

Lake Grove Elementary

Lake Oswego School District Bond 2025 Proposal

Bond Overview

Educational Excellence. Lake Grove is a neighborhood elementary school that serves approximately 440 students and is consistently recognized among Oregon's top-performing elementary schools, according to Niche. **Safe. Modern. Resilient.** This bond measure represents the final phase of a three-part initiative to build safe, modern, and resilient schools in Lake Oswego. **Maintain Estimated Current Tax Rate.** If approved, the \$245 million bond is projected to maintain LOSD's current estimated bond tax rate of \$2.90 per \$1,000 of assessed property value. No increase in the bond tax rate is anticipated. **Election Date:** November 4, 2025

Proposed Bond 2025 Projects

Oldest School Replacement. Built in 1949, Lake Grove Elementary is one of our oldest elementary schools and is rated in the poorest condition based on third-party facility condition assessments. Lake Grove has obsolete systems and deteriorating infrastructure, including plumbing embedded in concrete and foundations that cannot be seismically upgraded. Replacement would be less costly than major repairs. If passed, this bond would:

- Construct a new school building for Lake Grove Elementary at its current site.
- Implement sustainable construction materials and design to support healthy, safe, and efficient operations.
- Construct to Level 4 "Immediate Occupancy" standards to withstand a significant seismic event.
- Make right-of-way improvements to the parking lot, sidewalks, and neighborhood traffic patterns.

If LOSD voters pass the bond measure in November 2025, construction at Lake Grove would begin after the Forest Hills replacement opens. During construction, the school community would be housed at Uplands.
