### WHAT ELSE WE HEARD FROM YOU.

- **Make school matter.** You want to learn real-life skills, things like financial literacy, career exploration, and knowledge that prepares you for life, not just tests.
- **Relationships matter, too.** Most of you have an adult who cares, but many still want more support and connection. Kindness and understanding go a long way.
- **You're feeling the pressure.** Stress, mental health, and a need for more balance came up a lot. You want to succeed, but not at the cost of your well-being.
- **You want to be seen and heard.** You're asking for more voice, more choice, and a say in how you learn.
- **Fairness and belonging are a must.** Almost all of you said students should be treated fairly and with respect. Feeling safe, included, and valued matters.
- **You believe in BHS.** You see the strengths like strong academics, diversity, and opportunities, but you also know there's room to grow, and you want to be part of making it better.
