COMMUNICATION FROM BOARD PRESIDENT:

Mr. Jason Powers summarized where he views Lakeview moving forward. Four years ago during contract negotiations, it was determined that we were overstaffed compared to enrollment. The Board created initial incentives that did not draw enough retirements and a second incentive was offered. We have an obligation to taxpayers and an obligation to students for a good education. We need to craft a sustainable model with enrollment dropping. At the

last minutes, we had Teachers take the incentive and a few Teachers decided to go elsewhere, which has put us in a situation where we need to hire. We need to build the best version of Lakeview with the changes moving forward. Things will look different. We are not cutting stem – just moving things that may look a little different. But, we have Teachers who want to teach and Administrators that want to be here.

RECOGNITION OF VISITORS/PUBLIC COMMENT PERTAINING TO THE AGENDA:

- Amanda Reddinger thanked the Board for the opportunity to speak. She did not know what stem was in the beginning but she now has such positive things to say about those skills that are acquired by students – problem solving, building confidence, unlocking skills, critical thinking – every skill applies to jobs now. Students have traveling to competitions and won. That shows that what they are learning is being applied. She understands that it will be placed back into the classroom but is worried about the time commitment. Stem is critical and needs the necessary time dedicated to teaching it.

OLD BUSINESS:

- Mr. David Pears – Transportation Committee Chair: H&W took the contractor (Professor's routes and ran them with a bus. H&W determined that the majority of the routes the Professor developed were 45-50 minutes over his estimated times. Also, the Professor was estimating 7-8 turnarounds which is unheard of. H&W recommended going from 13 to 12 buses by combining routes and having 5 Amish routes – with a cost savings of \$154,000. Mr. Pears noted that there are still things that need to be worked out with the Amish routes and the advantage of running H&W's routes is that routes will remain the same.
- Mr. Travis Elder, Transportation Committee Member, noted that the turnarounds are not feasible. He believes that H&W are experts and would go with her routes. He suggested to take the savings and reinvest the money into additional routes when needed.
