Note 1: For the change columns, green indicates an increase, red indicates a decrease and yellow indicates no change or not applicable.

Note 2: Due to the COVID-19 pandemic, students whose parents did not allow them to come into the building for test administration were able to use their score from the TE21 Practice Test to count as the regular test score in place of the EOC exam during the 2020-2021 school year.

Note 3: Per SCDE, districts and schools should use caution in interpretation of assessment results for the 2020-2021 school year due to testing conditions as a result of the pandemic. Results should not be interpreted in the same way as results from other school years. While the administration of this test is state mandated, some families did not feel comfortable bringing their child in for testing. When participation rates are low, the summary results may not be representative of the district or school populations.

Note 4: The 2022-2023 school year data in this report includes tests taken during the Fall and Spring administrations. There were no test takers in Summer 2023.

Note 5: Scores for tests taken during the Summer 2025 administration year were not available at the time of analysis. Data for 2025 include only the Fall 2024 and Spring 2025 administrations of the EOCEP. This report is subject to change.
