Rutgers University—Camden
Cherry Hill Public Schools
Dual Enrollment Pilot

Sandra Richtermeyer, Ph.D.

Provost

Rutgers University—Camden

Christopher Wahl, M.A.

Special Assistant to the Provost

Rutgers University—Camden

The Value Proposition

To provide authentic, affordable university classroom opportunities that enhance existing academic pathways and leverage existing college credit opportunities so that CHPS students can effectively complete their freshman year of college before high school graduation

College credit opportunities for high school students usually fall into three broad models

Credit Focus
AP Courses

- Earn college credits
- Credit equivalency awarded based on test or certification
- Tied to a high school class
- Credit is accepted upon matriculation
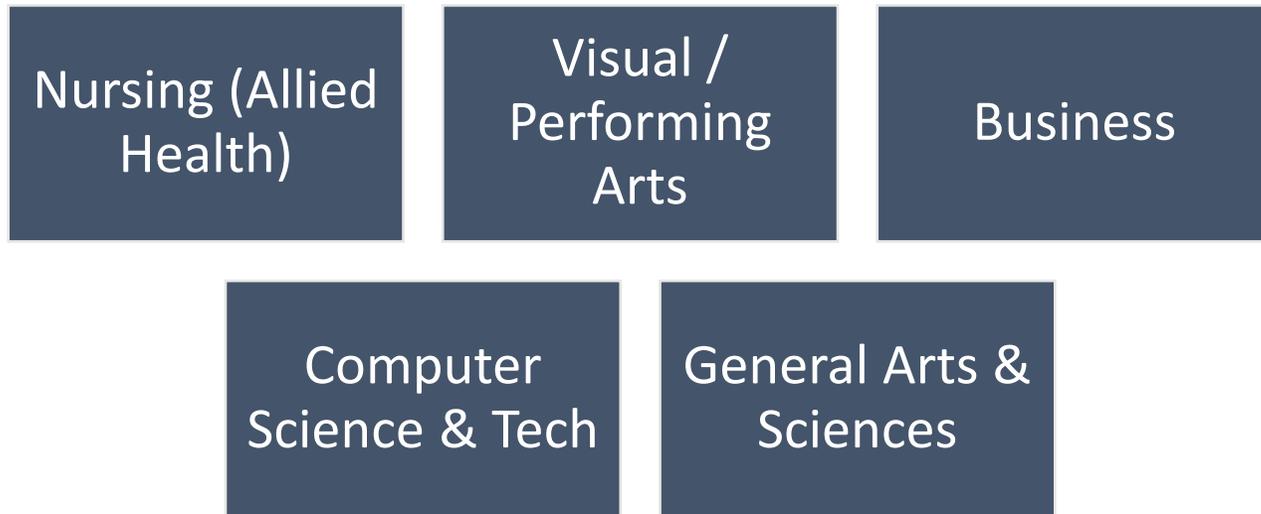

Curriculum Focus
Traditional Dual Enrollment

- Engage college curriculum in familiar setting
- College approved high school teacher with college curriculum
- Usually in high school classroom—100% HS population

Experience Focus

- On college campus
- College faculty
- Dual enrollment students join larger college class
- Tuition is slightly discounted

RUTGERS

Cherry Hill Public Schools and Rutgers University—Camden: A shared vision
