

## Curriculum & Instruction Reference Glossary

**Amplify CKLA:** Science of Reading-aligned reading program used in Grades K-5

**Bridges in Mathematics:** Elementary mathematics program used in Grades K-5

**Durable Curriculum:** A curriculum designed to develop long-lasting, transferable skills that remain relevant and valuable over time, particularly those that are resilient and not easily replicated by Artificial Intelligence.

**Forefront:** Digital platform that collects and visualizes data for the Universal Screener for Number Sense (USNS) and Bridges assessments in Grades K-5

**Illustrative Mathematics:** Problem-based mathematics program used in Grades 6-8

**mCLASS:** Digital platform that uses DIBELS to screen students' reading skills in Grades K-5

**MTSS (Multi-Tiered System of Supports):** A general education three-tiered framework designed to support academic, behavioral, and social-emotional outcomes for all students. Tiered supports are data-driven and evidence-based.

**PAWS/THRIVE/SMILE:** Specialized programs for students with more intensive needs, grades K-8

**Safety-Care:** Research-based training focused on de-escalation

**Tier 1:** Universal supports for all students in the general education classroom accessing core curriculum

**Tier 2:** Targeted supports for students that have not responded to Tier 1 instruction

**Tier 3:** Intensive supports for students who have not responded to Tier 1 and Tier 2
