

Title I Family Engagement Policy 2025-26

Achieve Academy

At Achieve Academy, we believe that the involvement of parents, guardians, and family members of our students in their education is crucial to their level of success. Parents and families play an integral role in helping students with their learning as their first teachers and life-long support system. We encourage parents to actively participate in their student's education in as many ways as possible to support their success. As a school community, we value the input of parents as a partner in designing the educational program for our Achieve Academy students, and we continually seek new ways to engage families in the educational process. We encourage parents and families to communicate closely with teachers and staff regarding your student's needs and ideas for engaging families and improving school programs.

Wylie ISD encourages continuous communication between teachers and parents. A student's educational future is based upon teachers and parents working together. It is always a good educational practice for parents and teachers to conference in regard to progress and lack of progress of a student.

Parents are encouraged to schedule conferences. Parents are urged to meet with the teacher during the conference period in regard to the progress of their child. Parents must sign in at the office when arriving at school and must wear a visitor's badge.

Parents have reasonable access to teachers and staff in a variety of ways, including email, leaving a phone message with the receptionist, or setting up a parent conference. You may contact a teacher via email at any time. You may contact a teacher by phone through our front office at any time of day by leaving a message with the receptionist. You may not contact them in their classroom between the hours of 7:30 and 2:40. Teachers respond to emails and phone calls before or after school or during their conference period.

To schedule an appointment with the principal or assistant principal, you may call 972-429-2390 or email the teacher to schedule a conference.

We encourage you to engage with us early and often and welcome hearing your ideas for improvement of our programs and better meeting the needs of your student. We look forward to working with you and your student during this school year.
