
Administration of Medical Marijuana to Qualified Students

The Board of Education (the “Board”) for Mapleton Public Schools (the “District”) strives to honor families’ private medical decisions while ensuring a learning environment free of disruption. To accomplish these goals, the District restricts the administration of medications, including medical marijuana, during school hours unless administration cannot reasonably be accomplished outside of school hours.

Administration of medical marijuana to qualified students must be in accordance with this policy. Administration of all other prescription and nonprescription medications to students must be in accordance with applicable law and the District’s policy concerning the administration of medications to students.

Definitions

For purposes of this policy, the following definitions apply:

“Designated location” means a location identified in writing by the district in its sole discretion and may include a location on the grounds of the school in which the student is enrolled, upon a school bus in Colorado, or at a school-sponsored event in Colorado.

“Medical marijuana” means a cannabis product with a delta-9 tetrahydrocannabinol (THC) concentration greater than 0.3 percent.

“Permissible form of medical marijuana” means non-smokable products such as oils, tinctures, edible products, or lotions that can be administered and fully ingested or absorbed in a short period of time. Patches and other forms of administration that continue to deliver medical marijuana to a qualified student while at school may be appropriate for students on a case-by-case basis, as determined by the District when adequate protections against misuse may be made. Forms of medical marijuana not included in this definition may be proposed by the qualified student’s primary caregiver to the Superintendent (or designee), who may authorize such a request after consultation with appropriate medical personnel chosen by the District.

“Primary caregiver” means a qualified student’s parent, guardian, or other responsible adult over eighteen years of age who is identified by the student’s parent/guardian as the qualified student’s primary caregiver. In no event may another student or a staff member be recognized as a primary caregiver, unless the staff member is the student’s parent/guardian. Any primary caregiver seeking access to school or District property, a school bus, or school-sponsored event for purposes of this policy must comply with the

Board's policy and/or procedures concerning visitors to schools and all other applicable policies.

"Qualified student" means a student who holds a valid registration from the State of Colorado (license issued by the Colorado Department of Public Health and Environment) for the use of medical marijuana and for whom the administration of medical marijuana cannot reasonably be accomplished outside of school hours.

Permissible Administration of Medical Marijuana to a Qualified Student

A qualified student's primary caregiver may administer a permissible form of medical marijuana to a qualified student in a designated location if all of the following parameters are met:

1. The qualified student's parent/guardian provides the school with a copy of the student's valid registration from the State of Colorado authorizing the student to receive medical marijuana;
2. The qualified student's parent/guardian signs a written acknowledgement assuming all responsibility for the provision, administration, maintenance, and use of medical marijuana under State law, and releases the District from liability for any injury that occurs pursuant to this policy;
3. The qualified student's parent/guardian or primary caregiver must be responsible for providing the permissible form of medical marijuana to be administered to the qualified student;
4. The District determines, in its sole discretion, that a location and a method of administration of a permissible form of medical marijuana are available that do not create risk of disruption to the educational environment or exposure to other students;
5. After administering the permissible form of medical marijuana to the qualified student, the student's primary caregiver must remove any remaining medical marijuana from the grounds of the school, District, school bus or school- sponsored event; and,
6. The District prepares, with the input of the qualified student's parent/guardian, a written plan that identifies the form, designated location(s), and any protocol regarding administration of a permissible form of medical marijuana to the qualified student. The written plan must be signed by the school administrator, the qualified student (if capable), and the qualified student's parent/guardian.

Additional Parameters

School personnel may not administer or hold medical marijuana in any form.

This policy conveys no right to any student or to the student's parents/guardians or other primary caregiver to demand access to any general or particular location on school or District property, a school bus, or at a school-sponsored event to administer medical marijuana.

This policy does not apply to school grounds, school buses, or school-sponsored events located on federal property or any other location that prohibits marijuana on its property.

Permission to administer medical marijuana to a qualified student may be limited or revoked if the qualified student and/or the student's primary caregiver violates this policy or demonstrates an inability to responsibly follow this policy's parameters.

Student possession, use, distribution, sale, or being under the influence of marijuana inconsistent with this policy may be considered a violation of District policy concerning drug and alcohol involvement by students or other policy, and may subject the student to disciplinary consequences, including suspension and/or expulsion, in accordance with applicable District policy.

If the Federal government indicates that the District's Federal funds are jeopardized by this policy, the Board declares that this policy must be suspended immediately and that the administration of any form of medical marijuana to qualified students on school property, on a school bus, or at a school-sponsored event must not be permitted. The District must post notice of such policy suspension and prohibition in a conspicuous place on its website.

Adopted October 23, 2018, by the Board of Education for Mapleton Public Schools.

Revised September 22, 2020.

Revised January 26, 2021.
