PRINCIPAL SPOTLIGHTS

Celebrating Exceptional Leaders

Shanna Rae

University Park Creative Arts Elementary School

Principal Rae is starting her 3rd year as principal at University Park and 7th year as a principal in Charlotte-Mecklenburg Schools. During her leadership the last two years, University Park has exceeded growth each year and the school's school proficiency score has increased from a composite score of 34 to 63 in just two years - all while also transitioning this school to a full elementary arts magnet school.

Along with other school-based improvement efforts, Principal Rae can speak to the use of data to drive instructional decisions, using real time data to form small groups for student learning. Her school has a mindset of having all hands on deck and every adult works with students on what they need to be successful.

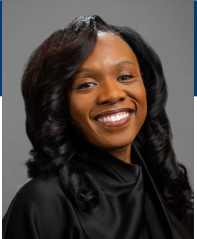

Bobby French

Pineville Elementary School

Principal French is starting his 7th year as principal at Pineville Elementary. During his leadership at Pineville Elementary, Pineville has increased a school letter grade from a C to a B and has exceeded growth for 3 consecutive years - this past year with a school growth index of 4.07.

Along with other school-based improvement efforts, Principal French can speak to utilization of strong data driven practices to ensure all students receive access to grade level instruction with intentional just in time supports. He has led the Pineville team in the execution of key strategies including targeted small group instruction, student discourse, and academic monitoring.

LaTresha Wilson

Tuckaseegee Elementary School

Principal Wilson is entering her 3rd year as principal at Tuckaseegee Elementary. During the first year of her principalship at Tuckaseegee Elementary School, the school performance grade increased from a D to a C. And in her second year - 2024-25 - the school performance grade has increased yet again to a letter grade B, with a school growth index 10.26, ranking in the top five in growth across all schools in Charlotte-Mecklenburg Schools.

Along with other school-based improvement efforts, Principal Wilson can speak to the power of aligned leadership, data-driven instruction, and a deeply rooted culture of trust and high expectations. She has led the Tuckaseegee team in building highly effective professional learning communities that engage in regular cycles of data and student work analysis, developing instructional action plans, and consistently monitoring and responding to student progress.

PRINCIPAL SPOTLIGHTS

Celebrating Exceptional Leaders

Sarah Lang
Charlotte East Language Academy

Principal Lang is entering her 5th year as principal at Charlotte East Language Academy. In the 2024-25 school year, Charlotte East improved its school performance grade, also exceeding growth with an incredible school growth index of 7.24. Amazing!

Along with other school-based improvement efforts, Principal Lang can speak to Principal Lang improved student outcomes by strategically using data to set goals and drive instructional impact, embedding the belief that every child must grow more than a year regardless of prior performance. She also prioritized recruiting and retaining excellent teachers and leaders through ongoing coaching, professional development, and positive culture-building strategies.

Larenda Garvin
Eastway Middle School

Principal Garvin is entering her 4th year as principal at Eastway Middle School after successfully serving as principal at Idlewild Elementary School for 8 years. In the last three years, Eastway has increased a school letter grade, exceeding growth for two of the last three years with this last year's school growth index being 2.72. This means that Eastway Middle no longer has a low performing designation for the second consecutive year!

Along with other school-based improvement efforts, Principal Garvin can speak to the effectiveness of well-planned, data-driven small group instruction. By strategically utilizing EVAAS data, she successfully enhanced student academic achievement.

Tanya Branham
Phillip O. Berry High School

Principal Branham is entering her 4th year as principal at Phillip O. Berry Academy of Technology after successfully serving as principal at Mountain Island Lake Academy for 6 years. Last year, Phillip O. Berry maintained a school letter grade of a B and exceeded growth with a school growth index of 3.76. What's more - Phillip O. Berry has a graduation rate of 97.7%!

Along with other school-based improvement efforts, Principal Branham can speak specifically to data systems, and build a sense of community to monitor and make adjustments when needed to ensure students are successfully academic and graduate on time.
