

Anna Robotics Sponsorship Form

The Anna High School Robotics Club anticipates an amazing and exciting year in 2025-2026. With 4 dynamic teams made up of approximately 24 students, under Coach Misty Godwin's leadership, they will develop into the captivating world of VEX Robotics. Students will have a season-long journey of conceptualizing, designing, and constructing competition-level robots. Their engineering notebooks will capture breakthroughs, challenges, and solutions as they strive for 'Engineering Excellence.' More than just building a robot, the program fosters a mindset of continuous improvement. During tournaments, teams will showcase their "bot's" agility, precision, and strategy while Judges interview each team to evaluate their creativity, resilience, teamwork, and attitude. The Robotics program offers an exceptional learning experience, arming students with the essential teamwork and leadership skills critical for success in today's fast paced, ever changing, engineering and technology-based fields.

Join us in supporting this extraordinary journey!

Your contribution empowers the next generation of innovators!

We'll help you build your brand while we help build our teams, so they can build their robots!

100% of Anna High School Robotics' Sponsorship funds directly support the students, their teams and the needs of the organization such as parts, tools, travel expenses and tournament registration fees. **Every dollar makes a difference.**

Anna Robotics operates as a division of Anna High School and has 501(c)(3) status. **Your contributions are tax deductible to the fullest extent of the law.**

To donate, please fill out the Corporate Sponsorship Form and mail it along with your check made payable to **Anna High School Robotics** at 1107 W. Rosamond Pkwy Anna, TX 75409 United States.

Other Ways To Give

If you have equipment, tools, free access to engineering software, services or other things related to the operations of Anna Robotics and you are interested in discussing donation opportunities, please reach out to the Anna Robotics Club via email at Misty.Godwin@annaisd.org. We welcome all opportunities to discuss how we can impact our students and better equip them as the engineers, programmers and problem solvers they are becoming.

Thank you for your help!

Anna Robotics Sponsorship Form
