

PAWS Club Contract

PAWS club will sometimes have visits from live animals from local shelters, rescues, trained therapy animals, etc. Our guest speakers will be asked to only bring animals that would be comfortable in a group setting and interact well with students. However, we know that animals can be unpredictable. Because of this, it is very important for students to follow our club rules and adult directives. If a club participant does not follow club rules or adult directives, he or she will be asked to leave the meeting. If asked to leave on more than one occasion, students will not be permitted to attend future club meetings. In PAWS club, it is expected that students will exhibit North's values by continuing to be Accountable, Respectful, and Engaged.

-  I will follow the directives of our club sponsors and adult visitors during club meetings.
-  I will treat adults and peers with respect by listening quietly when others are speaking, speaking kindly to others, and respecting different points of view.
-  I will not use my phone during club meetings unless I have asked for and received adult permission. I will keep my phone in my pocket or backpack.
-  If I have a question, I will raise my hand and wait patiently for an adult to call on me.
-  I will not approach animal guests unless I have been invited to do so by an adult. When I interact with animals, I will do so in a calm & gentle manner.
