Welcome Message

Dear Canon-McMillan Families,

The Canon-McMillan School District is pleased to offer an outstanding academic opportunity to our students through the College in the High School (CHS) program at Canon-McMillan High School. This program allows eligible students to earn college credits during their regular high school schedule, giving them a head start on their college education while enjoying the support and familiarity of their high school environment, all at a reduced cost.

Why Choose College in the High School?

Our CHS program offers several distinct advantages to our students and their families:

Cost-Effective College Credits: CHS courses are offered at a significantly reduced tuition rate, making this a smart, affordable way to begin accumulating college credits early. Courses cost a few hundred dollars instead of a few thousand dollars.

Taught by Canon-McMillan Faculty: All CHS courses are taught at our high school by Canon-McMillan teachers who are certified as adjunct professors by our partner colleges and universities.

Transferability of Credits: The CHS program is partnered with regionally accredited institutions—Carlow University, the University of Pittsburgh, Robert Morris University, and Seton Hill University. College credits earned through these partners are recognized by over 98% of colleges and universities nationwide, including major public and private institutions. By already having a college transcript, students can potentially save both time and money by reducing the number of courses needed to graduate.

How to Enroll

Students should select CHS courses when submitting their schedule for the next school year. A full list of eligible courses and college/university partners are available in our high school program of studies and within this document. During the school year, students will be provided with the link to enroll for credit by their CHS teacher.

We encourage all students and their families to consider the advantages of our CHS program— it is a smart, supported, and cost-effective way to begin the college journey early.

If you have any questions about the CHS program or how it fits into your student's academic goals and schedule, please contact your student's school counselor. We are here to help your child make the most of their high school experience while preparing them for a successful future.

Sincerely,

Dr. Ken Crowley
Assistant to the Superintendent

Ms. Jenna Handra
Academic Principal

Mission and Vision

Mission

The mission of the Canon-McMillan School District, in partnership with the community, is to teach, challenge, motivate, and support students to maximize their full individual potential.

Vision

The vision of the Canon-McMillan School District is to graduate all students with effective collaboration skills, the knowledge to utilize resources, and a passion for lifelong learning which are imperative for success in an emerging global society.
