Pony Post September 2025

School is up and moving here at Havre Public Schools. As our Ponies are now filling up the classrooms, we reflect upon where we want to go this year. The 2025-26 school year has high expectations from our staff when it comes to meeting the needs of all children attending our district.

Over the summer, Havre Public Schools has updated carpet in the middle school band and choir rooms. Roof updates have occurred at Sunnyside Intermediate, along with siding updates to the west side of Lincoln McKinley. All route transportation now has functional cameras for everyone's safety.

As we move into the fall, Havre Public Schools is looking forward to an outstanding Homecoming week. During the week of September 22-27th, there will be a lot of opportunities to see your Ponies compete. Jordan Overstreet, the Havre High School Activities Director will be sending out information regarding this fun filled week!

This year, please check out our school district website, Facebook, and Infinite Campus for monthly parent updates. Havre Public Schools is always looking for more opportunities to connect with families. I believe communication is the key to keeping everyone in the loop with the expectations we have at Havre Public Schools.

If you have any questions at any time, please reach out to me directly!

Sincerely,

Brian Gum
