DRUG AND ALCOHOL TESTING OF STUDENTS IN NONACADEMIC ACTIVITIES

The Beaver Local Board of Education believes that participation in extracurricular activities and taking responsibility for transportation to and from school are important markers in students' educational experience and personal growth. Nonetheless, the Board recognizes that participation in nonacademic activities is a privilege that carries with it the responsibility for the safety of the entire Beaver Local Schools community.

Acknowledging that peer pressure has a significant impact on student life, and recognizing that observed and suspected use of alcohol, tobacco, and illicit drugs by Beaver Local Schools students is a serious concern, a program of deterrence will be instituted as a proactive approach to a truly drug-free school environment. This program shall apply to all students, grades 7 through 12, who participate in school-sponsored athletics or other extracurricular activities for which a grade is not given, and to eligible students who wish to obtain a parking permit. The purpose of the drug and alcohol testing program is:

DRUG AND ALCOHOL TESTING REQUIREMENTS

1. To provide for the safety of all students;
2. To undermine the effects of peer pressure by providing legitimate reasons for students to refuse to use drugs, tobacco, or alcohol;
3. To encourage students who abuse drugs to participate in drug treatment programs; and
4. To prevent the impact drug and alcohol use has on the learning centers of the brain, allowing students to achieve their full academic potential while attending Beaver Local Schools.

Upon request to participate in athletics, extra-curricular activities, or to obtain a parking permit, parents and students will be required to provide written consent for testing prior to participating in the nonacademic activity, and to submit to random testing on a periodic basis throughout the course of the selected activity. The cost for testing shall be the responsibility of the Board of Education, unless a split sample test is requested by parent and/or student.

The Board may contract with an external agency for the purpose of collecting and analyzing test samples. All samples will be collected under the supervision of medical personnel, and in a manner that protects the privacy of students being tested. Any student who fails or refuses to produce a sample will be prohibited from participation in their designated activity until a sample is obtained and tested.

The results of the tests shall not become part of the students' permanent record. Test information shall only be released to persons designated in Board regulations and procedures. Test results will not be reported to law enforcement authorities, and test information will not be released to law enforcement or other parties except in response to a lawfully executed subpoena. In the latter case, parents will be notified within forty-eight (48) hours of the receipt of the subpoena.

This drug/alcohol testing policy is non-punitive. However, the testing program does not affect current policies of the Board regarding student drug, tobacco, or alcohol possession or use, where reasonable suspicion is established by means other than testing as outlined in this policy. Any student who in any way aids or abets another student in violating this policy will be subject to discipline.

The Superintendent shall establish procedures for implementation of this policy, and for addressing any violations.
