

Dear ASM Community,

As you have read, the ASM Board of Trustees has announced that they are initiating a search for a new head of school. The single most important job of the Board of Trustees is the recruitment, development, and support of the head of school. I want you to know that I am committed to supporting the process with energy, optimism, and determination. It is also my commitment to the school and the school community to carry forward the initiatives and work in progress in the areas of teaching and learning excellence and student well-being with the same energy, optimism, and determination.

It is and has been a pleasure and a source of deep professional and personal satisfaction to serve the Lancer community. It is and has been a privilege and an honor to serve with the ASM staff.

To ASM students, I want you to know that my focus is entirely on ensuring that your experience at ASM, from classroom to playground, develops both your mind and your heart and stretches you to reach your fullest potential.

Yours in learning,
Ben
