BRAYMER C-4 DISTRICT PHILOSOPHY AND BELIEFS

By providing a diverse, complete educational program, the Braymer C-4 School District, in partnership with our community, strives to produce responsible citizens well-versed in basic skills and literate in technology. District graduates will be able to solve problems and demonstrate a positive attitude toward learning and education.

We believe teachers and parents are responsible for guiding and motivating students.

We believe that students must assume responsibility for their own educational progress.

We believe all students possess different learning styles and all styles should be met during the learning process.
