Goals for Tutoring

Specific concerns:

Do you expect this to be short term (one or two sessions) or longer term (duration of a course)?

Are you looking for a tutor who is tutoring for service hours only, or are you willing to pay a
tutor? _____

Keeping in mind that the tutors we have are students and not trained professionals, we would like to know your specific goals for these sessions. (examples: homework help, go over old quizzes or tests, answer questions, etc.)

Have you communicated with your child's teacher regarding any issues? _____

When and where do you expect the sessions to take place? (at school or another location/before or after school or on weekends or evenings)

Our students will not be transporting students to another location for tutoring sessions.

To successfully match your child with a tutor, it helps us to have some personal information to find shared interests. What are some things your child enjoys? Examples might include sports, hobbies, etc.

Do you have any special considerations you would like to share regarding a tutor preference?

We will be providing you with contact information for a student when one is selected. Please keep the information confidential as the tutors are minors, and we only have permission to give information to parents requesting tutors within our school. Also, our high school students are all involved in extra curricular activities and have busy schedules. Once you agree on a time and location, please be respectful and make sure your child is picked up at the agreed upon time.
