

Setting Up a Parent Account in CANVAS

1. Have your student login to their CANVAS account. Click on the Account Tab in the top left hand corner, and then select "Settings". Next, select "Pair With Observer" in the bottom right-hand corner.

2. Write down the 6 digit code. You'll need this code when creating your parent account.
3. On your device, go to <https://sw1.instructure.com/login/canvas>, and click the link where it says, "Parent of a Canvas User? Click Here For an Account"
4. Fill out the form with a name, email, password, and the 6-digit student code.
5. After signing into CANVAS, you can view your students' course work and grades. To view Courses, select the Courses tab on the left hand side, and then select the course you'd like to look at. To view grades, under "Dashboard" select "View Grades" on the right hand side.
6. You can add multiple 7th-12 grade students to one parent account. Start by repeating steps 1 and 2 to get each students' pairing code. After you have the pairing code, go to the Account Tab in the parents' account, and then select "Observer". From there, you can enter in the pairing code for each of your students.
