STUDENT SAFETY IN NEW YORK

Why Stop-Arm Enforcement Programs

Every day 2.3 million children are transported by school buses throughout New York State. Data has shown that **on a single school day, an estimated 50,000 drivers throughout the State illegally pass stopped school buses.**

Moreover, the National Safety Council reports that 70 percent of deaths related to school buses occur outside of the bus. Additionally, more school-age pedestrians have been killed during the hour before and after school than at any other time of day.
