

How to Order From the School Nutrition Program

1. Food Service Request:
   Each group or individual requesting catering services must fill out a Food Service Request form located in each office. This form includes the information needed to cater your event.

2. Menu & Service:
   Enclosed you will find menu selections for all occasions. Individual or unique requests are our specialty. We will tailor any menu to fit your needs.

3. Billing:
   When completing the Food Service Request form, you must provide the code number of the appropriate budget account to be charged or a billing address. If collecting from staff for a meal, this must be done in a designated office with a list of who paid. This list must be turned in prior to the event.

4. Guaranteed Count:
   When completing the Food Service Request form, give the estimated number if you're unsure of exact count. Five (5) days prior, we must have guaranteed number of people to ensure proper service and planning. If no guarantee is received, we will consider the number on the Food Service Request form to be the final number.

5. Prices:
   The prices on the menu include labor, these prices may change if the price of the food fluctuates substantially. Contact our office for weekend prices, these are higher due to overtime pay for cooks.

6. Unforseen Events:
   If district employees are serving your event and you are not ready to eat at the requested time, you may be charged additional fe to cover employee's additional time.
