		There are currently (2) Wall PIV's at the West Hartford site that are not servicing the current existing sprinkler system and will be demolished. The left wall PIV was at one point a control valve for the F45 gym, we will be taking this PIV down and cutting back to the existing pipe and capping. A new Alarm Valve with a pressure switch will be installed in its place to service the sprinkler system. The right side Wall PIV currently services a Siamese FDC, the fire department will not be using this FDC. We will remove this and "make Safe" cut and cap.						Contractor	<NO NAME>
