

3DE[™]
BY JUNIOR ACHIEVEMENT

**EDUCATION FOR EVERY
DIMENSION OF LIFE**

What is 3DE?

3DE's multifaceted approach to learning uses case methodology to integrate real-world connectivity into the standard high school experience. This universally practical approach to learning is the anchor for interdisciplinary pedagogy, relevant connectivity, and authentic project-based application delivered in every 3DE school. The result is a high school experience that reflects the dynamic pace of activity and interconnectedness of life beyond the classroom walls.

3DE dedicated teachers set high expectations and foster a strong sense of community among their students. Year over year, the curriculum layers in defined competencies to continually build students' skills and mindset as they advance from facilitated learning to self-directed. By the end of their four-year high school career, students graduate with the knowledge, skills, and confidence to thrive in post-secondary and beyond.

3DE Student Journey

Process Thinker

9th

- Competitive learning environment, featuring evaluation by educators and judges, selection of finalist, and one winning team per case challenge
- Six case briefs co-authored with real companies, designed to promote discussion and student inquiry
- Opportunity for growth mindset development and self reflection
- Engaging, collaborative, real-world connected, interdisciplinary lessons
- Business professional coaching
