## SHEBOYGAN AREA SCHOOL DISTRICT PROJECT PROGRESS REPORT

*February 2025 Update*

Farnsworth Middle School Site Plan

### WHAT'S NEW?

Over the past month, the design team has continued to gather essential information in preparation for the upcoming months of design work. A key step in that process included hiring Kapur Associates from Milwaukee to handle the Topographical and Boundary Surveying efforts for both the Farnsworth and Urban Middle School projects. Data collection began in late November, and by the first week of February, the finalized surveys were handed over to the design team.

Additionally, SASD contracted with Traffic Analysis & Design to conduct a traffic analysis for both the Farnsworth and Urban Middle School sites. This analysis covered both current and projected scenarios. The findings have already been submitted to the City of Sheboygan, as they will play a crucial role in the formal review of the site plans.

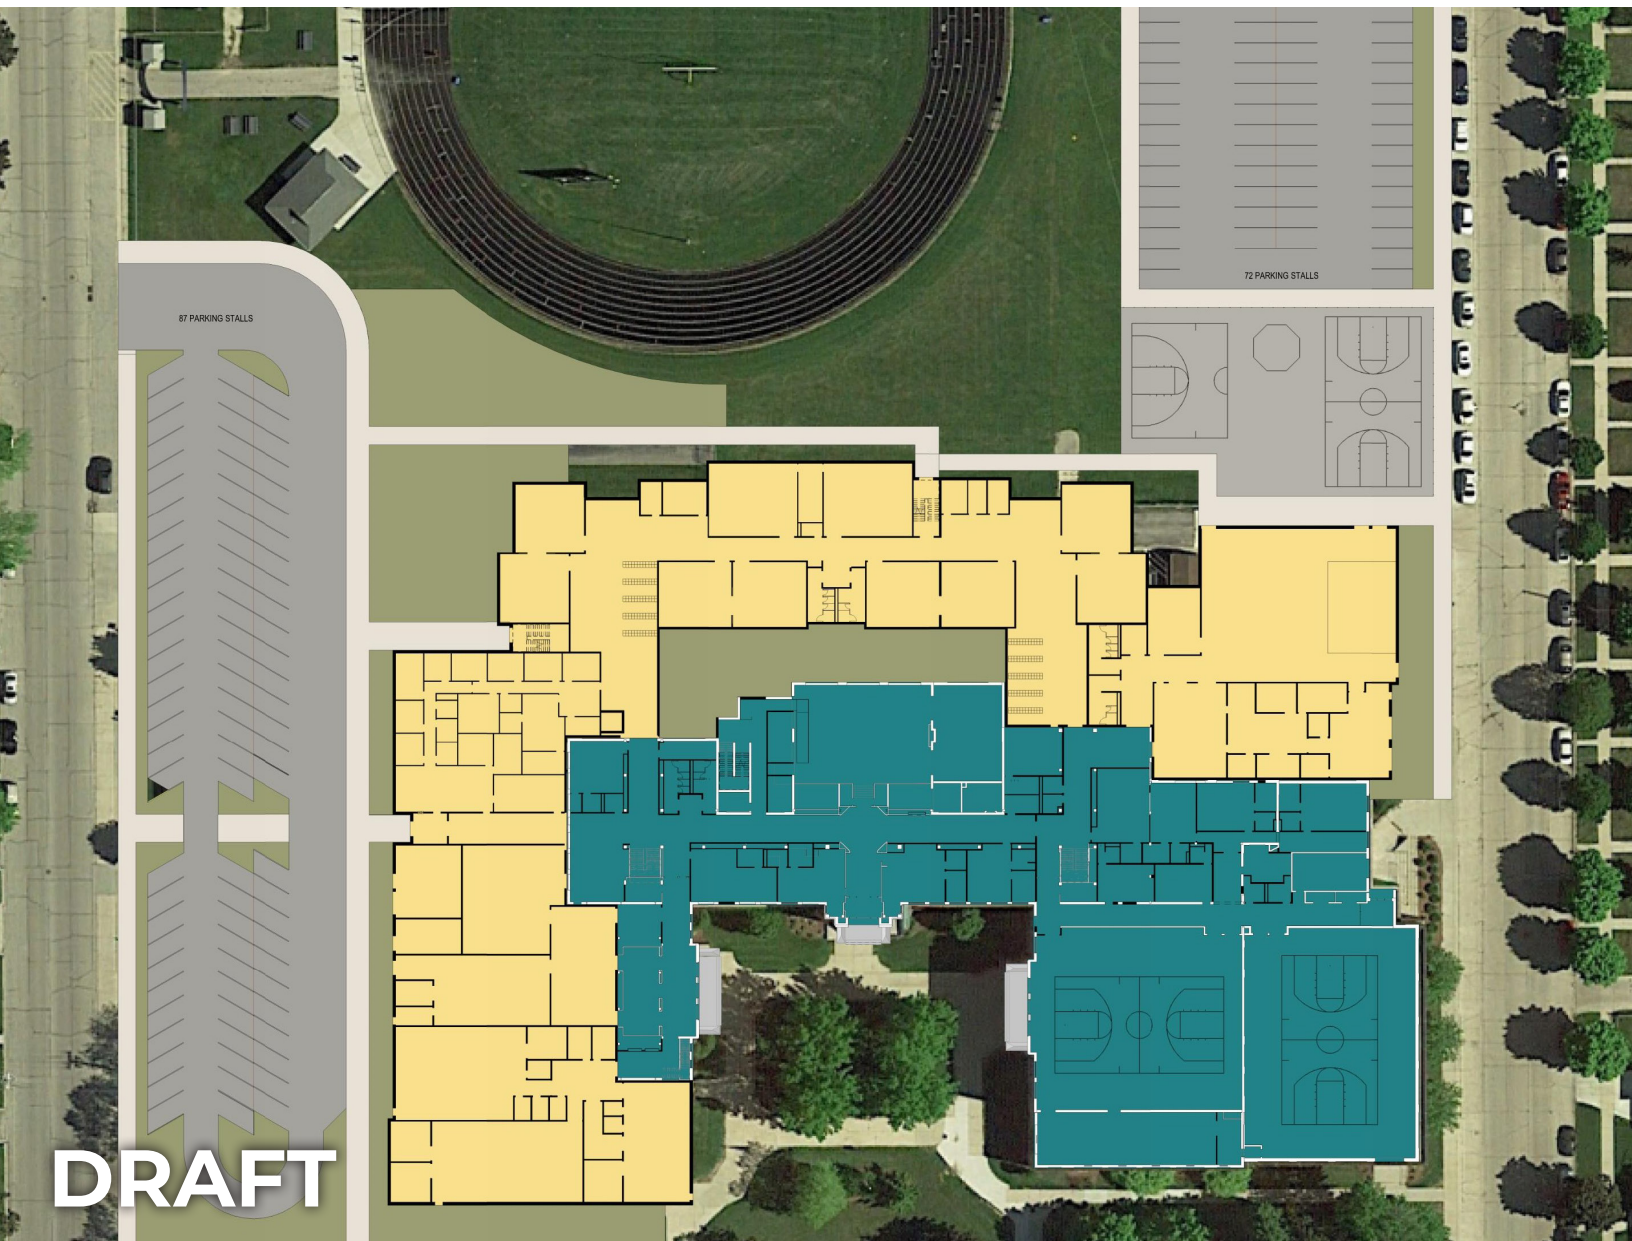

## PLANNING & DESIGN UPDATE

On the planning front, the collaborative design team—comprising SASD, Bray Architects, and Quasius | Smith—has made significant progress in developing both floor plans and site plans for each building. Please refer to the attached rendered site plans for both projects. As the design team continues to refine these plans, the next step will involve meetings with staff from both Farnsworth and Urban Middle Schools, beginning in early March. These meetings—referred to as User Group Meetings by Bray Architects—will be held monthly from March through September.

During this process, Bray Architects, SASD Administration, and staff from each building will regularly collaborate to fine-tune the learning environments in both schools. It is through this User Group process that the buildings will take their final shape.

## NEXT STEPS

- Further development of schematic plans
- User Group meetings with staff begin in March
- Refinement of exterior design concepts

Urban Middle School Site Plan
