

GRADES 9-12

PATHWAY TO PACKER PROMISE

South St. Paul
Public Schools

Core Classes & Targeted Support

Core classes in Mathematics, English Language Arts, Science, and Social Studies form the foundation of a well-rounded education, equipping students with essential knowledge and skills for future success. Targeted support, including Multilingual, Special Education, Reading and Math Intervention, and Talent Development, offers individualized enrichment and skill-building.

Academic Planning & Counseling

Academic Planning and Counseling at SSPPS helps students navigate their educational journey through individualized support, addressing challenges, providing resources, and planning courses to align with their interests. This supportive environment empowers students to explore, set goals, and achieve academic success.

College & Career Advising

Students will have more personalized touchpoints throughout the year to navigate post-secondary education and career choices, supported by tools to identify strengths and align them with their academic journey. SSPPS partners with local businesses and colleges to offer resources like guest speakers, industry visits, and mentorships, providing practical experiences beyond the classroom.

Enhanced Pathway Discovery

Students will immerse themselves in learning experiences featuring real-world simulations, interactive discussions with guest speakers, enriching field trips, and curriculum-aligned activities seamlessly interwoven into their core classes. These personalized experiences are crafted to streamline with the array of high school pathways, empowering students in their journey of exploration and discovery.

Extracurricular Opportunities

Students can explore their interests through enrichment opportunities during and after school, including affinity groups, athletics, theater, academic clubs, and community service. These programs foster creativity, teamwork, and personal growth, supporting a well-rounded educational experience.
