Internet Enabled Devices (Cell Phones & Smart Watches)

In accordance with state law and our Board of Education policy, students are not permitted to use personal electronic devices during the school day.

We urge parents to not send devices with students to school. If you chose to send a device with your child they must remain powered off and stored in backpacks throughout the day.

We understand that technology plays a big role in our lives, but we also know that minimizing distractions during the school day helps create a more focused and respectful learning environment. As in previous years, if a teacher sees a student using a device, they will ask the student to put it away in their backpack. If the student does not comply, they will be sent to the office, where the device will be held and a parent or guardian will be contacted. In cases of repeated behavior, administration will follow up directly with the student and family.

If a parent needs to reach their child during the school day—or if a student needs to contact home—please call the main office or email the student’s teacher. Students will also be able to make calls home if necessary through the main office or with the support of their grade-level aides.

We will be reviewing this policy with students during our first Town Meeting, and we’ll also be sending home additional information to ensure everyone is on the same page.
