

## Behavioral Health School Liaison (BHSL)

The Behavioral Health School Liaison facilitates the implementation of a school-based behavioral health model. The Mental Health Intervention Team (MHIT) consists of the BHSL, the assigned therapist and ICS for each of the buildings. The BHSL is a pivotal member of the school behavioral health team that works collaboratively with the mental health agencies to address the needs of students in the foster care system, as well as other students identified as needing additional behavioral health support.
