Finance and Operations

Stephen P. Hancock, Ed.D.
Assistant Superintendent for
Human Resources

We wish to share exciting news as we enter the 2025-26 school year. The new synthetic turf field (Field #8) and track achieved “substantial completion” (a construction term used to begin occupancy) on Monday, August 18th. While paving, grass plantings, and parking lot restrictions around the construction site are still continuing, we kindly request that those visiting the new athletic facilities be mindful of protecting our new investment.

- Please use only designated walkways to protect the infant grass and allow it to grow
- Please refrain from disposing of food, gum, flavored drinks, etc. on the new surfaces
- Please refrain from using cleats on the new track surface; at times, mats may be placed across the track to be used as designated entry-ways for accessing the turf field and protecting the track
- Please refrain from using chairs, bikes, scooters, strollers, and other wheeled equipment/devices of any type on the new surfaces
- As a general reminder, pets are not permitted on school grounds

These simple precautions will go a long way in preserving our beautiful new athletic facilities for many years to come. An outer walking path with lighting has been installed for use during inclement weather and early evening hours.

Field #9 (the grass field towards the rear of the campus) is now available for our internal athletic teams, as well as, our external youth programs to practice. A designated path will be created for safe access, while also protecting the infant grass around the construction site.

We are very excited to begin the new year with another successful construction improvement. We look forward to the next phase of construction, including the CV Starr Cafetorium and BHS Field House, which is expected to be completed in late Fall 2026 / early Winter 2027. Please join us for the next Brewster Vision Capital Project update, presented by our construction team on Tuesday, September 16th at 6:30pm at the District Office. The update will also be live streamed on our website.
