

Dear ASM Community,

It is with gratitude and anticipation that we announce that Headmaster Ben Weinberg will be leaving ASM, and that we are beginning a global search for his successor.

Ben has consistently championed ASM's mission and vision for more than a decade. His many achievements include expanding campus facilities such as the Middle School and Don Quijote Park, navigating the global pandemic with minimal disruption, promoting a culture of giving with the new scholarship program at its core, and strengthening a culture of belonging at our school and within the ASM community. We are grateful for his leadership and unwavering dedication to ASM, and we will miss him as an inspiring leader. Please join us in thanking Ben for all that he has done for ASM.

Ben will continue as Headmaster as we begin today, a global search for a new Head of School. At ASM, we believe that education is a continuous, lifelong journey—one that must be purposeful, relevant, and deeply connected to the world beyond the classroom. Today's radically new landscape, shaped by rapid technological change and intense global and local competition, demands bold change grounded in our DNA and mission, and focused on the pursuit of ever-higher levels of achievement at ASM. We are seeking a new leader who will empower our students to meet academic, social, emotional, and profoundly disruptive technological challenges with confidence and resilience, while continuing to cultivate an environment where all students can thrive with the support of our community and its unique sense of belonging.

We have engaged a world-class international firm dedicated to educational leadership and recruitment, Carney, Sandoe & Associates, to assist in our global search for a new Head of School. They will provide strategic advice throughout the search process and assist us in identifying, interviewing, and selecting the best possible leader for ASM.

We have established a number of strategic priorities for our next leader: pursue excellence in academic standards while preserving ASM's core values; improve university placement; support and elevate a culture of professional and operational excellence; navigate technological innovation with purpose and discernment; strengthen ASM's market position and enrollment; and energize fundraising and institutional growth.

Together, we will build on the solid foundations of the past and our shared common purpose as we face the challenges ahead head-on. We appreciate your patience and seek your support as we continue to strengthen ASM's position as a leading American college preparatory school in Europe.
