

OSHA 10 Certification

The purpose of this Report to the Parents is to give an update on the performance and progress being made toward the school's improvement goals. In this report, we have provided brief goals, programs, activities, achievements, and awards that were earned by our students.

School Goals

- ◆ To increase the number of completers according to the state of South Carolina CTE requirements.
- ◆ To increase the number of graduating students who receive Career Ready status by achieving a certification and becoming a CTE completer in their Career Pathway.

Student Opportunities

FCTC students have the opportunity to participate in several student organizations as an extension of their respective programs. CTSO's help develop students in essential skills such as problem solving, communication, team work and interpersonal skills. They help students gain a positive image through competitive skill events, academic rigor, leadership development and service learning projects. Students who participate in CTSO's serve their communities and state with pride while gaining a competitive edge in the workforce and post-secondary colleges and universities.

News from FCTC

During the 2024-25 school year, FCTC continues to shine with outstanding achievements across multiple disciplines! Our talented students have demonstrated excellence by winning top honors at the State FBLA, SkillsUSA and Robotics competition. These victories reflect FCTC's commitment to preparing students for success through hands-on learning, leadership development, and career-focused education. We are incredibly proud of our students and instructors for their hard work, dedication, and pursuit of excellence! They will be competing at nationals this summer.

FCTC has also worked with the Licensing and Labor Board for barbering to incorporate testing for high school students prior to graduation. Due to the diligent efforts of Mr. McKnight, the barbering instructor, students across South Carolina can now take their barbering licensing exam prior to graduation. In the past, all barbering students could only test after they completed their 1500 hours and have completed high school.
