

Career planning is an ongoing process – one that benefits from the help and support of others. Think about long-term goals and whether you need to build certain skills, gain experience, or create a financial plan.

1. Begin to explore careers
2. If you haven't done so yet, write your [resume](#).
3. Start to build a personal network of teachers, professionals and other students who may be able to help you later
4. Look for a summer job at local employment center
5. Take advantage of career center programs, workshops and job fairs.
