
Relations with Charter Schools

The Board of Education (the “Board”) for Mapleton Public Schools (the “District”) supports efforts by parents/guardians, teachers, or other interested persons or organizations interested in establishing charter schools within the District. In accordance with State law, District charter schools are intended to:

- Expand learning opportunities for all students.
- Encourage diverse approaches to learning and education through the use of different, innovative, research-based, or proven teaching methods.
- Provide parents/guardians and students with expanded choices in the types of educational opportunities that are available within the public-school system; and,
- Encourage parental and community involvement with public schools.

A District charter school is a public, nonsectarian, non-religious, non-home-based school which operates within the District and is accountable to the Mapleton Public School's Board of Education. It is subject to all Federal and State laws and constitutional provisions prohibiting discrimination on the basis of disability, race, creed, color, sex, sexual orientation, marital status, national origin, religion, ancestry, age, genetic information, need for special education services, or conditions related to pregnancy or childbirth. A District charter school has standing to sue and be sued in its own name for the enforcement of any contract it is authorized by law to enter into.

Enrollment is open to any child who resides within the District or in contiguous school districts and who meets the criteria in the District charter application. However, no charter school is required to make alterations in the structure of its facility or the arrangement or function of rooms within the facility except as may be required by State or Federal law. The majority of the District charter school's students, other than online students, must reside in the District or in contiguous school districts. Students participating in any online program offered by the District charter school are not required to reside in the District or contiguous districts, and there is no restriction on the number of online students that may enroll in any online program offered by the District charter school, except as provided in the charter school contract. A District charter school will not charge tuition except as otherwise provided by law.

Policy LBD

Each District charter school is to be governed by its own governing body in a manner agreed to by the District charter school applicant and the Board. An approved District charter application will serve as the basis for negotiating a contract between the District charter school and the Board. The contract must reflect all agreements between the District and the District charter school, including the waiver of local District policies and the waiver of statutory requirements or rules by the State Board of Education.

A District charter school must comply with all the State financial and budget rules, regulations, and financial reporting requirements with which the District is required to comply.

A District charter school is responsible for its own operation, including but not limited to the preparation of a budget, contracting for services, and personnel matters. Services for which a District charter school contracts with the District will be negotiated and provided at District cost. No rent will be charged for the use of District facilities that may be deemed available by the Board for the District charter school. Any monies received by a District charter school from any source that remain at the end of any budget year will be retained in the District charter school account for use by the District charter school in subsequent years.

A District charter school may offer any educational program that may be offered by a school district, including an online program, unless expressly prohibited by its District charter or by State law.

Each charter school will have an educational program that is researched-based and proven to be effective with student performance standards and curriculum that meets or exceeds District and State standards.

If the Board approves a district charter school's application, a district charter school will use the school and fiscal year, July 1 to June 30, following the submission of their charter application as a planning year. A district charter school will begin in the fall of the school and fiscal year following the planning year, unless another starting time is agreed upon by the Board and the applicant.

The period for which a new District charter may be approved is a minimum of four academic years. Renewal of a District charter must be for specified periods of time.
