975, and is governed by Title 24, V.S.A. Chapter 125. It is designed for persons employed on a regular basis by a school district or by a supervisory union for no fewer than 1,040 hours in a year and for no fewer than 30 hours a week for the school year, as defined in 16 V.S.A. § 1071, or for no fewer than 1,040 hours in a year and for no fewer than 24 hours a week year-round; provided, however, that if a person who was employed on a regular basis by a school district as either a special education or transportation employee and who was transferred to and is working in a supervisory union in the same capacity pursuant to 16 V.S.A. § 261a(a)(6) or (8)(E) and if that person is also employed on a regular basis by a school district within the supervisory union, then the person is an "employee" if these criteria are met by the combined hours worked for the supervisory union and school district. The term shall also mean persons employed on a regular basis by a municipality other than a school district for no fewer than 1,040 hours in a year and for no fewer than 24 hours per week, including persons employed in a library at least onehalf of whose operating expenses are met by municipal funding. For the year ended June 30, 2022 (the most recent data available), the retirement system consisted of 17,253 participating members.

The general administration and responsibility for formulating administrative policy and procedures of the Retirement System for its members and their beneficiaries is vested in the Board of Trustees consisting of five members. They are the State Treasurer, two employee representatives elected by the membership of the system and two employer representatives-one elected by the governing bodies of participating employers of the system and one selected by the Governor from a list of four nominees. The list of four nominees is jointly submitted by the Vermont League of Cities and Towns and the Vermont School Boards Association.

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

### NOTE 16 - DEFINED BENEFIT PENSION PLANS (CONTINUED)

All assets are held in a single trust and are available to pay retirement benefits to all members. Benefits available to each group are based on average final compensation (AFC) and years of creditable service. VMERS does not issue stand-alone financial reports, but instead are included as part of the State of Vermont's Annual Comprehensive Financial Report. That report may be viewed on the State's Department of Finance and Management website at: Annual Comprehensive Financial Report | Department of Finance and Management (vermont.gov).

#### **Benefits Provided**

The pension plan is divided into four membership groups:

- Group A general employees whose legislative bodies have not elected to become a member of Group B or Group C
- Groups B and C general employees whose legislative bodies have elected to become members of Group B or Group C
- Group D sworn police officers, firefighters and emergency medical personnel

The School District participates in Groups A, B and C. Benefits available to each group are based on average final compensation (AFC) and years of creditable service and are summarized below:

VMERS	Group A	Group B	Group C	Group D
Normal service retirement eligibility	Age 65 with 5 years of service, or age 55 with 35 years of service	Age 62 with 5 years of service, or age 55 with 30 years of service	Age 55 with 5 years of service	Age 55 with 5 years of service
Average Final Compensation (AFC)	Highest 5 consecutive years	Highest 3 consecutive years	Highest 3 consecutive years	Highest 2 consecutive years

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

NOTE 16 - DEFINED BENEFIT PENSION PLANS (CONTINUED)

VMERS	Group A	Group B	Group C	Group D
Benefit formula  – Normal Service Retirement (no reduction)	1.4% x creditable service x AFC	1.7% x creditable service x AFC + previous service; 1.4% x Group A service x AFC	2.5% x creditable service x AFC + previous service; 1.4% x Group A service x AFC; 1.7% x Group B x AFC	2.5% x creditable service x AFC + previous service; 1.4% x Group A service x AFC; 1.7% x Group B x AFC; 2.5% x Group C service x AFC
Maximum Benefit Payable	60% of AFC	60% of AFC	50% of AFC	50% of AFC
Post- Retirement COLA	50% of CPI, up to 2% per year	50% of CPI, up to 3% per year	50% of CPI, up to 3% per year	50% of CPI, up to 3% per year
Early Retirement Eligibility	Age 55 with 5 years of service	Age 55 with 5 years of service	N/A	Age 50 with 20 years of service
Early Retirement Reduction	6% per year from age 65 **	6% per year from age 62 **	N/A	No reduction

<sup>\*\* -</sup> A special early retirement factor of 3% per year only for municipal police officers who have attained age 60

Members of all groups may qualify for vested deferred allowance, disability allowances and death benefit allowance subject to meeting various eligibility requirements. Benefits are based on AFC and service.

#### **Contributions**

Title 24 VSA Chapter 125 of Vermont Statutes grants the authority to the Retirement Board to annually review the amount of municipalities' contributions as recommended by the actuary of the retirement system in order to achieve and preserve

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

### NOTE 16 - DEFINED BENEFIT PENSION PLANS (CONTINUED)

the financial integrity of the fund and to certify the rates of contributions payable by employers. The Board of Trustees also certifies the rates of contribution payable by employees. Contribution rates for each group as of July 1, 2023 are as follows:

VMERS	Group A	Group B	Group C	Group D
Employee Contributions	3.750% of gross salary	6.125% of gross salary	11.250% of gross salary	12.600% of gross salary
Employer Contributions	5.250% of gross salary	6.750% of gross salary	8.500% of gross salary	11.100% of gross salary

Employee contributions are withheld pre-income tax by the School District and are remitted to the State of Vermont. Such withholdings for the year ended June 30, 2024 totaled \$1,358,212. The School District contributed \$1,252,303 for the year ended June 30, 2024. The School District's total payroll for the year ended June 30, 2024 for all employees covered under this plan was \$17,055,428.

#### **Pension Liabilities**

VSTRS Plan

The State is a nonemployer contributor and is required by statute to make all actuarially determined employer contributions on behalf of member employers. Therefore, these employers are considered to be in a special funding situation as defined in GASB No. 68 and the State is treated as a nonemployer to VSTRS. Since the School District does not contribute directly to VSTRS, no net pension liability was recorded at June 30, 2024. The State's portion of the collective net pension liability that was associated with the School District was as follows:

School District's proportionate share of the net pension liability	\$ -
State's proportionate share of the net pension liability associated with the School District	 92,424,435
Total	\$ 92,424,435

The State of Vermont's proportionate share of the net pension liability associated with the School District is equal to the collective net pension liability, actuarially measured as of June 30, 2023, multiplied by the School District's proportionate share percentage.

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

### NOTE 16 - DEFINED BENEFIT PENSION PLANS (CONTINUED)

The School District's proportionate share percentage was based on its reported salaries to the total reported salaries for all participating employers. At June 30, 2023, the School District's proportion was 4.94233% which was an increase of 0.01369% from its proportion measured as of June 30, 2022.

#### VMERS Plan

At June 30, 2024, the School District reported a liability of \$11,737,090 for its proportionate share of the net pension liabilities for each plan. The net pension liabilities were measured as of June 30, 2023 and the total pension liabilities used to calculate the net pension liabilities was determined by an actuarial valuation as of June 30, 2022. The School District's proportion of the net pension liabilities were based on a projection of the School District's long-term share of contributions to each pension plan relative to the projected contributions of all participating towns, actuarially determined.

At June 30, 2023, the School District's proportion was 3.66448% for VMERS, which was a decrease of 0.15387% from its proportion measured as of June 30, 2022 for VMERS.

# Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2024, the School District recognized total pension expense of \$13,978,204 and revenue of \$13,978,204 for support provided by the State of Vermont for the VSTRS plan. In the same period, the School District recognized pension expense of \$1,046,350 for the VMERS plan. At June 30, 2024, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		VSTI	RS		VMERS			
	Deferred (	Outflows	Deferred Inflows		Deferred Outflows		Deferred Inflows	
	of Resources		of Resources		of Resources		of Resources	
Differences between expected and actual								
experience	\$	-	\$	-	\$	736,089	\$	-
Changes of assumptions		-		-		382,567		-
Net difference between projected and actual earnings on pension plan investments		_		_		1,335,334		_
Changes in proportion and differences between contributions and proportionate share of								
contributions		-		-		23,585		360,541
Contributions subsequent to the measurement								
date						1,252,303		
Total	\$		\$		\$	3,729,878	\$	360,541

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

### NOTE 16 - DEFINED BENEFIT PENSION PLANS (CONTINUED)

\$1,252,303 reported as deferred outflows of resources related to pensions resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	VSTRS Plan	3	VMERS Plan
Plan year ended June 30:			ı idii
2024	\$	-	\$ 779,491
2025		-	258,962
2026		-	1,106,212
2027		-	(27,632)
2028		-	-
Thereafter		-	-

### **Significant Actuarial Assumptions and Methods**

The total pension liability for the June 30, 2023 measurement date was determined by an actuarial valuation as of June 30, 2022 rolled forward to June 30, 2023 using the actuarial assumptions outlined below.

*Investment Rate of Return*: For both plans, 7.00%, net of pension plan investment expenses, including inflation.

*Inflation*: For both plans, 2.30%.

Salary Increases: For the VSTRS plan, increases ranging from 3.19% to 8.50%. For the VMERS plan, varying, service-based rates from 0-10 years of service, then a single rate of 4.50% (includes assumed inflation rate of 2.30%) for all subsequent years.

#### Deaths After Retirement:

The VSTRS plan's mortality rates were based on historical and current demographic data, adjusted to reflect health characteristics of the underlying groups and estimated future experience and professional judgment. The mortality tables were then adjusted to future years using the generational projection to reflect future mortality improvement between the measurement date and those years.

• *Pre-Retirement:* PubT-2010 Teacher Employee Amount-Weighted Table with generational projection using scale MP-2021.

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

### NOTE 16 - DEFINED BENEFIT PENSION PLANS (CONTINUED)

- Retiree Healthy Post-Retirement: PubT-2010 Teacher Healthy Retiree Amount-Weighted Table with generational projection using scale MP- 2021.
- *Disabled Post-Retirement:* PubNS-2010 Non-Safety Disabled Retiree Amount-Weighted Mortality Table with generational projection using scale MP-2021.

The VMERS plan's mortality rates for pre-retirement, healthy retirees and disabled retirees for Groups A, B, C and D were based on historical and current demographic data, adjusted to reflect health characteristics of the underlying groups and estimated future experience and professional judgment. The mortality tables were then adjusted to future years using the generational projection to reflect future mortality improvement between the measurement date and those years.

#### Pre-Retirement:

- Groups A/B/C 40% PubG-2010 General Employee Amount-Weighted below-median and 60% of PubG-2010 General Employee Amount-Weighted, with generational projection using Scale MP-2021.
- Group D PubG-2010 General Employee Amount-Weighted above-median, with generational projection using scale MP-2021.

#### Healthy Post-Retirement - Retirees:

- Groups A/B/C 104% of 40% PubG-2010 General Healthy Retiree Amount-Weighted below-median and 60% of PubG-2010 General Healthy Retiree Amount-Weighted, with generational projection using scale MP-2021.
- Group D PubG-2010 General Healthy Retiree Amount-Weighted, with generational projection using scale MP-2021.

#### Healthy Post-Retirement - Beneficiaries:

- Groups A/B/C 70% Pub-2010 Contingent Survivor Amount-Weighted below-median and 30% of Pub-2010 Contingent Survivor Amount-Weighted, with generational projection using scale MP-2021.
- Group D Pub-2010 Contingent Survivor Amount-Weighted, with generational projection using scale MP-2021.

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

### NOTE 16 - DEFINED BENEFIT PENSION PLANS (CONTINUED)

#### Disabled Post-Retirement:

• All Groups - PubNS-2010 Non-Safety Disabled Retiree Amount-Weighted Mortality Table with generational projection using Scale MP-2021.

*Inactive Members*: For both plans, valuation liability equals 100% of accumulated contributions. Inactive who are vested immediately become Deferred Members and the liabilities for all Deferred Members are based on the accrued benefit.

Future Administrative Expenses: No provisions were made for the VSTRS plan as Systems expenses are paid for by the State. For the VMERS plan, an expense adjustment based on actual expenses for the previous year is reflected in the development of recommended employer contribution levels.

Unknown Data for Participants: For both plans, they are the same as those exhibited by participants with similar known characteristics. If not specified, participants are assumed to be male.

*Percent Married*: For both plans, 85% of male members are assumed to be married. 35% of female members for the VSTRS plan and 50% of female members for the VMERS plan are assumed to be married.

*Spouse's Age*: For both plans, husbands are assumed to be three years older than their wives.

### Cost-of-Living Adjustments VSTRS:

For active Group C members who are first eligible for normal retirement before July 1, 2022:

 Assumed to occur on January 1 following two years of retirement at the rate of 1.20% per annum (beginning two years after the attainment of age 62 for members who elect reduced early retirement). The January 1, 2023, COLA was 2.00%\*.

\*This amount was required to be calculated in 2023 as a result of Act 114 and Act 173; however, it will not be applied to any members in 2023.

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

### NOTE 16 - DEFINED BENEFIT PENSION PLANS (CONTINUED)

#### For all other members:

- Group A Assumed to occur on January 1 following one year of retirement at the rate of 2.30% per annum. The January 1, 2022, COLA was 1.35%. The January 1, 2023, COLA was 5.00%.
- Group B/C Assumed to occur on January 1 following one year of retirement at the rate of 1.20% per annum (beginning one year after the attainment of age 62 or Group C members who elect reduced early retirement). The January 1, 2022, COLA was 2.30%. The January 1, 2023, COLA was 2.50%.

### Cost-of-Living Adjustments VMERS:

Assumed to occur on January 1 following one year of retirement at the rate of 1.10% per annum for Group A members and 1.20% per annum for Groups B, C and D members (beginning at Normal Retirement eligibility age for members who elect reduced early retirement, at age 62 for members of Group A, B and D who receive a disability retirement benefit and at age 55 for members of Group C who receive a disability retirement benefit). The January 1, 2024, COLA is expected to be 1.10% for Groups A, B, C and D. The January 1, 2023 COLA is 2.00% for Group A members and 3.00% for Group B, C and D members.

Amortization method: Amortization payments calculated to fully fund unfunded actuarial accrued liability with annual increases of 3% over a closed period. The amortization of unfunded actuarial accrued liability (UAAL) within the actuarially determined contribution rate calculation is based on the level percentage of pay required to amortize the UAAL over the 30-year closed period that began on July 1, 2008. As of July 1, 2022, the remaining amortization period is 16 years.

Actuarial Cost Method: For both plans is the Entry Age Actuarial Cost Method. Entry age is the age at date of employment, or if date is unknown, current age minus years of service. Normal Cost and Accrued Actuarial Liability are calculated on an individual basis and are allocated by salary, with Normal Cost determined using the plan of benefits applicable to each participant.

For the VSTRS plan, the asset valuation method used equals the preliminary asset value plus 20% of the difference between the market and preliminary asset values. The preliminary asset value is equal to the previous year's asset value (for valuation purposes) adjusted for contributions less benefit payments and expenses and expected investment income. If necessary, a further adjustment is made to ensure that the valuation assets are within 20% of the market value.

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

### NOTE 16 - DEFINED BENEFIT PENSION PLANS (CONTINUED)

A smoothing asset valuation method was used for funding purposes in the VMERS plan, under which the value of assets for actuarial purposes equals market value less a five-year phase-in of the differences between actual and assumed investment return. Then value of assets for actuarial purposes may not differ from the market value of assets by more than 20%.

The *long-term* expected rate of return on both plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) developed for each major asset class. These best estimate ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic rates of return for each major asset class included in the target asset allocation as of June 30, 2023 are summarized in the following table:

		Long-term Expected
	Target	Real Rate of
Asset Class	Allocation	Return
Global Equities	44.00%	5.35%
Private Equity	10.00%	7.50%
Emerging Markets Debt	2.00%	5.00%
Private and Alternative Credit	10.00%	5.50%
Non-Core Real Estate	4.00%	5.50%
Core Fixed Income	19.00%	1.50%
Core Real Estate	4.00%	3.25%
US TIPS	2.00%	1.50%
Infrastructure/Farmland	5.00%	4.25%

#### **Discount Rate**

The discount rate used to measure the total pension liability was 7.00% for the VSTRS plan and the VMERS plan. The projection of cash flows used to determine the discount rate assumed that contributions will continue to be made in accordance with the current funding policy which exceeds the actuarially determined contribution rate. Based on these assumptions, the fiduciary net position was projected to be available to make all projected future benefit payments to current System members. The assumed discount rate has been determined in accordance with the method prescribed by GASB 68.

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

### NOTE 16 - DEFINED BENEFIT PENSION PLANS (CONTINUED)

# Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the School District's proportionate share of the net pension liability calculated using the discount rate of 7.00% for both the VSTRS and VMERS plans, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.00%) or 1 percentage point higher (8.00%) than the current rate:

	 Decrease	Rate	 Increase
VSTRS: Discount rate	6.00%	7.00%	8.00%
School District's proportionate share of the net pension liability	\$ -	\$ -	\$ -
VMERS: Discount rate	6.00%	7.00%	8.00%
School District's proportionate share of the net pension liability	\$ 17,666,137	\$ 11,737,090	\$ 6,863,646

### **Pension Plan Fiduciary Net Position**

The schedule of employer allocations and schedule of pension amounts by employer are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles. The schedules present amounts that are elements of the financial statements of the VSTRS and VMERS or their participating employers. VSTRS and VMERS do not issue stand-alone financial reports, but instead are included as part of the State of Vermont's Annual Comprehensive Financial Report. That report can be viewed on the State's Department of Finance and Management website at: Annual Comprehensive Financial Report | Department of Finance and Management (vermont.gov).

### NOTE 17 - OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN

#### VERMONT STATE TEACHERS' RETIREMENT SYSTEM

#### **Plan Description**

The Vermont State Teachers' Retirement System provides postemployment benefits to eligible VSTRS employees who retire from the System through a cost-sharing, multiple-employer postemployment benefit (OPEB) plan (the Plan).

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

### NOTE 17 - OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN (CONTINUED)

The plan covers nearly all public day school and nonsectarian private high school teachers and administrators as well as teachers in schools and teacher training institutions within and supported by the State that are controlled by the State Board of Education. Membership in the system for those covered classes is a condition of employment. During the year ended June 30, 2022, the Plan consisted of 7,313 retired members or beneficiaries currently receiving benefits and 10,387 active members.

Vermont Statute Title 16 Chapter 55 assigns the authority to VSTRS to establish and amend the benefits provisions of the Plan and to establish maximum obligations of the Plan members to contribute to the Plan. Management of the Plan is vested in the Vermont State Teachers' Retirement System Board of Trustees, which consists of the Secretary of Education (ex-officio); the State Treasurer (ex-officio); the Commissioner of Financial Regulation (ex-officio); two trustees and one alternate who are members of the system (each elected by the system under rules adopted by the Board) and one trustee and one alternate who are retired members of the system receiving retirement benefits (who are elected by the Association of Retired Teachers of Vermont).

All assets of the Plan are held in a single trust and are available to pay OPEB benefits to all members. The Vermont State Agency of Administration issues a publicly available Annual Comprehensive Financial Report that includes financial statements and required supplementary information for the VSTRS. That report may be viewed on the State's Department of Finance and Management website at: <u>Annual Comprehensive Financial Report | Department of Finance and Management (vermont.gov)</u>.

#### **Benefits Provided**

VSTRS retirees and their spouses are eligible for medical, prescription drug and dental benefits on a lifetime basis if the retiree is eligible for pension benefits, as described in the Notes to Financial Statements for Defined Benefit Plan(s).

#### **Contributions**

Varying levels of contributions are required from retirees and spouses for medical and prescription drug coverage at the following premium subsidy rates:

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

### NOTE 17 - OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN (CONTINUED)

	Retiree Subsidy		Spouse Subsidy*		
Retired before June 30, 2010	At least ten yea 80% of p Less than ten ye 0% of pr	remium ars of service -	0% of	premium	
Retired after June 30, 2010	10 years or more of service at June 30, 2010 - 80% of premium		Years of service at June 30, 201 80% of premium if meet the follow years of service at retirement		
	Less than 10 year June 30,		requirement:		
	Less than 15 years at retirement	0% of premium	Less than 10 years	25 years at retirement	
	15-19.99 years at retirement	60% of premium	10-14.99 years	25 years at retirement	
	20-24.99 years at retirement	70% of premium	15-24.99 years	10 additional years from June 30, 2010	
	25 years or more at	80% of premium	25-29.99 years	35 years at retirement	
	retirement		30 or more years	5 additional years from June 30, 2010	

<sup>\*</sup> Spouses of retirees who do not meet the requirements for an 80% subsidy can receive unsubsidized coverage.

Premium Reduction Option: Participants retiring on or after January 1, 2007 with a VSTRS premium subsidy have a one-time option to reduce the VSTRS subsidy percentage during the retiree's life so that a surviving spouse may continue to receive the same VSTRS subsidy for the spouse's lifetime. If the retiree elects the joint and survivor pension option but not the Premium Reduction Option, spouses are covered for the spouse's lifetime but pay 100% of the plan premium after the retiree's death.

Retirees pay full cost of dental benefits.

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

### NOTE 17 - OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN (CONTINUED)

#### **OPEB Liabilities**

The State is a nonemployer contributor and is required by statute to make all actuarially determined employer contributions on behalf of member employers. Therefore, these employers are considered to be in a special funding situation as defined in GASB No. 75 and the State is treated as a nonemployer to VSTRS. Since the School District does not contribute directly to VSTRS, no net OPEB liability was recorded at June 30, 2024. The State's portion of the collective net OPEB liability that was associated with the School District was as follows:

School District's proportionate share of the net OPEB liability	\$ -			
State's proportionate share of the net OPEB liability associated with the School District	 32,837,135			
Total	\$ 32,837,135			

The State of Vermont's proportionate share of the net OPEB liability associated with the School District is equal to the collective net OPEB liability, actuarially measured as of June 30, 2023, multiplied by the School District's proportionate share percentage. The School District's proportionate share percentage was based on its reported salaries to the total reported salaries for all participating employers. At June 30, 2023, the School District's proportion was 4.21240% which was an increase of 0.05484% from its proportion measured as of June 30, 2022.

# OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2024, the School District recognized total OPEB expense of \$2,178,177 and revenue of \$2,178,177 for support provided by the State of Vermont for the Plan. At June 30, 2023, the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

### NOTE 17 - OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN (CONTINUED)

Thereafter		-

#### **Discount Rate**

The discount rate is the single rate of return, that when applied to all projected benefit payments, results in an actuarial present value that is the sum of the actuarial present value of projected benefit payments projected to be funded by plan assets using a long term rate of return and the actuarial present value of projected benefit payments that are not included in (1) using a yield or index rate for 20-year tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The sensitivity of net OPEB liability to changes in discount rate are as follows:

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

### NOTE 17 - OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN (CONTINUED)

	1% Decrease	Discount Rate	1% Increase
VSTRS OPEB Plan: Discount rate	6.00%	7.00%	8.00%
School District's proportionate share of the net OPEB liability	\$ -	\$ -	\$ -

#### **Healthcare Trend Rate**

Health care trend measures the anticipated overall rate at which health plan costs are expected to increase in future years. The trend rate assumptions were developed using Segal's internal guidelines, which are established each year using data sources such as the 2023 Segal Health Trend Survey, internal client results, trends from other published surveys prepared by the S&P Dow Jones Indices, consulting firms and brokers and CPI statistics published by the Bureau of Labor Statistics. The sensitivity of net OPEB liability to changes in healthcare trend rates are as follows:

	1% Decrea		Healthcar Trend Rat	_	1% Increase	_
School District's proportionate share of the net OPEB liability	\$	-	\$	_	\$ -	

### **Actuarial Methods and Assumptions**

The total OPEB liability for the Plan was determined by an actuarial valuation as of June 30, 2023, using the following methods and assumptions applied to all periods included in the measurement:

#### Actuarial Cost Method

The Entry Age Normal Actuarial Cost Method is used to determine costs. Under this funding method, a normal cost rate is determined as a level percent of pay for each active Plan member and then summed to produce the total normal cost for this Plan. The unfunded actuarial liability is the difference between the actuarial liability and the actuarial value of assets.

#### Amortization

The total OPEB liability of this Plan is amortized on a closed 30-year period. The amortization method is a level percent of payroll method. As of July 1, 2023, there are 25 years remaining on the amortization period.

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

### NOTE 17 - OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN (CONTINUED)

#### Asset Valuation Method

The Asset Valuation Method used is market value as of the measurement date.

The long-term expected rate of return on OPEB plan investments are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation, long-term expected rates of return for each major asset class and expected inflation, as of June 30, 2023, are summarized below:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Global Equity	43.00%	5.35%
US Aggregate Fixed Income	19.00%	1.50%
Emerging Markets Debt (Hard)	4.00%	5.00%
TIPS	3.00%	1.50%
Private Credit	10.00%	5.50%
Real Estate	11.00%	3.25%
Private Equity	10.00%	7.50%
	100.00%	
	10010070	

#### **Assumptions**

The actuarial assumptions used to calculate the actuarially determined contribution rates can be found in the Report on the Actuarial Valuation of Post-Retirement Benefits of the Vermont State Teachers' Retirement System Prepared as of June 30, 2016 completed by Buck Consulting. As of June 30, 2023, they are as follows:

### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

projection using scale MP-2021

### **Changes in Net OPEB Liability**

Changes in net OPEB liability are recognized in OPEB expense for the year ended June 30, 2023 with the following exceptions:

#### Changes in Assumptions

Differences due to changes in assumptions about future economic, demographic or claim and expense factors or other inputs are recognized in OPEB expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members in each plan. The first year is recognized as OPEB expense and the remaining years are shown as either deferred outflows of resources or deferred inflows of resources. The amortization period remaining was twenty-five years as of July 1, 2023.

#### **OPEB Plan Fiduciary Net Position**

The schedule of employer allocations and schedule of OPEB amounts by employer are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles. The schedules present amounts that are elements of the financial statements of VSTRS or their participating employers. VSTRS does not issue stand-alone financial reports, but instead are included as part of the State of Vermont's Annual Comprehensive Financial Report. That report can be viewed on the State's Department of Finance and Management website at: <a href="mailto:Annual Comprehensive Financial">Annual Comprehensive Financial Report</a> | Department of Finance and Management (vermont.gov).

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

#### **NOTE 18 - RISK MANAGEMENT**

The School District is exposed to various risks of loss related to torts, thefts of, damage to and destruction of assets, errors and omissions and injuries to employees. The School District maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the School District. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

In addition, the School District is a member of the Vermont Education Health Initiative (VEHI). VEHI is a nonprofit corporation formed to provide insurance and risk management programs for Vermont School Districts and is owned by the participating districts.

To provide health insurance coverage, VEHI has established a self-funded fully insured program in conjunction with Blue Cross and Blue Shield. A portion of member contributions is used to purchase reinsurance and to fund a reserve required by the reinsurance. The pooling agreement does not permit the pool to make additional assessments to its members.

#### **NOTE 19 - CONTINGENCIES**

With regard to pending legal claims or any unasserted claims, it is not feasible at this time to predict or determine their outcome. Management believes, however, that settlement amounts, if any, will not have a material adverse effect on the School District's financial position.

The School District participates in various intergovernmental grant programs which may be subject to future program compliance audits by the grantors or their representatives. Accordingly, the School District's compliance with applicable grant requirement may be established at some future date. The amount, if any, of any liabilities arising from the disallowance of expenditures or ineligibility of grant revenues cannot be determined at this time.

The School District participates in a medical insurance plan negotiated through VEHI. This plan is a high-deductible plan with an HRA (Health Reimbursement Arrangement) funded by the School District. The organization contracted to coordinate the processing of claims on behalf of the School District with HRA funds has not processed all claims as of June 30, 2024 and through the date of this report. Additionally, they were unable to provide management with the outstanding amount to be expensed by the School District through June 30, 2024. Therefore, the amount, if any, of any liabilities arising from the unprocessed claims cannot be determined at this time.

#### NOTES TO FINANCIAL STATEMENTS JUNE 30, 2024

#### NOTE 20 - SUBSEQUENT EVENTS

On July 1, 2024, the School District issued a tax/revenue anticipation note in anticipation of tax revenues to meet its operating obligations during the fiscal year. The note allows principal draws up to \$12,311,000 at a fixed interest rate of 4.81% per annum and a maturity date of June 30, 2025.

On July 15, 2024, the School District entered into a loan agreement with M&T Bank for a bus. The principal amount of the loan is \$350,000 with a fixed interest rate of 4.72% per annum. Annual principal payments are \$70,000 with a maturity of July 2029.

On August 8, 2024, the School District entered into a bond agreement with the Vermont Bond Bank in the amount of \$3,500,000 with a fixed interest rate of \$3.97% per annum. Terms include annual principal payments of \$175,000 and semi-annual interest payments. Maturity is in November of 2044.

#### CHAMPLAIN VALLEY SUPERVISORY UNION

### NOTES TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED JUNE 30, 2024

#### **Changes of Assumptions**

#### **VSTRS** Pension Plan:

- Assumed rates of salary increase were adjusted, generally increased, based on plan experience.
- COLA assumptions were decreased
- Mortality assumptions changed
- Assumed active retirement rates for Group C Grandfathered (GF) and Group C Non-Grandfathered (NGF) were adjusted based on plan experience.
- Assumed inactive vested retirement rates for Group C-NGF for pre-Normal Retirement Ages were increased based on plan experience.
- Assumed termination rates were adjusted based on plan experience.
- Assumed disability rates uniformly decreased by 15% for females and uniformly increased by 20% for males.

#### VMERS Pension Plan:

- Assumed rates of salary increase were adjusted, generally increased, based on plan experience.
- Assumed active retirement rates for all groups were adjusted based on plan experience.
- Assumed termination rates were adjusted based on plan experience. Rates are now split between Groups A and B and C and D.
- Assumed disability rates were adjusted based on plan experience. Rates are now split between Groups A and B and C and D.

#### VSTRS OPEB Plan:

- The per capita valuation-year claims and retiree contribution rates were updated.
- The assumed health trend rates were modified.
- The assumed scale, mortality rates, disability rates, withdrawal rates and retirement rates were modified.
- The percentage of future retirees at retirement assumed to have an eligible spouse who also opts for health coverage was increased from 75% to 85% for those eligible for a subsidy and decreased from 15% to 10% for those not eligible for a subsidy.

#### Other Supplementary Information

Other supplementary information includes financial statements and schedules not required by the Governmental Accounting Standards Board, nor a part of the basic financial statements, but are presented for purposes of additional analysis.

#### NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED JUNE 30, 2024

#### 1. Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the Champlain Valley School District under programs of the federal government for the year ended June 30, 2024. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Champlain Valley School District, it is not intended to and does not present the financial position, changes in net position or cash flows of the Champlain Valley School District.

#### 2. Summary of Significant Accounting Policies

- a. Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance and/or OMB Circular A-87, Cost Principles for State, Local and Indian Tribal Governments, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- b. The U.S. Department of Education (USED) has delegated to the State of Vermont Agency of Education the authority to issue indirect cost rates to all Local Education Agencies (LEAs) based on a plan approved by the USED. Therefore, the Champlain Valley School District does not use the 10% de minimus indirect cost rate as allowed under the Uniform Guidance.

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of School Directors Champlain Valley School District Shelburne, Vermont

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the Champlain Valley School District, as of and for the year ended June 30, 2024 and the related notes to the financial statements, which collectively comprise the Champlain Valley School District's basic financial statements and have issued our report thereon dated June 30, 2025.

#### Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Champlain Valley School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Champlain Valley School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Champlain Valley School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the organization's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

#### Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Champlain Valley School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion.

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. We noted certain other matters that we reported to management of the Champlain Valley School District in a separate letter dated June 30, 2025.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing and not to provide an opinion on the effectiveness of the organization's internal control or compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE REQUIRED BY THE UNIFORM GUIDANCE

Board of School Directors Champlain Valley School District Shelburne, Vermont

#### Report on Compliance for Each Major Federal Program

#### **Opinion on Each Major Federal Program**

We have audited the Champlain Valley School District's compliance with the types of compliance requirements identified as subject to audit in the OMB Compliance Supplement that could have a direct and material effect on each of the Champlain Valley School District's major federal programs for the year ended June 30, 2024. the Champlain Valley School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Champlain Valley School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

#### **Basis for Opinion on Each Major Federal Program**

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance).* Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibility section of our report.

We are required to be independent of the Champlain Valley School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the Champlain Valley School District's compliance with the compliance requirements referred to above.

#### **Responsibilities of Management for Compliance**

Management is responsible for compliance with the requirements referred to above and for the design, implementation and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the Champlain Valley School District's federal programs.

#### Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Champlain Valley School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Champlain Valley School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Champlain Valley School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Champlain Valley School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Champlain Valley School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

#### **Report on Internal Control Over Compliance**

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
