

Timberlane Regional High School

Program of Studies
2025-2026

36 Greenough Road, Plaistow, NH 03865
Timberlane.net

A Message for Students

The Program of Studies is updated yearly to reflect the academic offerings and opportunities available to the students of Timberlane Regional High School. In order to provide flexibility for students meeting their graduation requirements, adjustments and changes have been made to this publication. Timberlane Regional School District is committed to preparing all students with the knowledge and skills to be college and career ready as they successfully transition on to their post secondary experiences.

This Program of Studies is a road map for students and families to use on their academic journeys. We recommend that students connect and collaborate with their teachers, school counselors and family members to make decisions that are best fit for each individual. Everyone's journey is unique and should be prepared thoughtfully.

With all of us working together, I am confident that each of you will have a successful academic experience.

John M. Vaccarezza

It is the policy of the Timberlane Regional School District that there will be no discrimination on the basis of age, gender, race, creed, color, religion, marital status, sexual orientation, national ethnic origin, economic status or disability for employment in, participation in, admission/access to, or operation and administration of any educational program or activity in the School District. See School District Policies AC Nondiscrimination/Equal Opportunity and ACA Nondiscrimination Title IX Grievances.

Mission Statements

Timberlane Regional School District Mission Statement

The mission of the Timberlane Regional School District is to engage all students in challenging and relevant learning opportunities, emphasizing high aspirations and personal growth.

TRHS Statement of Core Values, Beliefs, and 21st Century Learning Expectations

The Timberlane Regional High School community values and nurtures the academic, personal, creative, and social growth of all students. We uphold rigorous academic standards and promote continuous improvement through curriculum and experiences that foster excellence, cooperation, and responsibility.

Core Values

Creativity • Responsibility • Respect • Communication • Critical Thinking • Community • Academic Rigor

Beliefs

- All students have the ability to learn.
- Social interactions, interpersonal relations, and communication with others influence learning.
- Motivation determines, directs, and sustains what students do to learn.
- Personalized instruction and educational opportunities honor students' interests, curiosity, strengths, and contributions.
- Open communication and collaboration among staff, students, parents, and community stakeholders ensure a supportive educational environment.
- Students must learn and apply 21st century skills, such as critical thinking, problem solving, communication, and collaboration.
- Exposure to relevant and challenging curricula fosters lifelong learning through real-life application of knowledge and skills.
- Technology is a tool to support and enhance learning and skill development.

21st Century Learning Expectations — Academics

Timberlane students will:

- Read and apply information from a variety of texts.
- Research and gather information effectively.
- Use critical thinking and problem-solving strategies effectively.
- Write effectively for a variety of purposes and audiences.

21st Century Learning Expectations — Social and Civics

Timberlane students will:

- Offer their best effort and be involved, contributing citizens at school and in the wider community.
- Work cooperatively and resolve conflicts peacefully.
- Live responsibly and lend a helping hand to those in need.
- Speak and act respectfully to all.

General Information

About the TRHS Program of Studies

The TRHS Program of Studies is reviewed and approved each year by the TRHS Administration, the TRSD Administration and the TRSD School Board. The TRHS Program of Studies is printed for distribution to TRHS students in preparation for course selections which occur during the second semester of each school year. For a variety of reasons, the TRHS Program of Studies may undergo revisions after the initial distribution date. ***Therefore the online version of the TRHS Program of Studies will be considered the official TRHS Program of Studies.***

The TRHS Program of Studies can be found on the TRHS website at <https://www.timberlane.net/hs/>

Hours of Operation

High School Student Hours	7:20 am — 2:10 pm
High School Office Hours	7:00 am — 3:00 pm
Superintendent's Office Hours	8:30 am — 4:00 pm

Phone Numbers

High School Main Phone Number	603-382-6541
High School Principal	603-382-6541 ext. 3900
High School Counseling Department	603-382-6541 ext. 3922
Superintendent's Office	603-382-6119

Course Levels

Each course in the TRHS Program of Studies is accompanied by a level designation according to the depth and rigor of the curriculum for that course. Courses are designed to meet the student's needs and will have one of four designations: Advanced Placement, Accelerated, College & Career Prep, and Non-Leveled.

Please Note: There may be prerequisites and/or recommendations associated with courses.

Prerequisites: Conditions a student must meet in order to enroll in a course.

Recommendations: Conditions a student is encouraged to meet in order to enroll and have success in a course.

Advanced Placement (AP)

Courses at the Advanced Placement level are approved by the College Board. These courses are very rigorous with curriculum specifically designed to prepare students for the equivalent AP Exam. Students enrolled in AP courses are required to take the equivalent AP Exam administered in May.

Accelerated (ACC)

Courses at the Accelerated level develop skills at an accelerated pace for students who want experiences that will prepare them for advanced work in a college situation.

For inclusion in accelerated classes all students:

- Must be recommended by current teacher,
- Must be recommended by counselor,
- Are recommended to have earned a final grade of 80% or higher in previous ACC course, or
- Are recommended to have earned a final grade of 90% or higher in previous CCP course, and
- Must be in compliance with any additional selection criteria established.

College and Career Preparatory (CCP)

Courses at the College and Career Preparatory level are to prepare students for college and/or career placement. Students taking CCP courses will be qualified for furthering their education in 1, 2, or 4-year institutions, certificate programs, or immediately entering the workforce.

Accelerated (ACC)/College and Career Preparatory (CCP)

In specific courses, designated by ACC/CCP in the course description, students may choose to take a course at the ACC or CCP level. Students who contract to the ACC level must adhere to the predetermined contract. Students must declare at which level they are taking the class by the 5th day of the course.

Non-Leveled (NL)

Non-leveled courses are designed to provide enrichment of a student's program but not affect their cumulative grade point average (GPA). Non-leveled courses will be computed in quarterly grade point averages which are used to determine honor roll status.

Course Weightings/Honor Roll

The course level designation for each course is used to determine quality points, which determines a student's Grade Point Average (GPA). Students receive both a quarterly GPA and a cumulative GPA. Quarterly GPAs are calculated at the close of each quarter, and are used to determine students' honor roll status.

Students receiving a grade of "D" or "F" in any subject will not be eligible for Honor Roll, regardless of their GPA.

Honor Roll Designations:

Honors: GPA = 3.00 to 3.666

Honors w/Distinction: GPA = 3.667 and above

Cumulative GPAs are used to determine students' class ranks and are based on completed courses. Cumulative GPAs and class ranks are calculated at the close of Quarter 2 (completion of Semester 1 courses) and the close of Quarter 4 (completion of Semester 2 courses and Year-Long courses). If any students or parents/guardians have questions about GPA and/or Class Rank, they should contact the School Counseling Office.

Grade	CCP	ACC	AP
A +	4.333	4.667	5.000
A	4.000	4.333	4.667
A -	3.667	4.000	4.333
B +	3.333	3.667	4.000
B	3.000	3.333	3.667
B -	2.667	3.000	3.333
C +	2.333	2.667	3.000
C	2.000	2.333	2.667
C -	1.667	2.000	2.333
D +	1.333	1.667	2.000
D	1.000	1.333	1.667
D -	0.667	1.000	1.333
F	0.000	0.000	0.00

Course Selection Process

The course selection process for Freshman, Sophomores, and Juniors is an eight step process:

1. Class meetings are held in late January or early February with students to discuss the course selection process and new course offerings. Students receive their copy of the TRHS Program of Studies at this time.
2. Students review the TRHS Program of Studies with their parents/guardians.
3. Course Selection Day is held soon after class meetings. Students will receive Online Course Selection Instructions and a Course Selection Worksheet. Teachers will conference with students regarding recommended courses/levels for the following year. Teachers will recommend courses through PowerSchool.
4. Students will have a one week window to register for courses online through PowerSchool. Each student's course requests will be posted on PowerSchool for the student's parents/guardians to review.
5. Students will have individual conferences with their counselor to review their course selections and graduation requirements. Changes can be made at that time if necessary.
6. In April the master schedule is created based on the courses selected by students, teacher availability, and room usage requirements.
7. Individual student schedules are generated and reviewed by counseling staff in May.
8. Student schedules are posted on PowerSchool in August.

IMPORTANT: It is standard operating procedure that students consult with their teachers and counselors to review appropriate course placement for the following year.

Change of Course Requests

Counselors are available on designated days in August for schedule change requests prior to the opening of school. A student asking permission to drop a course should initiate discussions with their parents/guardians, teacher, and counselor. Students are expected to meet with their counselor to explore the pros and cons of the decision. After this meeting, the counselor may arrange a meeting with the student, parent, counselor, teacher, and/or an administrator to discuss potential changes.

There will be no changes to student schedules after the opening of school except under the following conditions:

- The student has been misplaced in a course,
- The student has failed a prerequisite for a course now scheduled,
- The student has a study period and wishes to add a class, or
- There is a major change in the student's plans after graduation.

Withdrawing from a Course

While not encouraged, students do have the opportunity to withdraw from a course with no academic penalty; however, the timeframe is limited. It is recommended that students wishing to withdraw from a course do so during the first five days of the course. Students must meet with their counselor and receive approval to drop/ withdraw from any course.

As a result of the differences in curriculum, students may not be permitted to move from an AP course to the corresponding course at the accelerated level. Specific details will be available on the AP course syllabi regarding specific guidelines for each content area.

Students who withdraw from a full year course after the first thirty school days or from a semester course after the first twenty school days will receive a Withdraw-Failure (WF) for the final grade and no credit will be awarded. A Withdraw-Failure is the equivalent of an F for GPA calculations.

Transfer of Credits

Students who are transferring academic credit from institutions outside of Timberlane Regional High School will need to provide an official record of all completed course work. Upon receiving an official record, a review of the course work will be conducted and credit and GPA weight will be awarded.

Auditing Courses

Students who desire to enrich their academic program may request to audit courses. Auditing of required courses, after successful completion of these courses, is acceptable.

To audit a course, a student will adhere to the following requirements:

- Obtain initial approval from the teacher,
- Register through the School Counseling Office,
- Be accountable for all regular classroom attendance, and
- Be accountable for all in-school/out-of-school assignments deemed appropriate by the teacher.

In cases of conflict, the principal will make the final decision.

The classroom teacher will permit the student to take an active part in all classroom activities. Although no formal credit will be given for class audits, the course will be listed on the student's report card and permanent record with the letter "N", and will be recorded each marking period.

An audited course will not be considered to be meeting the minimum standards established for students (required number of courses per year).

Advanced Placement Program

Advanced Placement (AP) examinations are offered by the College Entrance Examination Board (a non-profit membership organization that provides tests and other educational services for students, schools, and colleges). The AP Program helps schools establish one-year, college level courses for high-achieving students and provides examinations to help colleges judge a candidate's qualifications for advanced placement and college credit. These are rigorous courses that require extra diligence and responsibility by students.

To be eligible for college credit, students must take the AP examination given in mid-May. All students enrolled in an AP class are required to take the AP exam. Students should review the advanced placement policies of the colleges in which they are interested in attending to determine how those schools apply the AP test results.

Early College Credit: Concurrent Enrollment, Dual Enrollment, Running Start

Students at Timberlane Regional High School have the opportunity to earn early college credit in conjunction with local colleges and universities. Students who successfully complete specified courses may have the opportunity to earn high school and college credit. To earn college credit, students must complete all requirements set forth by the partnered college or university which may include an application and course fee. After successful completion, the student is responsible for obtaining the associated college transcript which may be applied to credit at other colleges and universities. A course's early college credit status may be dependent on teacher availability, enrollment numbers, and fees.

Southern New Hampshire University at TRHS

Southern New Hampshire University's (SNHU) dual enrollment program allows high school students the opportunity to earn early college credits while in high school. At Timberlane Regional High School, designated courses have been aligned to meet the same content, rigor and learning outcomes as that of SNHU. The high school teachers instructing these courses meet the SNHU adjunct faculty requirements and have been approved by SNHU. **Students will have the opportunity to take advantage of the dual credit opportunities at the beginning of the courses by completing an application and submitting the course registration fee for each class.** Once the registration period closes, students will not be allowed to register for college credit. Since these courses are college courses, grades earned while enrolled in the course are recorded on a SNHU transcript. Portability and transferability of credits rests solely with individual colleges and universities as they have varying policies on accepting transfer credits; thus, it is the student's responsibility to consult with higher educational institutions to determine whether the SNHU course(s) can be transferred.

Early College Program – Dual Enrollment at Northern Essex CC

Early College, also known as Dual Enrollment, allows a student to take advantage of college classes on the college campus while still enrolled in high school. Students are able to earn high school and college credits simultaneously. There are many reasons why a student might want to take advantage of this opportunity.

- Get a jump start on your college education while saving a significant amount of money
- Take classes that your high school may not offer
- Explore a variety of career paths
- Experience college while still having the ‘safety net’ of high school
- Meet students from other high schools who are equally motivated to move forward in their education

The Early College approach is based on the principle that challenging academics, combined with the opportunity to save time and money, is a powerful motivator for students to work hard and meet rigorous intellectual challenges. The Timberlane/ NECC Early College program blends high school and college in a rigorous, yet supportive program that introduces a variety of career related activities in a student’s intended field. Should students choose to matriculate at NECC, it would take them less than two years to earn an Associate Degree. The credits in this program are transferable to any public college or university in Massachusetts, and many others in New England and beyond.

Timberlane Regional High School will offer students the opportunity to complete their first year of an Associate Degree from Northern Essex Community College for a reduced fee at the college campus. Students will have access to all NECC campus resources including the library, tutoring center and gym. Students will be able to experience high school and college while exploring career options all at the same time.

In this program, Timberlane students are also NECC students. Both institutions are committed to our students’ successful completion of both a high school diploma and the beginning of their Associate Degree. Fall 2025 courses are offered at a reduced rate to be determined closer to the start of the class (for example, 2023-2024 was \$128/ credit) . Students can take advantage of Early College classes at NECC during the summer at the same early college rate.

Current supports for students include:

- Dedicated college advisors who work with the students to promote collaboration between student, faculty and Timberlane
- NECC tutors from the academic support center for several NECC courses
- Access to college resource
- Ongoing support from Timberlane and NECC staff

In order to be eligible for the Early College program students must demonstrate the ability to do college level work and meet college level expectations. Therefore, students must:

- Be passing all of their core academic classes with a C or better
- Be in attendance 85% of the time to TRHS

See the following page for the various pathways available to Timberlane students at NECC.

Early College Pathways

Criminal Justice			
	Fall	Spring	Summer
Year1	English Composition I Psychology/ Sociology	English Composition 2 Criminal Justice	Sociology
Year 2	Computer Applications Ethics	Statistics Criminology	Communications/ Public Speaking

Year 2	Math Elective Computer Applications	Math Elective US History II	Exploring the Arts

Full course descriptions may be found in the [NECC Academic Catalog](#)

Credit Recovery Options

Credit recovery is available for students who fail a quarter of a course at TRHS, but **credit recovery is not available for all courses**. Using Edgenuity, an online educational program, students may recover credit for the prior quarter by completing all outlined modules that connect to the competencies that students previously failed to master. Ideally, students will have access to the Edgenuity system one period per day; however, students may work on modules at home or at other outside locations.

In general, a passing grade is determined by passing the “Mastery Assessment” at the end of a particular module. These “Mastery Assessment” tools are post-tests, and **MAY** be re-taken; Pre-tests (“Inventory Assessments”) **MAY NOT** be re-taken. The passing grade for each module will be determined by the standards set by the Edgenuity program. Passing grades typically are 80%. Students who successfully use Edgenuity to recover a failing quarter will have that quarter’s *percentage* grade changed to 60%. The *quarter* grade will appear as a “D-” on the student’s report card and transcript. The final grade for *the course* will be calculated using the 60% grade. All recovery **MUST** be completed by the close of the following marking period.

Excel Study Program

The Excel Study Program addresses the needs of those students who, for various reasons, need a more structured study environment. The program has a tutorial advisor who monitors the student’s study time in a smaller class environment. Students may receive additional assistance in the areas of organizational skills development and study skills relevant to their success as a high school student. Additional monitoring will take place with weekly progress reports and monthly conferences with the school counselor. Placement in the Excel Study Program is done through the high school counselors only.

Learning Center

Students may receive their specially designed instruction in a special education setting such as in a learning center. Special Education case coordinators will focus on the goals outlined in the student’s individual educational program as determined by the IEP team.

Learning centers are NOT credit bearing, nor is there a curriculum associated with the scheduled learning center placement. Placement in learning center is done through the special education team.

Alternative Credit Options

Credit may be earned through alternative methods outside of regular classroom-based instruction offered by the district schools. Awarding of credits to be applied toward high school graduation will be determined by the building principal or designee, and will be granted only if the request fulfills the following:

- The request is submitted with a plan to achieve competency that meets or exceeds the rigorous academic standards required by the school for students enrolled in a credit course offered by the school.
- The plan includes clear expectations for performance.
- The plan includes clearly defined methods and expectations for assessment.
- Verification of the plan's merit can be evaluated in a timely fashion and does not cause unnecessary burden of the resources of the administration.
- The student demonstrates mastery of the competencies per board policy.

All students who wish to pursue an alternative credit option must receive prior approval through the Assistant Principal of Alternative Programs before beginning the alternative credit option.

Extended Learning Opportunities

The purpose of extended learning opportunities (ELO) is to provide educational experiences that are meaningful and relevant, and that provide students with opportunities to explore and achieve at high levels. Extended learning opportunities may include, but are not limited to, independent study, private instruction, performing groups, internships, community service, apprenticeships, online education, or other opportunities approved by the Superintendent or his/her designee, in conjunction with Board policies.

All programs of study must meet or exceed the proficiencies and skills identified by the New Hampshire State Board of Education, applicable rules and regulations of the Department of Education, all applicable Board policies, and TRSD competencies as outlined by approved curriculum documents. All programs of study proposed through this program shall have specific instructional objectives aligned with the State minimum standards and District curriculum standards. All extended learning opportunities will comply with applicable laws and regulations, including child labor laws and regulations governing occupational safety.

Students wishing to pursue programs of study under these guidelines must first present their proposal to the school's ELO coordinator (Assistant Principal of Alternative Programs) for approval. The name and contact information for the school's ELO coordinator will be found in the Student/Parent Handbook or by contacting the Principal's office or the School Counseling Department. The designated ELO coordinator will assist students in preparing the application form and other necessary paperwork.

Independent Study

Students who desire to pursue individual interests that are not offered in the Timberlane Regional High School curriculum may opt to contract for an independent study program. Circumstances may also warrant that a student pursue regular school subjects on an independent basis. The Independent Study Program fulfills such needs. Students must use the following procedure in order to be accepted into the program:

- The student enlists a faculty sponsor that will assist in developing the independent study proposal.
- The student presents the proposal to the Assistant Principal of Alternative Programs for approval and/or adjustments.
- The student will present the proposal to the student's parent/guardian for approval.
- The student completes and submits the necessary paperwork provided by Assistant Principal of Alternative Programs and the school counseling department.

Internships

The Internship Program is an opportunity for students to gain first-hand knowledge about one or more career paths that they may be planning to pursue. It allows them to learn what skills are used in a particular profession, what other preparation (college and/or training) may be needed, and how what they are learning in the classroom relates to an actual workplace. Participating in an internship may help students gain full-time employment after graduation, or improve their chances for college admission. In some college programs, an internship is in fact required for admission. Internships may be paid or unpaid, and are available to juniors and seniors.

Internships are open to students who:

- Submit an application giving the reasons for seeking the internship, identifying the proposed internship site, and outlining the process for initiating and completing the internship.
- Are enrolled in at least five full-time classes for the current quarter—the internship may count as one of the five courses.
- Have no suspensions or other disciplinary adjustments in the previous quarter.
- Have the application approved by the student's parent, Assistant Principal of Alternative Programs.
- Communicate with the Internship Coordinator a minimum of once every two weeks to review the student's progress in the internship.
- Agree to notify the Assistant Principal of Alternative Programs when the internship has been completed, or if it has been terminated for any reason.

The student will be awarded one-half credit (based on a total of at least 75 hours on the internship site), or one full credit (based on a minimum 150 hours on-site). In order for credit to be awarded for an Independent Study Internship, the student must fulfill all of these requirements:

- Maintain regular attendance at his/her internship site for a minimum of one semester.
- Attend required meetings with the coordinator.
- Keep a log of internship activities and hours to be reviewed periodically by the coordinator.
- Submit a portfolio which summarizes and demonstrates the learning, career information, and value the student has acquired from the internship.
- Present the portfolio in a scheduled meeting.

Online Coursework

Timberlane Regional High School students who wish to enroll and transfer online coursework credit are required to meet with their counselor for pre-approval. Students must be granted authorization prior to their enrollment. Students must complete an approval form and receive prior authorization from their counselor. Credit and GPA weight for online courses will be determined during the pre-approval process.

Credit for an online course will not be granted until an official record of the final grade has been received by the TRHS registrar. It is the responsibility of the student to request the grade be sent to the registrar. The student's official school transcript will document that the course was taken online. The numerical grade earned will be transferred and converted to the equivalent letter grade in the TRHS grading system.

New Hampshire Scholars Program

New Hampshire Scholars is part of the State Scholars Initiative, a national program that uses business leaders to motivate students, beginning in Grade 8, to complete a rigorous course of study in high school – one that will give them a boost in college and careers.

New Hampshire Scholars encourages and motivates all high school students to complete a rigorous course of study that prepares them for successful transition to college coursework or technical training necessary to enter today’s competitive job market.

New Hampshire Scholars gives students an edge – one that’s of real value to them, the schools they attend, the companies they work for, and the communities where they live.

Parents and students who would like more information about the New Hampshire Scholars are encouraged to visit the New Hampshire Scholars website, www.nhscholars.org.

Are College Athletics in your future?

Athletes considering participating in intercollegiate athletics in any Division I or Division II college program must register with the National Collegiate Athletic Association (NCAA) and meet certain requirements regarding the scope and rigor of their academic program (among other requirements). Courses approved by the NCAA at the time of the publication of the TRHS Program of Studies are noted with the NCAA's circular logo. Students should see their counselor or the Athletic Director for more information.

Students and parents/guardians can read and download a guide for Student Athletes at www.ncaa.org/student-athletes, or visit the eligibility center website: <https://web3.ncaa.org/ecwr3/>

Diploma Planning Worksheet

Technical Courses						
Year One Technical Course						
Year Two Technical Course						
Open Electives				6	1.5 - 3.5	4.5
Total Credits				22	23	25

Post-Secondary Education Pathways

Listed below are suggested pathways for students and parents to consider in the Course Selection Process. Students should choose an academic program that is manageable, yet challenges them to reach their highest academic potential. Students should also communicate regularly with their teachers and their counselors to ensure they are placed appropriately within each academic discipline. While colleges value a demanding academic program, they also consider test scores, GPAs, extra-curricular commitments, and recommendations when evaluating students for admission.

Highly Competitive Four Year Colleges

- 4 Credits: English (AP English Language & AP English Literature)
- 4-5 Credits: Math (Algebra I & II, Geometry, Pre-Calculus, and AP Statistics or AP Calculus)
- 4 Credits: Science (Physical Science, Biology, Chemistry, and Physics)
- 4 Credits: World Language
- 3-4 Credits: Social Studies
- Advanced Placement courses are recommended for multiple subject areas

Very Selective Four Year Colleges

- 4 Credits: English
- 4 Credits: Math (Algebra I & II, Geometry, and Probability, Statistics and Trigonometry, or Finite or Pre-Calculus or Calculus)
- 3-4 Credits: Science (Physical Science, Biology, Chemistry, and/or Physics)
- 3-4 Credits: World Language
- 3 .5 Credits: Social Studies
- Advanced Placement courses are recommended for 1-2 subject areas

Selective Four Year Colleges

- 4 Credits: English
- 3-4 Credits: Math (Algebra I & II, Geometry, and Probability, Statistics and Trigonometry or Finite or Pre-Calculus or Calculus)
- 3 Credits: Science (Physical Science, Biology, Chemistry or Physics)
- 2-3 Credits: World Language
- 3 Credits: Social Studies

Two Year Career & Technical Programs

- 4 Credits: English
- 3 Credits: Math (Algebra I & II, and Geometry)
- 3 Credits: Science (Physical Science, Biology, and 3rd year science elective)
- 3 Credits: Social Studies
- Career and Technical courses at Pinkerton Academy or Salem High School

Two Year Community Colleges

- 4 Credits: English
- 3 Credits: Math (Algebra I & II, and Geometry)
- 3 Credits: Science (Physical Science, Biology, and 3rd year science elective)
- 3 Credits: Social Studies

Recommendations for Specific Majors and Programs

Four Year Business Programs

- 4 Credits: Math (Algebra I & II, Geometry, and Algebra III or Pre-Calculus or Calculus or AP courses)
- Related Business courses (Introduction to Business Principles, Accounting, Entrepreneurship, Marketing)

Four Year Engineering and Science Programs

- 4 Credits: Math (Algebra I & II, Geometry, and Algebra III or Finite or Pre-Calculus or Calculus, or AP courses)
- 4-5 Credits: Science (Physical Science, Biology, Chemistry, and Physics or AP courses)
- Related Engineering courses (Intro to Engineering Design, Principles of Engineering, Engineering elective options)
- Consider Computer Science courses

Four Year Nursing and Professional Health Programs

- 4 Credits: Math (Algebra I & II, Geometry, and Algebra III or Pre-Calculus or AP Courses)
- 4-5 credits: Science (Physical Science, Biology, Chemistry, Physics, and Human Anatomy & Physiology or AP courses)

NOTE: Since standards and admission policies vary from school to school, students and parents are advised to review college admissions websites and college planners provided by the Princeton Review and/or other college admission support publications for school counseling and specific recommendations. Students should see their counselor about specific questions.

Mathematics Intensive Credit Options

Students must be enrolled in a mathematics intensive course every school year. In addition to all mathematics courses, the successful completion of any of the following courses may be used to satisfy the graduation requirement of a mathematics intensive course:

Timberlane Regional High School

3D Modeling (0.5 credit)
Introduction to Computer Science (0.5 credit)
Game Programming I (0.5 credit)
Game Programming II (0.5 credit)
Engineering: Industrial robotics and Manufacturing
Engineering Principles
AP[®] Computer Science A
AP[®] Computer Science Principles
Chemistry
AP Chemistry
Physics
AP Physics I
AP Physics II

Pinkerton Academy CTE

Environmental Science & Natural Resources II
Electrical Technology I
Electrical Technology II
Welding Technology II

Salem High School CTE

Automotive
Carpentry
Engineering
Accounting
Biomedical science
Culinary arts
Computer science

Digital Literacy Credit Options

Successful completion of any of the following courses will satisfy the graduation requirement of 0.5 credit in Digital Literacy:

Information Technology
Microsoft Office Essentials for Business
Web Design
Introduction to Computer Science
Game Programming I
Game Programming II
AP[®] Computer Science A
AP[®] Computer Science Principles
Graphic Design
3D Modeling
Engineering: Industrial robotics and Manufacturing
Engineering Principles
Computer Maintenance & Repair (Salem CTE)
Microcomputer Applications 1 (Salem CTE)

Courses Offered at a Glance

Explanation of Codes:

AP	Advanced Placement (as authorized by the College Board)
ACC	Accelerated
CCP	College and Career Prep
ACC/CCP	Offered as ACC or CCP—Students may choose to contract for ACC credit
NL	Non-Levelled

Art Department

The Art program is dedicated to developing fundamental visual skills and knowledge about artists and art movements. This is done by requiring students to take Foundations of Art as a prerequisite for any of the art electives. Those who choose to continue with art electives will then begin to develop new skills and gain greater appreciation for art as a means of communication and understanding in society.

Course Descriptions:

Foundations of Art 001

NL
Half Year
0.5 Credit
Gr. 9-12

Two-dimensional and three-dimensional art and design will be explored and applied. Elements of art, drawing and painting skills, expressive ideas and imaginative thinking will be reinforced. Introduction to artists and techniques both contemporary and historic are included to enhance understanding. **Foundations of Art is a prerequisite to all other Art Department courses. Students wishing to waive this course must apply through the TRHS School Counseling Department. The waiver process requires an 85% grade or better on the Foundations of Art Final Exam and a subsequent portfolio presentation.**

2-D Art 002

NL
Half Year
0.5 Credit
Gr. 9-12

Principles of design are explored in a variety of media and techniques including pencil, acrylic paint, collage, and printmaking. Students will utilize the elements of art to demonstrate understanding of the principles of design within their own work and that of famous artists. **Prerequisite: Foundations of Art**

Sculpture 003

NL
Half Year
0.5 Credit
Gr. 9-12

The three-dimensional world of visual art is creatively investigated in this course. Media such as clay, wire, and found objects are used to explore creative ways that forms can occupy space. The art of sculptors, architects and designers may be used as examples of how artists apply the elements of art and the principles of design in their work. **Prerequisite: Foundations of Art**

Graphic Design 016

NL
Half Year
0.5 Credit
Gr. 9-12

Students will use design software to develop an understanding of how visual images affect all aspects of our lives. The principles of design and elements of art will be used as visual problem-solving exercises. The tools, language, techniques, and typography of the graphic design industry will be applied to develop a body of work that demonstrates effective communication. The contribution of significant designers and the history of design will be studied. **Prerequisite: Foundations of Art**

Painting Exploration 019

NL
Half Year
0.5 Credit
Gr. 9-12

This course is an opportunity for students to explore various painting mediums. Students will develop an understanding for creating an effective composition through utilizing the principles of design and the elements of art. Basic color theory and how it relates to various mediums will also be explored. **Prerequisite: Foundations of Art**

Pottery I 010

NL
Half Year
0.5 Credit
Gr. 9-12
Hand building techniques will provide students with skills to create pottery that is functional, non-functional and personally expressive. Various clay bodies, glazes, and kiln firing techniques used by potters will be introduced in order to expand students' subject area knowledge. Demonstrations and critiques will accompany assignments. **Prerequisite: Foundations of Art**

Pottery II 011

ACC
Half Year
0.5 Credit
Gr. 10-12
This course is an extension of Pottery I, exploring more advanced techniques of surface decoration, hand building and wheel-throwing. Anatomy of the human skull will be explored through the creation of a portrait sculpture. Student's final project will be self-designed based on individual interests. **Prerequisite: Pottery I**

Drawing 005

NL
Half Year
0.5 Credit
Gr. 9-12
Advanced methods of drawing, self-expression and conceptual imagery, as well as further development in areas of composition, perspective, and observation skills will be explored. The ability to use visual images as non-verbal communication tools will be emphasized. Application of the elements of art and principles of design in one's own artwork as well as those of master artists are included. **Prerequisite: Foundations of Art**

Cartooning and Animation 008

NL
Half Year
0.5 Credit
Gr. 9-12
Advanced methods in Illustration will be explored as well as the history of animation. Students will learn how to develop their own characters, illustrate and design their own comic strip, storyboards, write text/dialog, explore caricatures, pop art and create paper and digital animations. **Prerequisite: Foundations of Art**

3D Modeling 151

CCP
Half Year
0.5 Credit
Gr. 9-12
Students will learn the 3D modeling techniques used in the world today. Using 3D modeling software students will work in this highly skill-based art form to manipulate and sculpt pure imagination into substantial forms. By the end of the course, students will have developed a portfolio of original projects that students can use when applying for an internship, higher education, or a job. **Prerequisite: Foundations of Art**

Photography 012

NL
Half Year
0.5 Credit
Gr. 9-12
Students will explore film and digital photography as an artistic tool. Using the camera as their eye, students will learn the art of creating a dynamic composition while gaining an understanding of the photo printing process using the darkroom and digital printing techniques. The Adobe Creative Suite will be used to edit and enhance photographs, both digital and from the darkroom. A variety of photographers and cultural influences will be studied to gain an appreciation for the aesthetics of photography. **Prerequisite: Foundations of Art**

Photography II 017

ACC
Half Year
0.5 Credit
Gr. 10-12
The objective of Photography II is to achieve a higher level of technical skill developing and printing black and white film. Digital cameras and advanced use of Adobe Photoshop will be used as a tool to enhance students' photography. A photography portfolio that demonstrates a body of work representing skill, personal expression and artistic vision using a wide variety of compositions will be an important aspect of this course. **Prerequisite: Photography I**

AP® Studio Art 013

AP
Full Year
1 Credit
Gr. 11-12
The Advanced Placement program in Studio Art is intended for the highly motivated student interested in the serious study of art. Students should be aware that Advanced Placement curriculum involves significantly more time than the typical high school course and is not for the casually interested art student. Each student will need to work outside the classroom beyond scheduled class time. Students will focus on creating a Drawing 2D or 3D Portfolio consisting of 24 total pieces. Students will then submit the portfolio to the AP Board with the possibility of earning college credit. **Prerequisite: A minimum of two level 2 art classes. Note : Summer preparatory work may be an additional requirement of the course.**

Business Department

The Business Department of Timberlane High School is committed to preparing students for a rapidly changing world by expanding each student's knowledge, experience, and skills in business. We believe the knowledge, skills, and ethics taught are essential for dynamic, life-long participation in a global and information society – promoting success in one's personal, college, and career decisions. The emphasis of our program is active learning of practical business knowledge through collaboration, class discussion, hands-on learning, and innovative problem solving.

Course Descriptions:

Microsoft Office Essentials for Business 108

CCP
Half Year
0.5 Credit
Gr. 9-12

This hands-on course is designed to develop proficiency in Microsoft Office and enhance decision making, productivity communication and problem solving skills. Instructional strategies include computer/technology applications, interdisciplinary and/or culminating projects, problem solving and critical thinking activities. Integral to the course will be student creation and design of original documents.

Introduction to Business Principles 116

CCP
Half Year
0.5 Credit
Gr. 10-12

This course is designed to teach students business skills that can be used in daily life and in preparation for further business studies. This class provides an exciting overview of the world of business. We will emphasize the importance of the economy, owning and operating a business, small business influences, and buying goods and services. Individual and group assignments will be assigned. This course is intended for students who wish to learn more about business industries and what they have to offer.

Entrepreneurship 117

ACC
Half Year
0.5 Credit
Gr. 11-12

This course is designed for those who wish to own and operate their own business and/or who wish to continue their business studies at a post-secondary institute. It focuses on recognizing a business opportunity, starting a business based on that opportunity, and operating and maintaining that business. Students will be working in groups, where they will develop a business plan and run a business. This will be a fast paced course where students will learn to practice their time management skills and ability to work with others. **Prerequisite: Successful completion of Introduction to Business Principles.**

Personal Money Management 118

CCP
Half Year
0.5 Credit
Gr. 10-12

The growing emphasis on financial literacy has highlighted the need for students to learn how to navigate the financial decisions they must make and how to make informed decisions related to managing finances and budgeting, saving and investing, living independently, earning and reporting income, buying goods and services, using credit, banking and protecting against risk. Knowing, understanding and applying these concepts offers the necessary tools for addressing economic issues, both personal and societal.

College Accounting I 119

ACC
Half Year
0.5 Credit
Gr. 11-12

How do businesses prosper in tough economic times? Explore the language of business and find out! Learn the accounting cycle using manual and computerized accounting systems for sole proprietorships, partnerships and corporations. This semester course is open to any student who wants to understand the flow of money in business. If you are planning a career in business, finance, management, marketing, banking, accounting or plan on going into business on your own, this course is a must!

College Accounting II (SNHU Dual Enrollment opportunity) 122

ACC
Half Year
0.5 Credit
Gr. 11-12

Get ahead of the competition and begin your college career with three credits! If you plan on taking accounting, finance, business management, business administration, and/or marketing in college, this course, taught at the first-year college level, is strongly recommended. A continuation of Accounting I, you'll use manual and computerized accounting systems to expand your knowledge of accounting systems. **Prerequisite: Successful completion of College Accounting I. Note: Students will be eligible to apply for college credit through Southern New Hampshire University**

Sports and Entertainment Management 121

CCP
Half Year
0.5 Credit
Gr. 11-12

This course is designed for students who wish to take their first step into the world of sports and entertainment, by either entering the workforce in an entry level position or continuing onto a post-secondary institution. Management topics discussed include leadership, finance, product management, people management, information management, legal and ethical issues, customer relations, sales management, managing change and career development. Students will work on various projects independently in group settings.
Prerequisite: *Successful completion of Introduction to Business Principles.*

Marketing 125

CCP
Half Year
0.5 Credit
Gr. 11-12

Would you like to write a Super Bowl commercial, design a logo for a new product, or create a social media campaign for your favorite company? Marketing is an introductory course designed for students who are interested in learning and applying the marketing strategies and tactics used in the world's most successful companies. In addition, communication, interpersonal, and technology skills will be developed. Creative, hands-on projects and collaborative activities are an integral part of this course.

Exploring Teaching 140

ACC
Half Year
0.5 Credit
Gr. 11-12

Have you ever considered being a teacher? Imagine yourself in front of a classroom, teaching what you love. This activity-based course is the first step towards a career in education. Through classroom observations, discussion with experienced educators, and classroom activities, you will learn the "behind the scenes" of being a teacher including how to become a certified teacher, classroom management skills, and creating engaging lessons.

Practicing Teaching (SNHU Dual Enrollment opportunity) 142

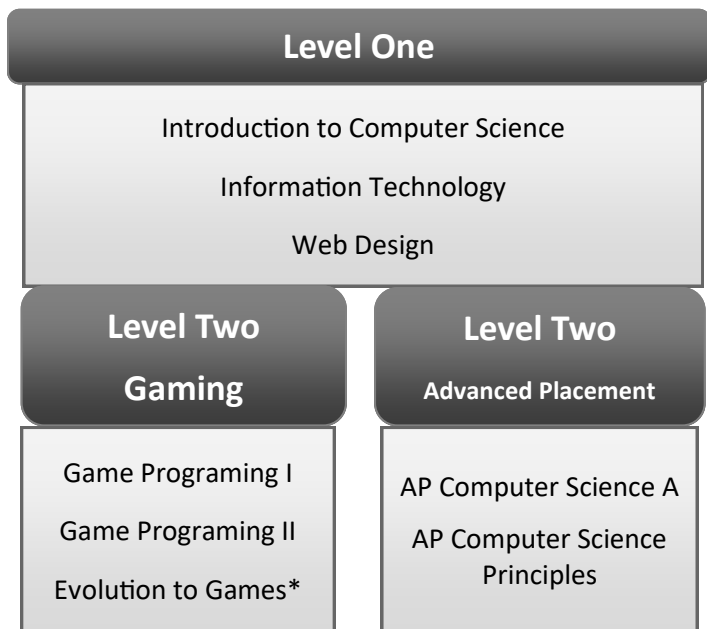

ACC
Half Year
0.5 Credit
Gr. 11-12

Do you have what it takes to be a teacher? Find out in this follow up course to Exploring Teaching! While completing a 30-hour internship, you will develop your teaching skills under the supervision of an experienced educator at the elementary, middle school, or high school class of your choice. **Prerequisite: successful completion of Exploring Teaching. Note: Students will be eligible to apply for college credit through Southern New Hampshire University.**

For more information on dual enrollment opportunities, please see pg. 10.

Computer Science & Digital Literacy Department

The Computer Science and Digital Literacy Department acknowledges its responsibility to prepare students not just for today's world, but also for their future. Since computers are a significant part of our lives and are designed to play an even greater role; the following courses are designed to prepare students.

NOTE: Successful completion of any of these courses will satisfy the graduation requirement of 0.5 credit in Digital Literacy (EXCEPT Evolution of Games)

Introduction to Computer Science—CCP 189

CCP
Half Year
0.5 Credit
Gr. 9-12

This course teaches the foundations of computer science and basic programming using a modern programming language. It is intended for students with no programming experience, but more advanced students will be able set their own pace and dive deeper into the course concepts.

Information Technology—CCP 157A

CCP
Half Year
0.5 Credit
Gr. 9-12

This course is designed to promote a working knowledge and understanding of computer information technology concepts, skills and capabilities that support academic and professionally related goals and requirements. This is accomplished, in part, by using word processing, spreadsheet, presentation, and database software. Students also learn about the application and science of information technology and the fundamentals of computer information technologies along with issues that affect people today.

Web Design— CCP 141

CCP
Half Year
0.5 Credit
Gr. 9-12

Want to create your own website? This course is designed to learn about the essential elements of effective web page design. Try a little coding by creating web pages using HTML code. Create professional website using CCS styles and designs. Students will build all-inclusive web sites with various formatting techniques, graphics, and links. Professional products will be created through the use of creativity, smart design choices, and problem solving.

Game Programming I 164

ACC
Half Year
0.5 Credit
Gr. 9-12

This semester course is an interactive, project-based course that uses a modern game development engine with a focus on 2D games. Students will learn about the process for designing, developing and iterating on an electronic game, how to break down a complex project into manageable pieces, and about what makes a game compelling and playable. The course promises to be a mix of hard work and fun, with an emphasis on independent learning, complex thinking and creativity. Students will come away with several fully functional games. **Prerequisite: Intro to Computer Science or Instructor approval.**

Game Programming II 165

ACC
Half Year
0.5 Credit
Gr. 11-12

This semester course is an interactive, project-based course that uses a modern game development engine with a focus on 3D games. Students will learn about the process for designing, developing and iterating on modern 2D and 3D electronic games, and about what makes a game compelling and playable. The course promises to be a mix of hard work and fun, with an emphasis on independent learning, complex thinking and creativity. Students will come away with several fully functional games. **Prerequisite: Game Programming I**

Evolution of Games 150

CCP
Half Year
0.5 Credit
Gr. 9-12

Today's professional game designers understand and implement dynamics from many different types of games in their blockbuster hits. In this course, students will explore ancient cultures, their games, and how they designed games using the available technology and resources. Find out more about the benefits game playing has within a society. Students will prototype and play games as well as get hands-on experience by creating their own games. **Please note that this course does NOT meet the 0.5 Digital Literacy Credit as required for graduation.**

AP® Computer Science Principles 167AP

AP
Full Year
1 Credit
Gr. 9-12

This course introduces students to the foundational concepts of computer science and challenges them to explore how computing and technology can impact the world. In addition to programming in JavaScript, this course covers other topics in depth including how the internet works, big data and privacy. This course is suitable for both novice and experienced programmers alike. **Prerequisite: Intro to Computer Science or Instructor approval**

AP® Computer Science A 167

AP
Full Year
1 Credit
Gr. 10-12

This full year course is equivalent to a first-semester, college-level course in computer science.

AP Computer Science A introduces students to computer science through programming. Fundamental topics in this course include the design of solutions to problems, the use of data structures to organize large sets of data, the development and implementation of algorithms to process data and the ethical and social implications of computing systems. The course emphasizes object-oriented programming and design.

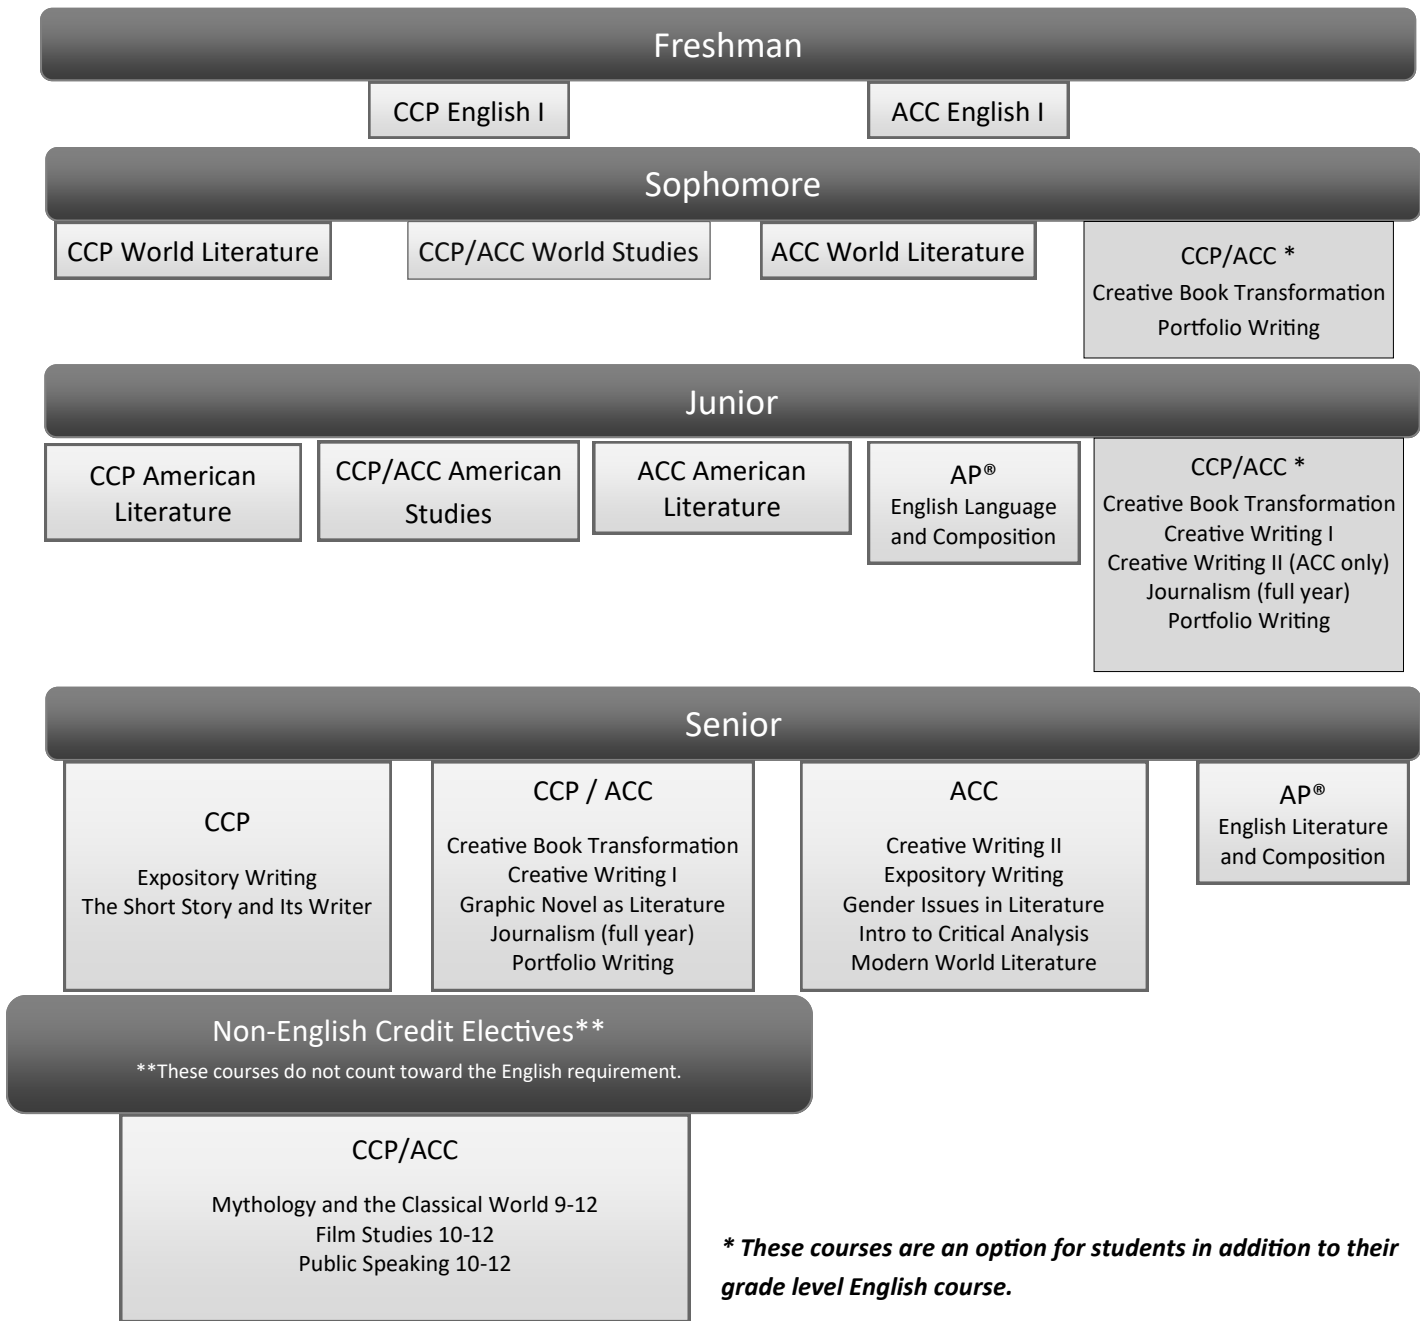

Prerequisite: Intro to Computer Science or Instructor approval

English Department

Every word wants to be taken literally; else, it decays into a lie. But one mustn't take any word literally; else the world becomes a madhouse. —Robert Musil

The Timberlane English Department is about words. For all four years at Timberlane Regional High School, students will be experiencing the best examples of how words can be shaped into shouts of joy, cries of anguish, cautious warnings, hopeful pleas, and invitations into the limitless possibilities of how words can indeed change the world. Students will also spend the next four years learning how to shape their own words, to learn how to listen to their inner voices, and translate those voices onto paper. They will learn how to listen to other students' words thoughtfully, with respect and with interest. They will learn that words can be communicated non-verbally; presentation, oral reports, and speeches are not just about what one's message is, but about how one says it. Each student in English class will be a word reader, a word shaper, and a word listener. The goal of the Timberlane English Department's dedicated staff is to help each student help him/herself to become one who understands the incredible responsibility and power that comes with the mastery of words.

Course Descriptions:

English I—ACC 201

ACC
Full Year
1 Credit
Gr. 9

This course provides a solid foundation in English through an integrated approach to student growth in reading, writing, speaking, and listening. Students will develop their writing skills through the drafting process. The study of literature emphasizes the understanding of selected fiction, poetry, and drama. In addition, students are introduced to the research process and will build on their research skills throughout the year. While investigating literary genres, students will study grammar and vocabulary. This course develops skills at an accelerated pace for students who want experiences that will prepare them for advanced work in a college situation.

English I—CCP 203

CCP
Full Year
1 Credit
Gr. 9

This course provides a solid foundation in English through an integrated approach to student growth in reading, writing, speaking, and listening. Students will develop their writing skills through the drafting process. The study of literature emphasizes the understanding of selected fiction, poetry, and drama. In addition, students are introduced to the research process and will build on their research skills throughout the year. While investigating literary genres, students will study grammar and vocabulary.

World Literature—ACC 222

ACC
Full Year
1 Credit
Gr. 10

In this course, students will explore world literature that is chosen for its relevance as an expression of human thought and its relationship to students' own experiences. Students will learn to analyze texts and research, understand the societies from which they emerged, and recognize the roles those societies played in shaping today's world. Literature will represent a variety of genres and cultures. Students will continue to develop skills through vocabulary acquisition, informational writing, argumentative writing, research, and oral presentations. This course develops skills at an accelerated pace for students who want experiences that will prepare them for advanced work in a college situation.

World Literature—CCP 221

CCP
Full Year
1 Credit
Gr. 10

In this course, students will explore world literature that is chosen for its relevance as an expression of human thought and its relationship to students' own experiences. Students will learn to analyze texts and research, understand the societies from which they emerged, and recognize the roles those societies played in shaping today's world. Literature will represent a variety of genres and cultures. Students will continue to develop skills through vocabulary acquisition, informational writing, argumentative writing, research, and oral presentations.

World Studies 808

ACC/CCP
Full Year
2 Credits
Gr. 10

World Studies is an interdisciplinary course that combines history and literature. This course emphasizes the intricate thematic connections between history and literature. Analysis of historical sources and documents coupled with analysis of literature will be the main focus through reading, writing, and collaborative projects. This course examines problems in the world today and seeks to understand the root historical causes of these issues. This is a team-taught course that meets both 'A' days and 'B' days. It fulfills the graduation requirements for World History and World Literature. Students may contract for accelerated credit.

American Literature—ACC 216

ACC
Full Year
1 Credit
Gr. 11

This course focuses American literacy and cultural themes, as reflected in a variety of literature including poetry, drama, fiction, and non-fiction texts reflecting major movements in American history. Students will continue to develop skills through vocabulary study, literary analysis, research, and composition. This course develops 21st century skills to prepare students to be active participants in society. Class will move at an accelerated pace of students who want experiences that will prepare them to advanced work in college situation.

American Literature—CCP 218

CCP
Full Year
1 Credit
Gr. 11

This course focuses American literacy and cultural themes, as reflected in a variety of literature including poetry, drama, fiction, and non-fiction texts reflecting major movements in American history. Students will continue to develop skills through vocabulary study, literary analysis, research, and composition. This course develops 21st century skills to prepare students to be active participants in society.

American Studies

816

ACC/CCP
Full Year
2 Credits
Gr. 11

American Studies is an interdisciplinary course that combines historical evidence with an analysis of literature to answer essential questions concerning American culture. Through a variety of activities such as group projects, discussion, oral presentations, simulations, and analysis, students will be given an opportunity to connect the studies of history, literature, art, philosophy, and music. This is a team taught class that meets both 'A' days and 'B' days. This course meets the requirements for both United States History and American Literature courses. Students may contract for accelerated credit.

AP® English Language and Composition 270

AP
Full Year
1 Credit
Gr. 11

The AP English Language and Composition course focuses on the rhetorical analysis of American fiction, poetry, drama, and nonfiction prose. The course cultivates the reading and writing skills that students need for college success and for intellectually responsible civic engagement. The course guides students in becoming curious, critical, and responsive readers of diverse texts, and in becoming flexible, reflective writers of texts addressed to diverse audiences for diverse purposes. Students will expand their understanding of how written language functions rhetorically, especially in terms of argumentation and persuasion to communicate writers' intentions and elicit readers' responses in particular situations. Reading and writing activities in the course also deepen students' knowledge and control of formal conventions of written language. **A strong background in English is required. This course satisfies the American Literature graduation requirement. Prerequisite: Successful completion of ACC World Literature/Studies or departmental approval. Note : Summer preparatory work may be an additional requirement of the course.**

Portfolio Writing

172

ACC/CCP
Half Year
0.5 Credit
Gr. 10-12

Portfolio Writing is a workshop course that focuses on drafting, editing and revising on topics and issues of the students' choice. Students will choose and analyze a variety of fiction and nonfiction books, poems, and articles and create narrative, informative and argumentative writing pieces to be collected in a quarterly portfolio. Additionally, there is a focus on honing time management skills, independent productivity and collaboration. The course will be a heterogeneous mix of students in which students may choose to contract for accelerated credit.

Creative Book Transformation

230

ACC/CCP
Half Year
0.5 Credit
Gr. 10-12

This course will focus on student-selected literature that influences creative writing. Students will choose their own books to analyze and transform into interpretative, creative pieces. Over the course of the semester, students will have an opportunity to create the following forms of writing: literary analyses, perspective/voice pieces, character letters and diary entries, found and original poetry, research based writing, personal narratives, two-voice and pantoum poetry, news articles and broadcasts, compare and contrast analyses, and more. Creative artistic pieces will also be an integral part of the course. The completed pieces of writing and art will be compiled into two long term book transformation projects. Book transformation is a form of altered art that displays personal writings and art interpreting a text. Students may contract for accelerated credit in this course.

Creative Writing I

229

ACC/CCP
Half Year
0.5 Credit
Gr. 11-12

This course is designed for juniors and seniors who want to explore different genres of creative writing at a more intense level than in Freshman English, World Literature and American Literature. Students will read and write poetry, short fiction, and creative nonfiction. Revision and both peer and teacher writing conferences will be important aspects of the course. Students will write and have an option to share original pieces. Students may contract for accelerated credit.

Creative Writing II

231

ACC
Half Year
0.5 Credit
Gr. 11-12

This course is designed for students who have already explored creative writing in a semester of Creative Writing I. In Creative Writing II, students will focus their writing by completing more intense author/genre studies, peer and teacher conferences, workshops with outside writers and attendance at outside readings; all geared towards the goal of creating individual collections.

Expository Writing—ACC

209

ACC
Half Year
0.5 Credit
Gr. 12

Expository Writing is a course in nonfiction writing designed to foster critical and complex thinking. Students will compose a variety of analytical essays in the following genres: personal, definition, compare and contrast, persuasive, and research. Throughout the course, emphasis will be placed on prewriting, revision, and frequent peer and teacher conferences. In addition, the class will read informational texts as a means of exploring writing strategies and of understanding the links between reading and writing. Vocabulary development and grammar and usage will be regular features of this course. This course develops skills at an accelerated pace for students who want experiences that will prepare them for advanced work in a college situation.

Expository Writing—CCP**217**

CCP
Half Year
0.5 Credit
Gr. 12

Expository Writing is a course in nonfiction writing designed to foster critical and complex thinking. Students will compose a variety of analytical essays in the following genres: personal, definition, compare and contrast, persuasive, and research. Throughout the course, emphasis will be placed on prewriting, revision, and frequent peer and teacher conferences. In addition, the class will read informational texts as a means of exploring writing strategies and of understanding the links between reading and writing. Vocabulary development and grammar and usage will be regular features of this course.

**Gender Issues in Literature****262**

ACC
Half Year
0.5 Credit
Gr. 12

In Gender Issues in Literature, students explore the roles, attitudes, and behaviors of men and women throughout the ages as portrayed in literature. Students will make connections between the cultures and traditions of various societies and the impact they have on the relationships of men and women. Selected poetry, non-fiction, informational text, and fiction will serve as prompts for discussion and writing.

**Graphic Novel as Literature****268**

ACC/CCP
Half Year
0.5 Credit
Gr. 12

The graphic novel is quickly becoming a popular medium of literature and is winning critical acclaim in the literary and academic world. This course will prepare students with the skills to read, critique, and enjoy this mode of literature through choice reading and genre study. Students will explore how fiction and nonfiction work in graphic novels both by reading and creating short comics. Students may contract for accelerated credit.

**Journalism****263**

ACC/CCP
Full Year
1 Credits
Gr. 11-12

This course provides students with an opportunity to explore the various types of journalism. There will be a focus on print and radio/broadcast journalism with culminating projects in each field. In addition, students will learn about the legal and ethical demands of a reporter. Students will learn to write a variety of newspaper articles, conduct interviews, and learn editing techniques. This course emphasizes the acquisition and application of 21st century skills, as well as media literacy. Students may contract for accelerated credit.

**Modern World Literature****260**

ACC
Half Year
0.5 Credit
Gr. 12

In this course, students will explore current human rights issues through the lens of philosophy and contemporary literature. They will build a foundation of various modern philosophical movements, examine current human rights infractions in literature and in world events, and explore how modern cultures affect one another. Students will also work on developing college-level analytical reading and writing skills.

The Short Story and Its Writer 255

CCP
Half Year
0.5 Credit
Gr. 12

Students in this course will trace the development of the art of short story writing from the nineteenth century and twentieth century. Students will study a number of authors and literary movements. Writing skills such as character development, construction of plot, point of view, setting, and figurative language, will be developed through analysis and practice. Students will complete analytical, argumentative and research based essay writing. In addition to the texts that are read and the writing that is completed, class discussions, grammar study, and vocabulary study will be integral components of the course.

AP® English Literature and Composition 227

AP
Full Year
1 Credit
Gr. 12

AP Literature and Composition is a humanities course in which we will be examining the literature, art, music and philosophies of our world. In this course, students will read and examine literature from a range of time periods and a range of genres including novels, poetry, drama and short stories. We will be going far beyond plot to identifying the techniques writers use to effectively communicate their complex ideas including examining figurative language, point of view, style, structure of the text and major themes integrated within the text. Students will also complete and revise informal responses and formal critical analysis/argumentative and evaluative essays. The primary goal of this course is to develop students into readers and writers capable of experiencing, interpreting and evaluating great works of literature and of thinking critically about the historical, cultural, psychological and sociological impact of these works. The literature, writing, and projects used in this course are meant to be intellectually stimulating and are often demanding. In order to have an enriching experience, a strong background in English is required. **Prerequisite: Successful completion of ACC American Literature/Studies, AP Language & composition or departmental approval. Note : Summer preparatory work may be an additional**

Film Studies—Elective 264

ACC/CCP
Half Year
0.5 Credit
Gr. 10-12

This course will introduce filmmakers and their works which have had significant influence on the medium and the society to which they were presented. Students will watch and critique films, learn about the process of creating a film, and become familiar with the terminology that goes into a production. Students may contract for accelerated credit. ***This course does not fulfill graduation requirements for students in English.***

Public Speaking—Elective 266

ACC/CCP
Half Year
0.5 Credit
Gr. 10-12

Through a focus on strategies and the best practices for public speaking, this course will prepare students to speak and make presentations in front of an audience. The class will provide students opportunities to practice and gain confidence while speaking in a variety of venues. Students will learn how to integrate a speech with visual effects, such as PowerPoint. Students may contract for accelerated credit. ***This course does not fulfill graduation requirements for students in English.***

Mythology and the Classical World - Elective 344

ACC
Half Year
0.5 Credit
Gr. 9-12

Mythology and the Classical World aims to familiarize students with the stories, daily lives, languages, and cultural beliefs of the people who lived in ancient Rome and Greece. Through literature, arts, archaeology, politics, and philosophy, students will answer the question, "What can we learn by studying these ancient cultures?" We will open the world of gods, gladiators, philosophers, heroes, bards, the Parthenon, the Seven Wonders, the Colosseum, and the emperors. Through response papers and essays, creative projects that put students in the shoes of ancient people, and even learning the basic building blocks of Latin and Greek, students will make connections between ancient times and today. ***This course does not fulfill graduation requirements for students in English.***

Family and Consumer Science Department

The Family and Consumer Science Department at Timberlane Regional High School provides students the opportunity to explore areas of foods and nutrition, textiles, and home and family living. Through these areas, students are able to develop their cognitive and creative abilities while also understanding themselves, family and society, and career opportunities available. The Home Technology program helps students grow to become more responsible adults in a rapidly changing society.

Course Descriptions:

Child Development 501

NL
Full Year
1 Credit
Gr. 10-12

This course offers students a practical understanding of child development from conception through the school-age. Content areas include birth, infants, toddlers, pre-school age children, physical, social, and emotional development, the importance of play, teaching with toys, and language development. Emphasis will be placed on the central role parents play during these formative years.

Child Care 503

NL
Full Year
1 Credit
Gr. 11-12

This in-depth course takes child development one step further in understanding how to teach young children through lesson planning into how an early child care center is successfully operated. Students will be in charge of planning two "Bring a Child to School Days" where they will create an educational environment to go along with a meaningful and developmentally appropriate schedule and activities for young children that are visiting for the day. **Prerequisite: Successful completion of Child Development**

Creative Sewing 505

NL
Half Year
0.5 Credit
Gr. 11-12

Students will put their creativity to work while learning fundamental techniques in sewing and equipment use. Beginners will be steered through projects of their choice such as constructing pillows, togas, sweatpants, and curtains. Machine appliqué, fabric painting, and creative machine stitches will be used to add flair to student projects.

Designing Homes 525

NL
Half Year
0.5 Credit
Gr. 9-12

Home design, a subset of interior designers, are responsible for a residential space's function and decoration. They bring structure and appeal to new homes or rework existing spaces. Students will create home designs with the use of computer-aided design software to create spatial layouts, lighting systems and color schemes. They will select furniture, fabrics and accessories to design functional and aesthetically pleasing

Contemporary Culinary Arts 515

NL
Half Year
0.5 Credit
Gr. 10-12

After taking this introductory foods course, you will be able to answer the question, "What's cooking?" Topics include buying and storing fresh ingredients, planning delicious meals, understanding the origins of various foods and their composition, plus an understanding of what happens when food is cooked. This course combines practical experience with the basic skills and culinary techniques to teach the fundamentals of food preparation from "soup to nuts." **This course is a prerequisite for Gourmet Foods and Baking and Pastries.**

Gourmet Foods 513

NL
Half Year
0.5 Credit
Gr. 11-12

This course challenges students' creativity while exploring advanced food preparation. A "cook's tour" will find the students learning the art of Chinese and Mexican cooking, discovering how to cook Italian style, and much more. Students will also learn to cook for catered events. **Prerequisites: Successful completion of Contemporary Culinary Arts**

Baking and Pastries 512

NL
Half Year
0.5 Credit
Gr. 11-12

This course offers an insight into the world of baking. Students will decorate cakes, knead dough, frost cupcakes, and much more. Students will be introduced to the art of candy making and learn to bake for catered events. **Prerequisite: Successful completion of Contemporary Culinary Arts**

Health and Physical Education Department

The Health and Physical Education programs at Timberlane Regional High School are designed to develop an awareness of the need for improving and maintaining one's total health. Emphasis is placed on the development of healthy attitudes, which will serve the individual throughout his or her life. All students are required to take Health I along with three of the Health and/or Physical Education electives.

Course Descriptions:

Health I 402

CCP
Half Year
0.5 Credit
Gr. 9-12

The Health I course is designed for students to develop the essential health skills necessary to adopt, practice, and maintain health-enhancing behaviors. Students will be taught functional health information related to: Personal Health and Skills, Mental and Emotional Health, First Aid, CPR and AED, Alcohol, Tobacco, and Other Drugs, and Human Sexuality. The goal of this course is to shape personal values and beliefs that support healthy behaviors and lifestyles.

Health II 412

CCP
Half Year
0.5 Credit
Gr. 10-12

The Health 2 course will expand upon skills and knowledge developed in Health I. Students will be required to apply functional knowledge in the classroom and community setting. The skills based units will include topics of: Eating Disorders, Addiction and Recovery, Healthy Relationships, Dating Violence, Environmental Health, and basic fitness concepts. The goal of this course is to help support students develop healthy behavior changes to live a healthier life.
Prerequisite: Successful completion of Health I.

Introduction to Physical Education

Grade 9 403
Grade 10-12 405

CCP
Half Year
0.5 Credit

This is an introductory level course that will allow students to engage in a variety of physical activities including team sports, racket and net games, project adventure, as well as, recreational and leisure activities

Introduction to Fitness

Grade 9 414
Grade 10-12 415

CCP
Half Year
0.5 Credit

This is an introductory course that will allow each student to develop the knowledge and skills needed to live an active, healthy lifestyle. The course will include activities to enhance the five components of physical fitness, such as basic weight training techniques, circuit training, walking/jogging programs, yoga, and more. Students will also learn about the core concepts of nutrition and will have an opportunity to participate in goal setting that will impact their overall wellness.

Fitness II 416A

CCP
Half Year
0.5 Credit
Gr. 9-12

This course is geared towards motivated students who want to take their fitness training to the next level. This course will continue the development of skills and knowledge gained in Introduction to Fitness, as well as expose students to new and more advanced topics in training methods. The course will explore methods of strength training, speed and agility training, cardiovascular fitness, and flexibility training **Prerequisite: Successful completion of Introduction to Fitness and/or Departmental approval.**

Competitive Physical Education 417

CCP
Half Year
0.5 Credit
Gr. 9-12

Students in this course will participate in a variety of team sports and leisure time activities. Emphasis will be on competitive game play rather than specific skill development. **Prerequisite: Successful completion of Introduction to Physical Education and/or Departmental approval.**

Unified/Adaptive Physical Education and Health 418

CCP
Half Year
0.5 Credit
Gr. 9-12

This course is designed for students who are interested in sharing their knowledge with students who need one-to-one assistance to succeed in a physical education setting. And help them participate in a range of physical activities, as well as provide support to help them understand topics in health education including but not limited to personal advocacy, safety and violence prevention, nutrition, puberty, mental and emotional health. This course is an excellent course for students considering careers in education or in working with the special needs population. **Prerequisite: Successful completion of Introduction to Physical Education, Health 1 and Departmental approval.**

Studies in Women's Health and Wellness 400

CCP
Half Year
0.5 Credit
Gr. 10-12

The focus of this course is to learn about health issues young women will face in their transition from high school to adulthood. A combination of fitness activities and unique classroom learning experiences will foster self-empowerment for personal health promotion. This course will include topics related to Women's Sexual Health, Safety & Violence Prevention, Career & Leadership Preparation, Consumer Health Information, Common Women's Disease Prevention & Education, and Exercise & Weight Maintenance. **Prerequisite: Successful completion of Health 1.**

Industrial Technology Department

The Industrial Technology Education Department provides problem-solving instruction and activities of experimenting, designing, constructing, and evaluating through the use of tools, computers, machines, materials, and processes. The applied knowledge and skills acquired through our courses will assist the student in making informed and meaningful school-to-career choices.

Course Descriptions:

Introduction to Industrial Trades 550

NL
Half Year
0.5 Credit
Gr. 9-12

This course is designed to provide students with introductory learning in all fields of industrial arts. Woodworking, Welding/metal working, Automotive, Plumbing, Electrical, Power and Energy, HVAC, Masonry, Construction, CNC/CAD/CAM Hands on experiences as well as industry professionals demonstrating specific activities that are the staple to their industry will be explored by students. Students will have the foundations to enter a vocational program and be able to succeed in that selected trade.

Materials and Manufacturing / Wood Tech I 577

NL
Half Year
0.5 Credit
Gr. 9-12

This course is designed to give students interested in this area a sample of various forms of woodworking. Students will cover basic skills and proper safety in the areas of hand tools, power tools, machines, CNC, woodturning and cabinetry.

Engineering: Industrial Robotics and Manufacturing 179

CCP
Full Year
1 Credit
Gr. 9 -12

This hands-on course teaches the fundamentals of computerized and robotics manufacturing technology. Students will learn basic solid modeling skills through 3-D computer software to solve design problems and create parts for milling. They will assess their designs through property analysis, modify those designs, and use prototyping equipment to produce actual 3-D models. This course includes computer modeling, computer numerical control (CNC), computer aided design (CAD), computer aided manufacturing (CAM), rapid prototyping, industrial robot programming, flexible manufacturing systems, and lean manufacturing business concepts

Materials and Manufacturing / Wood Tech II 579

NL
Half Year
0.5 Credit
Gr. 10-12

Students will participate in the problem-solving process to construct various advanced projects using CNC technology, and a variety of manufacturing processes. **Prerequisite: Materials & Manufacturing / Wood Technology I or Departmental approval.**

Materials and Manufacturing / Wood Tech III 580A

ACC
Half Year
0.5 Credit
Gr. 11-12

Advanced students will challenge themselves to create masterful woodworking projects. Students will use their knowledge to benefit the entry level student with one on one interaction. Higher expectation to learn must be used by all advanced students to better improve themselves as craftsman. **Prerequisite: Materials & Manufacturing / Wood Technology II or**

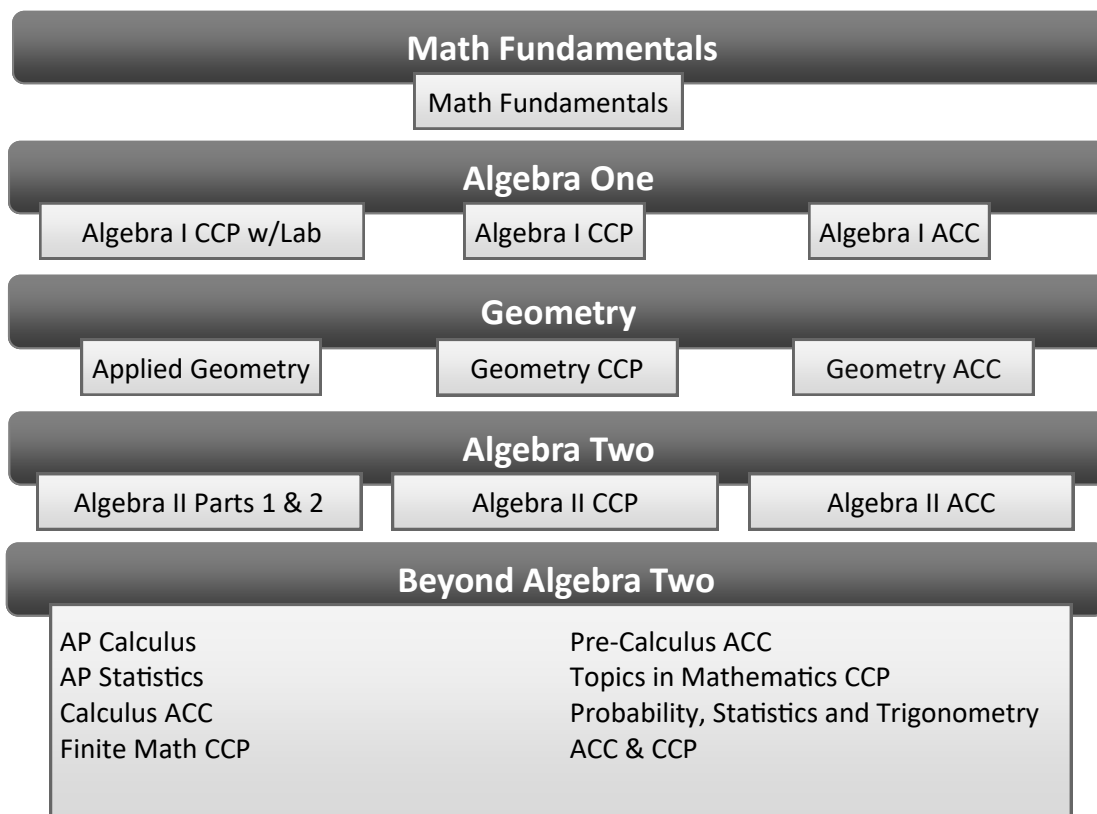

Engineering Principles 178

ACC
Full Year
1 Credit
Gr. 9 -12

This course provides an overview of engineering and engineering technology. Students develop problem-solving skills by tackling real-world problems. Through theory and practical hands-on experience, students will investigate and practice the concepts and skills used by engineers. The course of study includes an overview and perspective of engineering, simple machines and mechanics, statics, robotics, materials and materials testing, thermodynamics, and statistical analysis. **Prerequisite: successful completion of Algebra I or departmental approval.**

Mathematics Department

In *Math Matters: The Links Between High School Curriculum, College Graduation, and Earnings*, Heather Rose and Julian R. Betts find a strong relationship between taking advanced math courses in high school and earnings ten years after graduation. By its very nature, mathematics lends itself to applications in many different disciplines. A working knowledge of mathematics is a necessity for life. The process of acquiring and utilizing math skills and concepts increase the potential for each student to be successful in any career. All students should consult their mathematics teachers for assistance in determining the sequence of their math courses. The math curriculum is written under the guidance of the Common Core State Standards, which are embedded in the New Hampshire College and Career Ready Standards.

Course Descriptions:

Math Fundamentals		603	Algebra I—ACC		607
CCP	Math Fundamentals is designed to provide students a solid foundation to students before they pursue the study of Algebra I. In this highly differentiated program, students will review a variety of fundamental, pre-algebraic, and algebraic concepts and skills. Students will also develop their organizational, study, and test-taking skills, as well as the habits of mind and math practices that support success in future math classes. Notes: This course is open only to students by recommendation. This course does not fulfill the Algebra I requirement.		ACC	Algebra I—ACC will move at a fast pace and is designed for students who have strong mathematical skills and excellent study habits. Students will develop problem-solving skills through the use of algebra, functions, relations, and analysis. They will become fluent in algebraic simplification, solving equations, inequalities, and systems, and analyzing and transforming both linear and non-linear functions. Models, tables, equations, and graphs will form a basis for interpreting and analyzing data. Students will be expected to effectively communicate their processes both orally and in writing, to critique the reasoning of others, and to solve open-ended and non-routine problems. This course solidifies the foundation for all future math courses.	
Full Year			Full Year		
1 Credit			1 Credit		
Gr. 9			Gr. 9		
					

Algebra I—CCP 609

CCP
Full Year
1 Credit
Gr. 9
 Students in Algebra I—CCP will develop problem-solving skills through the use of algebra, functions, relations, and analysis. Students will become fluent in algebraic simplification, solving equations, inequalities, and systems, and analyzing and transforming both linear and non-linear functions. Models, tables, equations, and graphs will form a basis for interpreting and analyzing data. Students will be expected to effectively communicate their processes both orally and in writing and to critique the reasoning of others. This course solidifies the foundation for all future math courses.

Algebra Lab 610

NL
Full Year
1 Credit
Gr. 9
This course will run concurrent with Algebra I—CCP classes. Students are assigned to the Algebra Lab based upon teacher recommendations. This Lab course is aligned conceptually and chronologically to the Algebra I—CCP course and provides students with the extra instruction and practice needed to be successful in Algebra I. **Note: This course does not fulfill graduation requirements for students in mathematics.**

Geometry—ACC 613

ACC
Full Year
1 Credit
Gr. 9-10
 Geometry—ACC is a rigorous course that involves students in a comprehensive study of geometric figures and relationships. Many aspects of geometry are included: theory and application; informal and formal reasoning; symbolic and visual thinking; synthetic, coordinate and transformational methods. Students will form conjectures, which are justified by logical reasoning (proof), with students gradually learning the necessary skills to produce convincing arguments. **Prerequisite: Eighth grade team placement for students entering ninth grade. Successful completion of Algebra I.**

Geometry—CCP 615

CCP
Full Year
1 Credit
Gr. 10-12
 Geometry—CCP engages students in the study of geometric figures and relationships. It integrates algebraic skills with the study of shape, size, congruence, similarity, ratio, and proportion and deals primarily with plane figures. Students will use theory and application, informal and formal reasoning, symbolic and visual thinking, as well as synthetic, coordinate and transformational methods. Inductive and deductive reasoning will be incorporated for students to experience the logical reasoning process and presentation of sound arguments. **Prerequisite: Successful completion of Algebra I.**

Applied Geometry 616

CCP
Full Year
1 Credit
Gr. 10-12
This course is designed to support students who have had difficulty with the Algebra I concepts. Applied Geometry will engage and challenge students with all the topics presented in a traditional geometry program. These topics include angle and segment measurement, triangles, quadrilaterals, congruency, parallelism, similarity, circles, and an introduction to trigonometry. The program is designed to appeal to all learners with topics introduced by using hands-on activities that reflect real-life applications. Technological tools and Internet-based resources will be an integral part of classroom activities. **Prerequisite: Successful completion of Algebra I.**

Algebra II—ACC 619

ACC
Full Year
1 Credit
Gr. 10-12
 Algebra II—ACC is a rigorous, in depth course in the study of functions and applications that model real life situations. Students will refine skills from Algebra I to develop a deeper understanding of the axiomatic system with emphasis on the concepts of sets, functions, graphical representations, and problem solving. **Prerequisites: Successful completion of Algebra I and Geometry.**

Algebra II—CCP 621

CCP
Full Year
1 Credit
Gr. 10-12
 Algebra II—CCP is the study of functions and applications that model real life situations. Students will review and refine skills from Algebra I to develop and improve their understanding of sets, functions, graphical representations, and problem solving. **Prerequisites: Successful completion of Algebra I and Geometry.**

Algebra II—Part 1 623

CCP
Full Year
1 Credit
Gr. 11-12
 This course provides the student with the basic algebra manipulation skills needed to compute solutions. The algebra topics offered are signed numbers, polynomial operations, solutions of linear equations and inequalities involving numerical and literal terms, factoring polynomials, word problems, formula manipulation, graphing linear equations, systems of linear equations and equations by factoring or the quadratic formula as well as quadratic equations and exponential functions. **Prerequisites: Successful completion of Algebra I and Geometry.**

CCP
Full Year
1 Credit
Gr. 11-12

This full-year course is designed to follow Algebra II—Part 1. Students complete their study of Algebra II, including exponential, logarithmic, power, and periodic functions. Students will improve their understanding of sets, functions, graphical representations, and problem-solving. **Prerequisite: Successful completion of Algebra II Part 1.**

Probability, Statistics and Trigonometry 642

ACC
Full Year
1 Credit
Gr. 11-12

ACC is a rigorous, in-depth course in the study of advanced algebra topics that model real life situations. Students will review and refine skills from Algebra II to develop and improve their understanding of the world around them. The topics covered include Trigonometry, Probability, Statistics, Sequences and Series, Matrices and Logic Theory. This course is designed to prepare students for PreCalculus and/or college math. **Prerequisite: Successful completion of Algebra II and Teacher Recommendation**

Probability, Statistics and Trigonometry 641

CCP
Full year
1 Credit
Gr. 11-12

CCP is the continuing study of algebra topics that model real life situations. Students will review and refine skills from Algebra II to develop and improve their understanding of the world around them. The topics covered include Trigonometry, Probability, Statistics, Sequences and Series, Matrices and Logic Theory. **Prerequisite: Successful completion of Algebra II**

Finite Mathematics 639

CCP
Full Year
1 Credit
Gr. 11-12

Finite Mathematics provides a survey of mathematical analysis techniques used in the working world. Students will gain valuable experience organizing and analyzing information, with an emphasis on using math to solve real-world problems. Areas of study include matrices, linear programming, combinatorics, probability, statistics, logic, and finance. This course will include significant use of the graphing calculator, which is required for this course (TI-84 calculator is recommended). **Prerequisite: Successful completion of Algebra II or Departmental approval.**

CCP
Full Year
1 Credit
Gr. 11-12

In today's society, individuals need both knowledge and mathematical skills in order to make informed decisions. In this course, students will study topics regarding financial literacy, such as personal finance, purchasing, and investment; statistics, such as professional athletics and voting; and workplace, such as construction and budgeting. Students will develop and apply the math skills needed to successfully navigate these topics in the real world. **Prerequisite: Successful completion of Algebra II part 1 or Departmental approval.**

Pre-Calculus

ACC
Full Year
1 Credit
Gr. 11-12

Pre-Calculus is a course that extends and integrates the learning from both Geometry and Algebra 2 courses. It provides an in-depth, rigorous study of functions and their properties. Functions to investigate include Linear, Quadratic, Polynomial, Rational, Radical, Piece-wise, Exponential, Logarithmic, and Trigonometric. Representations and analysis of these topics will occur numerically, algebraically, and/or graphically (both with & without technology). Additional topics to be covered as time permits include Vectors, Law of Sines & Cosines, Polar Coordinate System, Parametric Equations, Analytic Geometry, and Sequences & Series. **Prerequisite: Successful completion of Algebra II ACC or Departmental approval.**

Calculus

ACC
Full Year
1 Credit
Gr. 12

Topics to be studied include limits of functions, the derivative, and definite and indefinite integrals. Applications of the derivative and integral will be emphasized. This course will include frequent use of the graphing calculator, which is required for this course (TI-84 calculator is recommended). **Prerequisite: Successful completion of Pre-Calculus or Departmental approval.**

For more information on dual enrollment opportunities, please see pg. 10

AP
Full Year
1 Credit
Gr. 12

Topics discussed will include limits and continuity, the derivative and definite integral with applications of both concepts, transcendental functions, techniques of integration and factors. A packet of summer review work will be required. The course will include significant use of the graphing calculator as aligned with the expectations of the College Board for the Advanced Placement Exam. Students may receive college credit for this course by successfully passing the AP Exam in May (a course expectation). Summer work is required.
Prerequisite: Successful completion of Pre-Calculus or Departmental approval.

AP
Full Year
1 Credit
Gr. 12

AP Statistics immerses students with the major concepts and tools for collecting, analyzing, and drawing conclusions from data. Students will frequently work on projects involving the hands-on gathering and analysis of real world data. Ideas and computations presented in this course have immediate links and connections with actual events, experiments and research. Computers and calculators will assist students in their deepened work on the concepts involved in statistics. Students may receive college credit for this course by successfully passing the AP Exam in May (a course expectation). Summer work is required. **Prerequisite: Completion of Algebra II Accelerated with a final grade of B or higher, or completion of introduction to Probability, Statistics and Trigonometry with a final grade of B or higher, or Department Approval.**

Music Department

The curriculum of the Timberlane Regional High School Music Department is built on the philosophy of providing a comprehensive program for the involvement of persons of all ages in learning music. Our goal is to build a vital musical culture and an enlightened musical public. The curriculum is designed to provide a program of study that correlates performing, creating, and listening to music, and encompasses a diversity of musical behaviors. It is designed to advance the teaching of music of all periods, styles, forms, and cultures. The curriculum offered provides the opportunity for every student at Timberlane, no matter what his/her musical background, to select an offering at his/her particular level of musical knowledge.

Course Descriptions:

Band	057
NL	Instrumental Performing Arts Band consists of three families of instruments: woodwinds, brass, and percussion. The ensemble is divided into numerous groups throughout the year such as: marching band, concert band, small ensembles, and soloists. The band performs at all football games, two major concerts, competitions, major trips, and parades. Students in all groups are expected to be at all rehearsals and performances and be willing to give additional independent practice at home. Prerequisite: Director's approval.
Full Year	
1 Credit	
Gr. 9-12	

Orchestra	058
NL	Instrumental Performing Arts Orchestra prepares string orchestra as well as full orchestra repertoire. The string orchestra instrumentation consists of students performing violin, viola, cello or bass violin and piano only. Winds, brass, and percussion are drawn from the I.P.A. Band when full orchestra works are prepared. The orchestra participates in all school concerts, large group competition, and all major trips. Students are expected to be at all rehearsals and performances and be willing to give additional independent practice at home. Prerequisite: Director's approval.
Full Year	
1 Credit	
Gr. 9-12	

Concert Choir	055
NL	The Concert Choir is offered to all students. Students in Concert Choir must accept the responsibility that comes with participation in a large musical ensemble. Through the performance of various genres and musical periods of musical repertoire, students will learn to appreciate the aesthetic value of singing choral music. The Concert Choir will perform three major school concerts, along with competitions such as New Hampshire Music Educators Large Group Festival, and at school/community functions where student participation is part of the course requirements. Prerequisite: Director's approval.
Full Year	
1 Credit	
Gr. 9-12	

Jazz Band—ACC	061
ACC	Jazz Band students are selected by the Band Director in April. Every student wishing to be in Jazz Band should express this to the Band Director by March 1 of the year previous in which the course will be taken. Students chosen for Jazz band are selected on their musical abilities in band, with the exception of those wishing to play electric guitar, piano, and electric bass. Students who play the latter instruments mentioned should see the Band Director immediately to arrange for an audition. Jazz Band will perform jazz concerts, assemblies, competitions, trips when applicable, and other activities where Jazz Band would be suitable. Prerequisite: Director's approval.
Full Year	
1 Credit	
Gr. 9-12	

Survey of Music 051

CCP
Half Year
0.5 Credit
Gr. 9-12
Music is all around us. There are not many moments in any given day when we are not influenced by music, yet the understanding of music is a mystery that only a select few seem to understand. This should not be true. Music is enjoyable and meant for all. This course will consist of the study of electronic music, listening, theory, history, hands-on experiences with instruments, the human voice, and acoustics of music. Through this course, all will gain a greater understanding of music and be more discriminating listeners in the future.

Theory I 063

ACC
Half Year
0.5 Credit
Gr. 9-12
Students will study the fundamental elements of music; melodic, rhythmic, and harmonic, through hearing, playing, and the writing of material. Development of sight singing, and aural training in scales, intervals, and rhythmic patterns will be taught. **Prerequisite: Instructor's approval.**

Theory II 065

ACC
Half Year
0.5 Credit
Gr. 9-12
In addition to the materials discussed in Theory I, the students will have individual projects in the areas of arranging and orchestration. Theory II is a continuation of Theory I, which is a prerequisite for this course. **Prerequisite: Successful completion of Theory I.**

Chamber Orchestra 071

ACC
Full Year
1 Credit
Gr. 10-12
Chamber Orchestra students will be selected by the Orchestra Director in September. Every student wishing to be in the Chamber Orchestra should express this to the Orchestra Director by March 1, of the previous year. Students chosen for the Chamber Orchestra will perform in all concerts, assemblies, competitions and trips where applicable and other activities where the Select Ensemble would be suitable. **Prerequisite: Director's approval.**

Guitar I 067

CCP
Half Year
0.5 Credit
Gr. 9-12
Students will explore the fundamental skills of playing acoustic guitar through several different playing styles. Topics covered include strumming open chords, reading sheet music and guitar tablature, playing famous guitar riffs and songs from genres including rock, pop, folk, indie, and beyond. Students enrolled in this course will only be using acoustic guitars. Students are encouraged to use their own acoustic guitars.

Guitar II 069

CCP
Half Year
0.5 Credit
Gr. 9-12
This course is a continuation of Guitar I. Students will study intermediate skills including fingerpicking, barre chords, extended harmonies, picking techniques, playing solos, reading sheet music in other positions on the guitar neck, and classical techniques. Students enrolled in this course will only be using acoustic guitars. Students are encouraged to use their own guitars. **Prerequisite: Successful completion of Guitar I or Director's approval.**

Guitar Orchestra 070

NL
Full Year
1 Credit
Gr. 9-12
Guitar Orchestra prepares guitar students in popular and classical music literature. Guitar Orchestra will consist of acoustic guitars only and will be supplemented by opportunities to perform on bass and baritone guitars. The Guitar Orchestra will participate in three annual school concerts. **Prerequisite: Successful completion of Guitar II or Director's approval.**

Chamber Ensemble 056

ACC
Full Year
1 Credit
Gr. 10-12
Chamber Singers students will be selected by the Chorus Director in September. Every student wishing to be in the Chamber Singers should express this to the Chorus Director by March 1, of the previous year. Students chosen for the Chamber Singers will perform in all concerts, assemblies, competitions and trips where applicable and other activities where the Select Ensemble would be suitable. **Prerequisite: Director's approval.**

Science Department

In planning a course of study in science, each student should consider graduation requirements, educational and career goals, and individual interests. The Timberlane Science Department offers core courses in physical and life sciences and half-year electives in life and earth sciences to support the needs, goals, and interests of Timberlane students. Using laboratory and fieldwork to support classroom instruction and discussion each course develops an appreciation for the nature of science and critical skills for scientific thought, conceptual understanding, experimentation, data acquisition, analysis skills, and facility in communicating experimental results. Courses are offered at College & Career Prep., Accelerated, and Advanced Placement levels to accommodate individual differences in learning style and goals. Students contemplating Accelerated level courses should ensure that they elect a mathematics program of equal rigor. Students and their parents are encouraged to discuss their programs with faculty members early in their careers. The Science Curriculum is written in adherence with the New Hampshire Department of Education Curriculum Frameworks for Science.

Course Descriptions:

Physical Science—ACC 705

ACC
Full Year
1 Credit
Gr. 9 

Physical Science—ACC provides a comprehensive introduction to the foundational concepts of physics and chemistry and serves as a prerequisite for other science courses. Students are expected to work independently on rigorous problem-solving challenges that apply physical science concepts.

Physical Science—CCP 707

CCP
Full Year
1 Credit
Gr. 9 

The purpose of this course is to provide a comprehensive introduction to the foundational concepts of physics and chemistry. This course is designed to serve as a prerequisite for other science courses.

Applied Physical Science—CCP 708

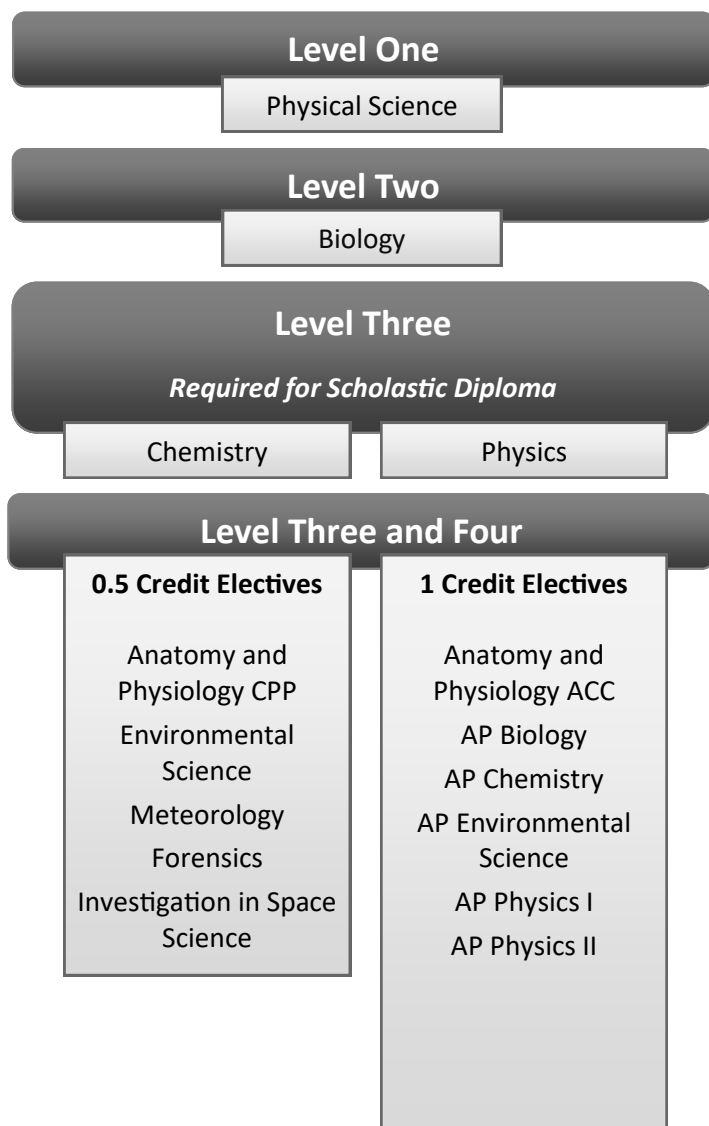

CCP
Full Year
1 Credit
Gr. 9, 11, 12

This course meets the physical science requirement in a way to support students through hands-on activities, and explicit differentiation for their needs. **Prerequisite: Departmental and School Counselor approval required.**

Physical Science/Biology (Integrated)—ACC 710

ACC
Full Year
2 Credits
Gr. 9 

This is a year-long set of integrated course that specifically sequences physical science (fundamentals of physics and chemistry) and biology to maximize the learning concepts within both course. This course meets both 'A' days and 'B' days. Physical science is examined in detail in the fall and biology in the spring, with strategic overlap between the two sciences as the year progresses. The nature of science, inquiry based lab techniques, modeling, lab notebook writing, and formal lab report writing skills are emphasized. This course is recommended for students with strong science and mathematics skills that plan to pursue science at the upper levels. **Prerequisites: Science and Algebra I grades of a B or better with a recommendation from the Middle School or Departmental approval for students who are concurrently enrolled in Algebra I—ACC.**

Biology—ACC**709**

ACC
Full Year
1 Credit
Gr. 9-12

Biology—ACC is an intensive laboratory-based course studying characteristics of life, cell structure and function, cell reproduction, DNA as the hereditary material, principles of genetics, evolution, a survey of the kingdoms of life, the classification of life diversity and ecology. Students will be expected to partake in independent projects, written work, class work, class discussions and independent student centered laboratory activities. Students taking this course are expected to carry out more independent work both in and out of the classroom.

**Biology—CCP****711**

CCP
Full Year
1 Credit
Gr. 10-12

Biology—CCP is a laboratory-based course studying characteristics of life, cell structure and function, cell reproduction, DNA as the hereditary material, principles of genetics, evolution, a survey of the kingdoms of life, the classification of life's diversity and ecology. Students will be expected to partake in projects, class work and laboratory activities.

**Applied Biology—CCP****713**

CCP
Full Year
1 Credit
Gr. 10-12

Applied Biology is a laboratory-based course studying characteristics of life, cell structure and function, cell reproduction, DNA as the hereditary material, principles of genetics, evolution, a survey of the kingdoms of life, the classification of life's diversity and ecology. Students will be expected to partake in projects, classwork, and laboratory activities. This course is designed to support students through hands-on activities, and explicit differentiation for their needs.
Prerequisite: Departmental and School Counselor approval required.

Chemistry—ACC**727**

ACC
Full Year
1 Credit
Gr. 10-12

Chemistry—ACC includes the study of the nature of matter, energy, chemical change, stoichiometry, periodicity, atomic structure, behavior of gases, liquids and solids, chemical bonding, acids and bases, thermo dynamics, kinetics, electrochemistry, and equilibrium. Data acquisition and analysis skills are emphasized through laboratory work. Algebra is extensively used for Problem solving. Completion of/or concurrent registration in Algebra II is recommended.

**Chemistry—CCP****729**

CCP
Full Year
1 Credit
Gr. 10-12

Chemistry—CCP is a laboratory-based course dealing with the study of matter, atomic structure, formula and equation writing, chemical reactions, states of matter, gas laws, chemical bonding, acids, bases and pH, equilibrium and environmental chemistry. Algebra is extensively used for problem-solving.

**Physics/Chemistry (Integrated)—ACC****730**

ACC
Full Year
2 Credits
Gr. 10-12

This is a year-long set of integrated courses that sequences physics and chemistry to maximize learning concepts within both courses. This course meets both 'A' days and 'B' days. Physics is examined in detail in the fall and chemistry in the spring with strategic overlap between the two courses as we progress through the year. This course is recommended for students with strong science and mathematical skills. Algebra is extensively used for problem-solving.
Prerequisite: Successful completion of/or concurrent registration in Algebra II or Departmental approval.

**Physics—ACC****731**

ACC
Full Year
1 Credit
Gr. 10-12

This intensive course is designed for students preparing for a mathematical, scientific or engineering profession. This course incorporates both theory and laboratory work in the following topics: mechanics, electricity, wave motion, atomic physics, and modern physical theories. Data acquisition and analysis skills are emphasized through laboratory work. Algebra is extensively used for problem-solving. Completion of/or concurrent registration in Algebra II is recommended.

**Physics—CCP****733**

CCP
Full Year
1 Credit
Gr. 10-12

Physics—CCP is intended to provide students with a comprehensive study involving theory and laboratory work in the following topics: mechanics, dynamics, circular motion, electricity and modern physical theories. Algebra is extensively used for problem-solving.

Environmental Science—ACC

722

ACC
Half Year
0.5 Credit
Gr. 10-12

This course is to provide students with the scientific principles, concepts, and methodologies required to understand the interrelationships of the natural world, to identify and analyze environmental problems both natural and human-made, to evaluate the relative risks associated with these problems, and to examine alternative solutions for resolving and/or preventing them. Students will take part in ecological field work, perform laboratory investigations, and undertake independent research. **Prerequisite: Successful completion of Physical Science and Biology or Departmental approval.**

Environmental Science—CCP

721

CCP
Half Year
0.5 Credit
Gr. 10-12

This course is to provide students with the scientific principles, concepts, and methodologies required to understand the interrelationships of the natural world, to identify and analyze environmental problems both natural and human-made, to evaluate the relative risks associated with these problems, and to examine alternative solutions for resolving and/or preventing them. Students will take part in outdoor laboratory experiences and gain hands-on experience in environmentally related topics. **Prerequisite: Successful completion of Physical Science and Biology or Departmental approval.**

Forensics—CCP

724

CCP
Half Year
0.5 Credit
Gr. 11-12

Forensic Science is an elective science course designed for students interested in the science used to solve crimes. The many different types of evidence found at crime scenes will be studied and students will learn methods to collect them safely. Modern technology will be examined to discover how it has made forensic work easier and more reliable over the years. Through hands-on experiments and crime-scene analysis, students will look to use what has been learned to solve “real” crimes. This course will cover many different aspects of science including chemistry, physics, and biotechnology. **Prerequisite: Successful completion of Physical Science and Biology or Departmental approval.**

Human Anatomy and Physiology—ACC

715

ACC
Full Year
1 Credit
Gr. 10-12

This course offers a systematic exploration of the major systems of the human body, including structure (anatomy) and function (physiology). Using microscopes to view cells and tissues and anatomical models to study organs and organ systems, students collaborate in small groups as well as work independently to better comprehend human structure and function. A combination of teacher presentations, lab activities and online resources are used to learn about the integumentary, skeletal, muscular, digestive, respiratory, cardiovascular, excretory, reproductive and other body systems. There is an expectation that students will demonstrate a high level of individual preparation and independent study. **Prerequisite: Successful completion of Biology—ACC.**

Human Anatomy and Physiology—CCP

717

CCP
Half Year
0.5 Credit
Gr. 10-12

This course offers a systematic exploration of the major systems of the human body, including structure (anatomy) and function (physiology). Using microscopes to view cells and tissues and anatomical models to study organs and organ systems, students collaborate in small groups as well as work independently to better comprehend human structure and function. A combination of teacher presentations, lab activities and online resources are used to learn about the integumentary, skeletal, muscular, digestive, respiratory, cardiovascular, excretory, reproductive and other body systems. Discussion related to concepts and key understanding of topics will be initiated and reviewed in class. **Prerequisite: Successful completion of Biology or Departmental approval.**

Introduction to Meteorology

723

CCP
Half Year
0.5 Credit
Gr. 10-12

This course provides a survey of weather study including topics such as history of weather observations, atmospheric structure and composition, earth-sun relationships, air pressure and winds, cloud formation, air masses and resulting precipitation. Weather phenomena, such as hurricanes and tornadoes are investigated and the study of climates is introduced.

Investigations in Space Science

745

ACC
Half Year
0.5 Credit
Gr. 11-12

This half year elective will focus on student interests in many aspects of space science. Students will be investigating current research, laws, and theories about the Universe and beyond. Topics also may include specific aspects of our solar system and man’s travel and research within. Students will be expected to participate in class discussions, projects, presentations and traditional labs, quizzes, tests and research assignments. **Prerequisites: Successful completion of Physical Science, Biology and Physics or Departmental approval.**

AP[®] Biology

737

AP
Full Year
1 Credit
Gr. 11-12

The goal of this course is to offer ambitious students the challenge of a college level general biology course. Students are challenged in the areas of biochemistry, cell structure and function, genetics, evolution, and ecology presented in detail as they continue to develop science practices and big ideas. Since classroom time is limited, independent study and supplemental reading are required. Students who select the course are required to take the AP exam in May. **Prerequisite: Grade of 'B' or better in Biology-ACC and Chemistry-ACC or Department approval. Note: Summer preparatory work may be an additional requirement of the course.**

AP[®] Chemistry

735

(SNHU Dual Enrollment opportunity)

AP
Full Year
1 Credit
Gr. 11-12

The purpose of this course is to offer ambitious students the challenge of a college level Chemistry program. The course follows the recommendations of the College Board and includes selected enrichment topics. The content is advanced and strong mathematical skills are needed. Since classroom time is limited, independent study and supplemental reading are required. Students who select the course are required to take the AP exam in May. **Prerequisites: Successful completion of Physical Science, Biology, Chemistry and Algebra II, or Departmental approval. Note : Summer preparatory work may be an additional requirement of the course.**

AP[®] Environmental Science

742

(SNHU Dual Enrollment opportunity)

AP
Full Year
1 Credit
Gr. 11-12

The goal of this course is to provide students with the scientific principles, concepts, and methodologies required to understand the interrelationships of the natural world, to identify and analyze environmental problems both natural and human-made, to evaluate the relative risks associated with these problems and to examine alternative solutions for resolving and/or preventing them. Environmental science is interdisciplinary; it embraces a wide variety of topics from different areas of study. Yet there are several major unifying constructs, or themes, that cut across the many topics included in the study of environmental science. Students who select the course are required to take the AP exam in May. **Prerequisites: Grade of 'B' or better in Biology—ACC and Chemistry—ACC or Departmental approval. Note : Summer preparatory work may be an additional requirement of the course.**

AP[®] Physics I

734

(SNHU Dual Enrollment opportunity)

AP
Full Year
1 Credit
Gr. 11-12

The course offers ambitious students the opportunity to do college level work in physics without the prior knowledge of calculus. The course follows the recommendations of the College Board, and includes selected enrichment topics in classical physics. The objectives of the course are to understand the basic principles and apply these principles in solving problems. General areas to be covered include: Newtonian mechanics, rotational motion, work, energy, power, mechanical waves, sound, electrostatics, and introductory DC circuits. Since classroom time is limited, independent study and supplemental reading are required. Students who select the course are required to take the AP exam in May. **Prerequisite: Successful completion of Algebra II and Departmental approval. Note : Summer preparatory work may be an additional**

Gr. 11-12

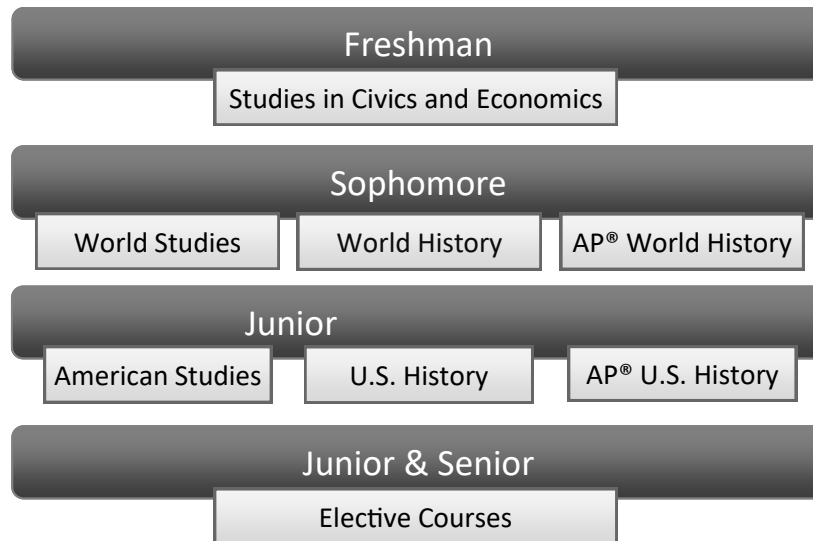

The course offers ambitious students the opportunity to do college level work in physics without the prior knowledge of calculus. The course follows the recommendations of the College Board, and includes selected enrichment topics in classical and modern physics. The objectives of the course are to understand the basic principles and apply these principles in solving problems. General areas to be covered include: Thermodynamics, heat, kinetic theory, fluids, electrostatics, DC circuits, steady-state RC circuits, magnetism, induction, optics, quantum physics, and nuclear physics. Since classroom time is limited, independent study and supplemental reading are required. Students who select the course are required to take the AP exam in May. **Prerequisite: Successful completion of AP Physics I, Pre-Calculus, and Departmental approval. Note : Summer preparatory work may be an additional requirement of the course.**

For more information on dual enrollment opportunities, please see pg. 10.

Social Studies Department

The mission of the Social Studies curriculum is to provide opportunities for students to develop a global perspective, foster democratic ideals, and understand economic theories. These opportunities will help students understand and appreciate their physical, multi-cultural world so that they may become enlightened and active citizens. The Timberlane graduate will be able to connect the knowledge obtained to personal experience and will apply these to issues in the ever-changing world. The Social Studies Curriculum is written in adherence to the New Hampshire Department of Education Curriculum Frameworks for Social Studies.

Course Descriptions:

Studies in Civics and Economics—ACC 803A

ACC
Full Year
1 Credit
Gr. 9

This is a full year integrated course that focuses on the connections between civics and economics at the local, state, national, and international levels. Students will study the reach and limits of power between state and federal governments. In addition, they will analyze the effectiveness and impact of economic and governmental decision making on citizens and markets. The course provides opportunities for students to examine how laws are used or challenged to address issues. Topic studied will include the relationship between federal and state governments with respect to citizens' rights, distribution of taxes, national defense, ensuring states' rights, and government sponsored programs. The course will examine the role that United States government plays in the national economy, international trade and global affairs. This course develops skills at an accelerated pace for students who want experiences that will prepare them for advanced work.

World History—ACC 806

ACC
Full Year
1 Credit
Gr. 10
World History—ACC builds upon the learning from the middle school curriculum and begins with a study of the Renaissance, moving into the Enlightenment, Age of Exploration and eventually into the 21st Century. This course includes units relating to events in Europe, Asia, Africa and the Americas. Students are asked to write extensively, using classroom learning, to interpret historical events. Analysis of primary sources, Internet and library-based research, field trips, readings from the text and other sources, film analysis, and classroom discussions are all possible learning techniques. Research-based presentations will be employed.

World History—CCP builds upon the learning from the middle school curriculum and begins with a study of the Renaissance, moving into the Enlightenment, Age of Exploration and eventually into the 21st Century. This course includes units relating to events in Europe, Asia, Africa and the Americas. Students will be asked to use their classroom learning to interpret historical events. Analysis of primary sources, Internet and library-based research, field trips, reading from the text and other sources, film analysis and classroom discussions are all possible learning techniques.

World Studies 808

ACC/CCP
Full Year
2 Credits
Gr. 10
World Studies is an interdisciplinary course that combines history and literature. This course emphasizes the intricate thematic connections between history and the literature of historical periods. Analysis of historical sources and documents coupled with analysis of literature will be the main focus through writing and team-based projects. In addition to the study of history and literature, students will examine art, music, and philosophy related to the central themes studied in this course. This is a team-taught course that meets both 'A' days and 'B' days. It fulfills the graduation requirements for World History and World Literature. Students may contract for accelerated credit.

AP[®] World History 821

AP
Full Year
1 Credit
Gr. 10-12
All AP courses are college-level courses and students should be prepared for that level of rigor. Building upon the learning from the standard World History courses, the AP World History course develops greater understanding of the evolution of the global process and intercultural contact. This is achieved through a combination of selected factual knowledge and development of appropriate analytical skills. It emphasizes relevant factual knowledge used in conjunction with leading interpretive issues and types of historical evidence. Students may receive college credit for this course by taking the World History Advanced Placement Exam, which is an expectation. **Note: Summer preparatory work is a required part of the course.**

United States History—ACC 807

ACC
Full Year
1 Credit
Gr. 11
United States History—ACC builds upon the learning from the middle school curriculum and begins with a study of the end of the Civil War. This course takes an in-depth look at the events of the last part of the 19th Century, all of the 20th Century, and uses that learning to analyze the events of the first decade of the 21st Century. Students will be asked to join in classroom discussions, read texts and other materials outside of class, think creatively, present learning to the class, and write extensively. The process of researching and writing a college-style term paper will be included in the course.

United States History—CCP 809

CCP
Full Year
1 Credit
Gr. 11
United States History—CCP builds upon the learning from the middle school curriculum and begins with a study of the end of the Civil War. This course takes an in-depth look at the events of the last part of the 19th Century, all of the 20th Century, and uses that learning to analyze the events of the first decade of the 21st Century. Students will be asked to join in classroom discussion, read outside of class, think creatively and write about their learning. A particular emphasis will be placed on the process of researching and writing a long-form paper.

American Studies 816

ACC/CCP
Full Year
2 Credits
Gr. 11
American Studies is an interdisciplinary course that combines historical evidence with an analysis of literature to answer essential questions concerning American culture. Through a variety of activities such as group projects, discussion, oral presentations, simulations, and analysis, students will be given an opportunity to connect the studies of history, literature, art, philosophy, and music. This is a team-taught course that meets both 'A' days and 'B' days.. This course meets the requirements for both United States History and American Literature courses. Students may contract for accelerated credit.

AP[®] United States History 819

AP
Full Year
1 Credit
Gr. 11-12
All AP courses have a level of rigor commensurate with a college-level course. Advanced Placement United States History is a chronological study of American History from Columbus to Clinton. The course emphasizes critical thinking, independent reading, research and extensive writing in the style of the AP exam. Should students achieve a score of 3, 4 or 5 on the Advance Placement exam (taking the exam is an expectation) they may receive a college credit. **Note: Summer preparatory work is an additional requirement of the course.**

American Values in Film and Music * 841

ACC/CCP
Half Year
0.5 Credit
Gr. 11-12

Course will be offered in odd starting school years

This course used film and music to examine traditional and contemporary American values and ethical issues. Students will be able to explain how American values are represented in mass media and how they are perceived by outside sources. Personal traits of courage, love, family and integrity, in addition to social issues of racism, morality, freedom of religion, altruism and social justice will be explored. Because movies and television are filled with historical inaccuracies, the purpose of the course will not be to teach history but to use film and popular music as a vehicle for the students to examine and analyze society and themselves. Students may contract for accelerated credit.

Behavioral Psychology 840

ACC
Half Year
0.5 Credit
Gr. 10-12

Behavioral psychology is an accelerated semester long course designed to introduce students to the systematic and scientific study of the behavior and mental processes of human beings and other animals. Students are exposed to the psychological facts, principles, and phenomena associated with each of the major subfields of psychology. Students also learn about the ethics and methods psychologists use in their science and practice. The course will include extensive reading, weekly writing assignments, lab work, and in-depth classroom discussions.

Constitutional Law * 832

ACC
Half Year
0.5 Credit
Gr. 11-12

Course will be offered in even starting school years

Constitutional Law is a study of the courts in the American political system. The focus of the course is on one of the most vital aspects of politics; interpreting and applying the nation's fundamental rules. The case method is used to analyze constitutional topics including: governmental power, race and gender discrimination, equal protection of the law, rights of the accused, modern constitutional theories, the right to privacy, as well as the First Amendment rights of freedom of speech, press, expression and religion.

Current Issues 843

CCP
Half Year
0.5 Credit
Gr. 10-12

This course will provide the students with a perspective of events and trends in the world as well as a contemporary view of history in the making. The development of communication, critical-thinking, decision-making, research and geography skills will center around strong student interaction. General topics include political, economic, and social trends, the environment, crime and international relations, and current world events.

History of Sports 833

ACC/CCP
Half Year
0.5 Credit
Gr. 10-12

In this class students will gain knowledge about the historical origins and development of various sports in America as well as worldwide major political, social, cultural, economic, and intellectual concepts throughout the chronological history of sports. Students will understand why and how sports have become a popular cultural phenomenon. They will examine the historical context as well as the significance of gender, race, ethnicity and social class. Students will begin to recognize the influence that commercialization has within the sports world. This historical investigation will be done through readings, primary sources, audio and visual materials, research based individual and collaborative based projects, as well as class discussion.

Law 831

CCP
Half Year
0.5 Credit
Gr. 10-12

This course studies the law from a practical, everyday viewpoint. Students will gain an understanding of their legal rights and responsibilities, knowledge of real life legal problems and the ability to analyze, evaluate, and in some cases, resolve legal disputes. The course will address general problems in the area of criminal, consumer, family, housing and individual rights law. Law will emphasize the application of New Hampshire State Law as well as law practiced throughout the United States.

Cultural Geography * 823

CCP
Half Year
0.5 Credit
Gr. 10-12

Course will be offered in even starting school years

This course deals with the interconnectivity of culture, politics, economics, religion, and human perception and regionalization. Students will recognize that places and regions serve as symbols for individuals and societies. Students will distinguish how cultural traits shape the characteristics of a region, analyze the increasing interdependence of the world's countries, and demonstrate how cooperation and conflict are involved in shaping the distribution of social, political, and economic spaces on Earth. Students will also explain the results of globalization and how changes in the physical environment can diminish its capacity to support human activity.

Popular Culture**834**

ACC/CCP
Half Year
0.5 Credit
Gr. 10-12

This course provides an upper-level introduction to critical issues and approaches in the study of American popular culture. This includes defining popular culture and high culture using the student's own expertise as consumers of popular culture as a take-off point for exploring the various roles played by mass-mediated popular culture in our lives. Part of the task of this course will be to refine further the student's ability to read, research, evaluate, and synthesize materials from different disciplines into the student's own interdisciplinary analyses. The course will look primarily at television, film, advertising, stereotypes, popular music, and computer cyberspace, with occasional forays into other types of pop culture.

Psychology**839**

CCP
Half Year
0.5 Credit
Gr. 10-12

Psychology is the study of human behavior and the mental processes. The course emphasizes participation as a key component to understanding student's behavior and individual thought. The primary method of analysis will be explained by utilizing personal examples. Students will be expected to communicate the principles of each major psychology concept to their own emotions, motivations, and learning experiences. Lastly, students will be synthesizing unit information by both paraphrasing through outlining and presentation formats. Key topics of study include memory, personality, adolescence, social psychology (cognition and behavior), and abnormal psychology.

Social Science of Well-Being**845**

ACC
Half Year
0.5 Credit
Gr. 11-12

Simulated by ground-breaking research in the fields of Philosophy and Positive Psychology, both academia and popular media have seen an upsurge of interest in the "Social Science of Well-Being". What influences well-being? Can we measure happiness or peace of mind? What does the latest research and data tell us about the causes of happiness? How can we use the science of well-being to effect positive change in our lives? This course will explore these questions and more while examining the work of philosophers, sociologists, and psychologists from both the East and West who have pioneered the exploration of happiness. Students will examine recent discoveries in the field of the social sciences, reflect in their concrete implications, and consider strategies to integrate these new insights into their personal and professional lives.

Sociology ***835**

CCP
Half Year
0.5 Credit
Gr. 10-12

Sociology is the study of societies, social groups, and the relationships between people. The field encompasses both the formation of particular societies and social groups, including their continuation, dissolution, and demise as well as the origins, structure and functioning of social groups. Students will learn the basic tools they need to develop a sociological imagination. The sociological imagination is the ability to see the connection between the larger social world and our personal lives. The development of the sociological imagination enables students to examine how society shapes human behavior and beliefs and how such actions and beliefs in turn shape society.

**AP® Psychology****848**

AP
Full Year
1 Credit
Gr. 11-12

The AP Psychology course provides a comprehensive introduction to the scientific study of human behavior and mental processes. Through an examination of foundational studies and influential theories, students will engage with core concepts and phenomena across key areas in psychology, including the biological bases of behavior, cognition, development, learning, social psychology, personality, and mental/physical health. Throughout the course, students will also apply psychological principles, utilize research methods, and interpret data to critically evaluate evidence and effectively articulate understanding. Students are required to take the AP exam in May.

AP® Government**820**

AP
Full Year
1 Credit
Gr. 12

All AP courses are college-level courses, and students should be prepared for that level of rigor. The Government course is a study of the American governmental system, including both the nuts and bolts of governing a nation and the influence of politics on decision-making. The course will include extensive reading, weekly writing assignments in the style of the AP exam, outside reading, and classroom discussions. Students may receive college credit for this course by taking the Government and politics US Advanced Placement Exam, which is an expectation. **Note: Summer preparatory work is an additional requirement of the course.**

AP
Full Year
1 Credit
Gr. 12

This course focuses student learning and study on the how and why of global human movement and interaction, its impact on our planet, and our understanding of it. Students will be introduced to the study of geography as a social science through emphasizing the relevance of geographic concepts to human problems. This course seeks to explore various geographic concepts related to human movement and interaction with the environment through the study of the five themes of Human Geography: Location, Human Environmental Interaction, Regions, Place and Movement. Students will critically explore the following topics in relation to human geography: Population, Migration, Cultural landscapes, identity, language, religion, political geography, urban geography, urban geography, development, agriculture, industry, human environment, and globalization. Students are required to take an AP exam in May. **Note: Summer preparatory work is an additional requirement of the course.**

* indicates that these courses will be offered in alternating school years as outlined below

School year type (start of school year even/ odd)	School year calen- dar numbers	Courses being offered
Odd	2025/2026	American Values in Film and Music; Sociology
Even	2026/2027	Cultural Geography; Constitutional Law
Odd	2027/2028	American Values in Film and Music; Sociology
Even	2028/2029	Cultural Geography; Constitutional Law

Special Education Department

Timberlane Regional High School Special Education Department is committed to the New Hampshire Standards for the Education of Students to provide a free and appropriate education for all identified disabled students. We use a model of push in and pull out services.

TRHS follows the proper referral, evaluation, and placement requirements in order for a student to take part in specially designed instruction as a part of the student’s IEP. A referral may be made by anyone that is responsible for the education of a student such as but not limited to: parent/guardian, teacher, or outside provider. After it has been determined (through the referral, evaluation and placement process) that a student is educationally disabled, a variety of placement options become available as discussed at an IEP Team Meeting.

Such placements may include, but are not limited to, the following options: targeted skill instruction, consultative assistance, related service provider services , paraprofessional support, transition skills support and/or specially designed instruction.

Life Skills—Daily Living 980A

NL
Full Year
1 Credit
Gr. 9-12

This special education course offers a structured, comprehensive curriculum that allows students with intensive needs in grades 9-12 to work towards independence by learning functional life and academic skills in the areas of consumer math for community and vocational purposes. This course will focus on basic nutrition and cooking, home management, and personal care and safety. There is an emphasis on functional reading skills as they prepare students for their lives after high school. The classes are structures to meet the goals and objectives identified in these areas in a student’s Individualized Education Plan. These classes may be taken as many times as needed. These classes are taken for pass/fail credit and fulfill general elective credit requirements. **Prerequisite: Special**

Life Skills—Consumer math 982A

NL
Full Year
1 Credit
Gr. 9-12

This special education course offers a structured, comprehensive curriculum that allows students with intensive needs in grades 9-12 to work towards independence by learning functional life and academic skills in the areas of consumer math for community and vocational purposes. This course will focus on making purchases such as buying food and clothing within a budget, earning and budgeting money, and improving your household through managing a budget. The classes are structures to meet the goals and objectives identified in these areas in a student’s Individualized Education Plan. These classes may be taken as many times as needed. These classes are taken for pass/fail credit and fulfill general elective credit requirements. **Prerequisite: Special Education Team Approval**

Life Skills—Career Planning 983A

NL
Half Year
0.5 Credit
Gr. 9-12

This special education course will guide students through the process of assessing their interests and determining preliminary career options.

Reading 960

NL
Full Year
1 Credit
Gr. 9-12

Special Education Reading classes are designed to meet the needs of students with intensive needs or profound needs resulting from reading related disabilities, and to address specific reading goals as part of their Individual Education Plan. Courses are designed to be taken in conjunction with grade level English classes in order to provide specialized instruction needed to help students meet with success in those classes. These courses do not fulfill an English requirement. Full year 1 credit. Class size is limited. Prerequisite Special Education Team approval.

Unified/Adaptive Physical Education and Health 418

CCP
Half Year
0.5 Credit
Gr. 9-12

This course is designed for students who would be successful in a small, personalized health and physical education setting with support from other students. Students will receive differentiated instruction in association to the Universal Design for Learning that provides a flexible environment to grow. Students will be exposed to a variety of health topics including but not limited to personal advocacy, safety and violence prevention, nutrition, puberty, mental and emotional health in addition to knowledge of how to be physically active for a lifetime, and build community with their peers. **Prerequisite: Departmental approval.**

Theater Department

One of the greatest playwrights of all time, Oscar Wilde, once said this about theater: “I regard the theater as the greatest of all art forms, the most immediate way in which a human being can share with another the sense of what it is to be a human being.” The best way to find out if what Mr. Wilde has said is true is by exploring the possibilities of theater. By enrolling in any one of the courses that the Theater Department has to offer, you will find yourself in a new learning environment. You will be in a place where a bare stage replaces a blank sheet of paper for assessment, where acting out in class is encouraged, and where you will have a chance to explore your own hidden talents.

By taking any one of the classes offered in Theater, you will have a unique opportunity to look at learning in a new way, where your creativity and talent will be celebrated beyond a test grade or a written assignment. You will be able to transform your class work into performance. You can have the chance to see one of your own scripts actually performed by trained actors. You may find a new direction in life and new ways to express the wonderful qualities that exist in each and every one of us.

We look forward to seeing you on stage soon. To end with another Wilde thought, “The stage is not merely the meeting place of all the arts, but is also the return of art to life.”

Course Descriptions:

Introduction to Theater	252	Advanced Acting	265
NL	This class will offer a general introduction to theater from both a literary and a performance approach. Students will be learning about theater from reading and performing plays. They will also learn about the technical aspects of theater: costuming, sound design, set and prop construction, lighting effects, and special effects. This course is designed to encourage students to recognize the connection between literature and performance. It will allow students to gain confidence both in a classroom setting and on a stage. Actual performance will be a major form of assessment for the class.	ACC	Advanced Acting will be a continuation of Introduction to Theater. In this class, students will study the craft of acting through a variety of acting techniques. They will learn about stage movement and acting styles demonstrated by masters in the field. This course is geared toward students who possess a serious interest in theater, and it would be beneficial to those who intend to study theater in college or as a career option. Prerequisite: Departmental approval.
Half Year		Half Year	
.5 Credit		.5 Credit	
Gr. 9-12		Gr. 10-12	
Improvisation	267	Playwriting	253
NL	The basic premise of improvisation is not based upon traditional instructional methods such as practice, memorization, review, and testing; it is actually based on failure more times than not. It is through failure that students learn to keep on trying, taking risks, and learning that how one handles failure is the true test of one’s character. This class is based on team building, knowing that we will all make mistakes and risk-taking in an environment that is supporting and nurturing. The class will work on both the well-known short form, as well as the more challenging long-form improvisational styles. Participation through daily performance is the major form of assessment in this class.	ACC	This class will focus on creative writing. Students taking this class will work on writing scripts for theatrical production. While the class is specifically a creative writing class, students will also be reading a variety of published plays. Students will see their creative efforts turn into actual performances, since they will be able to access the talents of the Timberlane Players who will be performing the scripts during an annual one-act play series. This class is designed to provide students with an outlet for their talents and to help all students realize that what they do in class can have a dramatic impact on themselves and others.
Half Year		Half Year

Gr. 9-12		Gr. 11-12	

World Language Department

The World Language Department offers courses in French, Latin, and Spanish to students at all levels of learning to support the requirement of most four-year colleges and universities. In our current globalized world, the study of a world language increases a student's connection to global cultures and perspectives, provides more opportunities for both national and international employment, and builds a foundation of linguistics that can apply to both English and his/her chosen language of study. Language courses seek to develop students' language proficiency around modes of communicative competence reflecting real life communication. The language one chooses is a matter of personal choice. There is no "easier" or "more difficult" one to learn. Learning a language requires the desire and willingness to work. It takes time to become proficient in a new language. Regardless of the length of time that students study a language, all students will develop and enhance their language skills and deepen their cultural understanding.

Course Descriptions:

French I—CCP 307

CCP
Full Year
1 Credit
Gr. 9-12

French I—CCP is an introductory course for students with who need a basic foundation or have no previous study in the language. The course develops students' reading, writing, listening, and speaking skills through exposure to authentic texts and audio resources. Students will enhance their cultural competence and understanding through a focused study of the products and practices of francophone communities in Canada. Students will acquire vocabulary and basic linguistic structures related to the themes of personal identity, families, schools and communities. This proficiency-based course is conducted in the target language and requires the active participation of all students.

French II—ACC 314

Career and Technical Education (CTE)

Courses available at Salem High School and Pinkerton Academy

Those students who wish to gain career and technical training and certification while still in high school should consider the opportunity of attending a regional CTE Center. Students who enroll in the program take their academic courses at Timberlane Regional High School and a two period career and technical course at the CTE Center at Salem High School or Pinkerton Academy. Transportation to Salem High School is provided by Timberlane Regional High School. Students attending Pinkerton programs are required to provide their own transportation.

The following CTE programs are available through the CTE in Salem:

Automotive Technology

Automotive Technology is a two year program aimed at preparing students for careers in the automotive industry such as: automotive technicians, service writers, engineers, parts distributor, and aviation and diesel technicians. Many students their education at community and technical colleges and gain employment. Students can earn industry credentials and college credit through Manchester Community College.

Automotive Technology 1 861

<p>CCP</p> <p>Full Year</p> <p>2 Credits</p> <p>Double Period</p> <p>Gr. 11</p>	<p>In Automotive Technology 1, you will study many of the major automotive systems while learning how a quality automotive shop operates. Major topics of instruction include: shop safety, shop operations, lubrication, engine components, steering and suspension, brake systems, and vehicle safety inspections. You will also develop an understanding of service write-ups, customer service, and parts management. You will gain valuable hands-on experience performing live work in the Salem AutoTech shop. Appropriate safety instruction is provided and students are required to wear proper footwear, eye wear, and clothing for use in laboratory activities. You will be eligible to earn SP2 safety certification, Valvoline oil certification, as well as industry-driven training from various local companies.</p>
---	--

Automotive Technology 2 863

<p>CCP</p> <p>Full Year</p> <p>2 Credits</p> <p>Double Period</p> <p>Gr. 12</p>	<p>In Automotive Technology 2, you will use the skills and competencies mastered in Automotive Technology 1, while mastering new competencies in front-end alignment, steering and suspension, emissions, engine principles, cooling and heating systems, electrical diagnosis and repair as well as scan tool use. A continued emphasis on safety, shop management, and proper workplace attitude are important components of this course. You are required to provide proper footwear and clothing for use in laboratory activities. This program is accredited through the ASE Foundation. Automotive related colleges and post-secondary schools visit the program each fall to inform you of post-secondary options. You will be eligible for student level ASE certification and may have the opportunity to compete in the Skills USA competition. Prerequisite: Grade of C+ or better in Automotive Technology 1 or teacher recommendation.</p>
---	--

Biomedical Science

Biomedical Science is a laboratory-based, two-year program aimed at preparing students for a variety of careers in the life science, biotechnology, as well as medical fields. Using a hands-on approach and state-of-the-art equipment, a student will explore a workplace approach to working in medicine, genetics, biotechnology, pharmaceuticals, biochemistry, biomedical engineering, and research to name a few. The lab equipment, technology and lab bench skills rivals the quality of many college programs. Completion of Biomedical Science 1 satisfies the life science graduation requirement. Biomedical Science 2 is an Early College program and qualifies for 3 college credits in Biotechnology.

Biomedical Science 1

870A

CCP
Full Year
2 Credit
Double
Period
Gr. 11-12

Biomedical Science is a two-year program for students interested in pursuing a major or career in the medical sciences, biotechnology and many affiliated fields. It is a very hands-on program where you will learn skills and techniques in our state-of-the-art laboratory while preparing you for these high-demand jobs. In Biomedical Science 1 you will focus on microbiological techniques such as aseptic technique, growing culture, media preparation, microbial genetics and identification. You will also study techniques in DNA manipulation, cell culture, protein production, biomolecule purification, drug discovery, bioinformatics, and much more. The work completed in this course rivals most undergraduate programs. If you enjoy the sciences in a hands on laboratory environment, then this course is for you! Biomedical Science 1 fulfills the life science/biology graduation requirement. **Prerequisite: Current grade of C or better in Earth/Space Science .**

Biomedical Science 2

870B

CCP
Full Year
2 Credits
Double
Period
Gr. 11-12

Biomedical Science 2 focuses on advanced topics and the direct application of skills related to biomedical science, biochemistry, and biotechnology. You will further your skills in Quality Control, recombinant DNA technology, immunology, protein purification, as well as forensic DNA testing. You will have the opportunity to earn certificates representing a number of demonstrated laboratory skills. In addition, as experienced laboratory technicians, you will have the opportunity to gain additional experience working independently on a Capstone research project. This course qualifies for 3 college credits in biotechnology as part of Early College. **Prerequisite: Grade of C or better in Biomedical Science 1.**

Business Pathway

The Business Pathway is a program that offers students the opportunity to earn up to 15 college credits through Manchester Community College which may be transferred to many 4 year colleges and universities. A student is considered a Business Pathway completer if they complete 4 of the 5 courses. Business Principles must be taken as the first course and is a prerequisite for all other courses.

Business Principles

878F

CCP
Half Year
1 Credit
Double
Period
Gr. 11-12

This course is designed to provide you with a basic understanding of the structures and operations of business. You will gain an awareness of social and ethical responsibility as it relates to the environment, consumers, employees, and investors. Business ownership, management, marketing, the global economy, money and investments will also be explored. **Note: This course is the first course in the Business Pathway Program and must be completed before taking any other Business Pathway courses. This course is eligible for three college credits.**

Marketing

893

CCP
Half Year
1 Credit
Double
Period
Gr. 11-12

The sales and marketing fields have great opportunities for employment. In this course, you will take an in-depth look into the marketing of goods and services within the diverse marketing industry. Topics include: sports and entertainment, fashion, retail, marketing communication, consumer behavior, product planning, visual merchandising, pricing, and advertising. Students will obtain their skills and knowledge through classroom instruction, activities, and group and individual projects. **Prerequisite: Successful completion of Business Principles with a C or better. This course is one of the five courses in the Business Pathway Program and is eligible for 3 college credits.**

Accounting, Honors

878E

CCP
Half Year
1 Credit
Double
Period
Gr. 11-12

Accounting, Honors is a rigorous, comprehensive study of accounting principles. Students who are interested in a career in accounting, financial management, or who intend to major in business in college should consider this course. The course content is equivalent to a first semester college accounting course. **Prerequisite: C or better in Business Principles. This course is one of the five courses in the Business Pathway Program, and is eligible for 3 college credits.**

Business Law

878G

CCP
Half Year
1 Credit
Double
Period
Gr. 11-12

Business Law will increase your understanding of business' responsibility to know, abide by, and enforce laws and regulations that affect business operations and transactions. Students will work with case studies to learn how business and personal law affect organizations and individuals. Topics discussed include: constitutional law for business and on-line commerce, torts and privacy, business and cyber crimes, ethics and social responsibility, and contracts and warranties. **Prerequisite: Successful completion of Business Principles with a grade of C or better. This course is one of the five courses in the Business Pathways program and is eligible for 3 college credits.**

Business Management (semester 2) 878S

CCP
Half Year
1 Credit
Double
Period
Gr. 11-12

In Business Management, you will be introduced to the principles and techniques underlying the successful management of business organizations. Topics you will learn include: supply and demand, market structure, entrepreneurship, leadership, motivational techniques, ethics and social responsibility, management styles, and the functions of management. You will analyze basic management activities and apply knowledge to complete a business plan for a company of your own creation. **Prerequisite: Successful completion of Business Principles with a grade of C or better. This course is one of the five courses in the Business Pathway Program and is eligible for 3 college credits.**

Carpentry

Carpentry is a program designed to prepare you for a career in residential and commercial construction. Students interested in residential and commercial construction, construction management, architecture, and engineering will benefit from this program. The program is a blend of classroom theory and on-site, hands-on construction projects where you will learn basic building systems and techniques.

Carpentry 1 865

CCP
Full Year
2 Credits
Double
Period
Gr. 11

In this course, you will learn basic residential carpentry techniques beginning with a comprehensive unit on workplace and tool safety and progressing through residential framing techniques. Units of study will include: tool selection and usage, plan reading, layout, footings and foundations, and floor and wall systems. You should be comfortable on ladders and with working outside in a variety of conditions. Students will complete projects such as sheds, decks, and additions as part of this program. Students are required to have proper work boots and clothing.

Carpentry 2 867

CCP
Full Year
2 Credits
Double
Period
Gr. 12

In Carpentry 2, you will expand on your skills from the first year and learn more advanced skills in areas such as roof and stair framing, siding systems, insulating, window installation, roofing, and finish work. Students will complete more advanced projects in this course. You are required to have proper work boots and clothing. **Prerequisite: Grade of C+ or better in Carpentry 1 or permission of instructor.**

Computer Science Pathway

The Computer Science Pathway is designed for students who are interested in careers in the information technology sector such as programming, software development and software engineering. Don't be intimidated by the "AP" status of this course. Any student who has a strong interest in learning more about the subject or pursuing Information Technology as a career can succeed in this program. Students in the first year take AP Computer Science Principles.

AP Computer Science Principles 873A

AP
Full Year
2 Credit
Double
Period
Gr. 11-12

AP Computer Science Principles is an introductory college-level computer science class that meets every day for a full year. Students learn about the Internet, Digital Information, Application Development and Computer Programming in Python. We cover the standard AP Computer Science Principles curriculum including the development of the Create Performance Task (a student-designed and developed application that is evaluated by the college board as part of the AP Exam). Students in this class are expected to take the AP Computer Science Principles Exam in the spring. **Prerequisite: Successful completion Algebra 1**

AP Computer Science A 873B

AP
Full Year
2 Credit
Double
Period
Gr. 11-12

AP Computer Science A is an introductory college-level Java programming class that meets every day for a full year. Students learn about the Java programming language including: Primitive Types, using Objects, Boolean Expressions and If Statements, Iteration, Writing Classes, Arrays, ArrayLists, 2D Arrays, Inheritance, and Recursion. Students in this class are expected to take the AP Computer Science A Exam in the spring, and will undergo rigorous preparation for the exam. **Prerequisite: AP Computer Science Principles.**

Cosmetology Pathway

Cosmetology is a high demand profession with a strong employment outlook. The State of New Hampshire requires 1500 hours of education and clinical experience for licensing. Through partnerships with post secondary cosmetology schools, students can earn up to 200 clinical hours over the 2 year CTE program. Students should have strong communication skills as this is a very social environment. Because clinical hours are accrued, all absences must be made up to account for lost hours. Students are responsible for obtaining an apprentice license (\$25.00) and a cosmetologists kit and mannequin (\$150.00). Financial and fundraising assistance is available.

Cosmetology 1

848

CCP

Full Year

2 Credits

Double
Period

Gr. 11

In Cosmetology 1 students will be introduced to the cosmetology industry and associated careers. Students will work in a combined classroom and hands-on environment learning safety and sanitation, hair cutting and styling techniques, nail technology and esthetics. A newly constructed cosmetology salon serves as the classroom for working with hair mannequins. All students are required to obtain a cosmetology apprentice license from the State of New Hampshire (\$25.00) and purchase a cosmetology kit and mannequin head (approximately \$150.00).

Cosmetology 2

849

CCP

Full Year

2 Credits

Double
Period

Gr. 12

In Cosmetology 2, students continue to improve and practice their skills from level 1 while learning more advanced hair cutting and styling techniques, coloring techniques and advanced esthetics such as facials and pedicures. Students will learn about the business of salon operations and ownership. Cosmetology 2 students will have the opportunity to work with customers in the salon. An additional cost for advanced tools may be required (\$75). **Prerequisite: Successful completion of Cosmetology 1 with a grade of B- or better or permission of the instructor.**

Culinary Arts and Hospitality

Do you love to cook? Do you enjoy serving people in your community and making them happy? Are you interested in a career that allows you to travel? Hospitality and tourism is one of the largest industries in New Hampshire and demand for quality trained cooks, chefs, managers and servers is high. You will gain excellent industry experience in this highly hands-on program, learning your way around a commercial kitchen and restaurant, and practicing fundamental cooking methods and hospitality principles. You will work with a team of peers to operate successfully the on-site restaurant as well as catering a variety of functions. Start your culinary education with us and prepare for an exciting career in the food service industry or take the next step following high school and advance your skills in an accredited and respected culinary or hospitality management program.

Culinary Arts 1

881

CCP

Full Year

2 Credits
Double

Period

Gr. 11-12

In Culinary Arts 1, you will learn about kitchen safety and sanitation, culinary terminology, product identification, baking skills, knife skills and other culinary skills essential to the industry. You will work as a team preparing food for the Three Seasons restaurant and other catering and culinary functions. If you enjoy cooking and working with a fun team in a fast-paced environment, then Culinary Arts is for you. Opportunity in the culinary and hospitality business is endless and is a profession that you can practice anywhere in the world.

Culinary Arts 2

883

CCP

Full Year

2 Credits
Double

Period

Gr. 11-12

In this course, you will build on your skills from year one and take on a leadership role in menu design, working brigade positions such as Sous Chef, dining room manager, expediting, and lead baker. Students assume all upper management positions within the kitchen, dining room, and bakery. You will further refine your skills and knowledge by completing a culinary arts electronic portfolio. This portfolio serves to document your cooking, pastry baking, and employability skills, as well as your knowledge of safety and sanitation. Students may also participate in after school functions and banquets. College credit is available through the Lakes Region Community College. **Prerequisite: Grade of C or better in Culinary Arts 1 or teacher recommendation.**

Engineering Pathway

The Engineering pathway is designed for students interested in careers in engineering, engineering technician, advanced manufacturing, architecture, construction, CNC operation, CADD, and product design. The program is a blend of classroom and hands-on experiences designed to teach students the engineering process and fields associated with engineering. Students earn college credit from NHTI for each course completed.

Engineering 1

856E

CCP
Half Year
1 Credit (RS)
Everyday
Gr. 9-12

The first course in the engineering sequence will introduce you to basic engineering design principles and teach you how to digitally model and physically create objects of your own. Students learn to use advanced computer design software, 3D printers, and basic machinery and techniques in the fabrication lab. You will develop marketable, transferable skills useful in multiple career pathways. This course follows the Project Lead the Way, Introduction to Engineering Design curriculum. Prerequisite: C or better in Algebra I or Math 8 Algebra..

Engineering 2

856E2

CCP
Half Year
1 Credit (RS)
Everyday
Gr. 9-12

The second course in the engineering sequence goes beyond the design step to teach you the skills needed to construct and test an object of your own. Emphasis is on build strategies and techniques for testing and analysis. Students work on multiple hands-on projects and problems that integrate intermediate fabrication and solid modeling tools. A focus will be on developing interpersonal and team-based skills essential for career and college success. This course follows the Project Lead the Way, Principles of Engineering curriculum. **Prerequisite: C or better in Engineering 1.**

Engineering 3

856E3

CCP
Full Year
2 Credits (RS)
Everyday
Gr. 10-12

The third course in the engineering sequence, this full-year program incorporates advanced engineering and fabrication techniques as well as computer numeric control (CNC) operation into previously learned engineering skills and processes. Students will work on team-based capstone designs and develop working prototypes in the fabrication lab. This course follows the Project Lead the Way, Computer Integrated Manufacturing curriculum. **Prerequisite: C or better in Engineering 2.**

Graphic & Digital Design Pathway

The Graphic & Digital Design program introduces students to the elements of art and principles of graphic and digital design through hands-on project-based learning. Using industry standard software programs, students learn the design process necessary to complete compositions from concept to completion. This program explores typography, color theory, printing methodologies, critique standards, technical tools, and creativity necessary to be competitive in the graphic design field. The classroom environment provides students with many opportunities for authentic learning and career path exploration.

Graphic & Digital Design 1

897B

CCP
Full Year
2 Credit Double Period
Gr. 11-12

This course provides a project based curriculum designed to include a range of learning activities associated with the graphic and digital design industry. Students work in a professional Mac lab environment with access to the Adobe Creative Suite. Additionally, students will have the ability to have hands-on experience with a digital press, large format printer, multi purpose printer including apparel and adhesives and other equipment relevant to project construction. All projects are industry standard and relevant to career success. Skills developed include learning correct technical composition, graphic design principles, vector/photo manipulations, color theory, digital illustration, critical thinking, problem solving, typography and printing standards. Software skills focus on Adobe Photoshop, Illustrator, InDesign and XD. Students will work on a variety of projects ranging from print design to digital design. Students will have opportunities to work with clients and develop communication and professional design expectations for client work. Students will develop a portfolio that will range in project type and

Graphic & Digital Design 2

898A

CCP
Full Year
2 Credit Double Period
Gr. 11-12

This is the second year of the Graphic Design program. This class will continue to focus on improving and enhancing the technical and execution skills of students. Students will learn about various design styles in history. Advanced software skills and projects will be emphasized as students continue to develop their portfolio, solidify their career plans, and hone their collaborative and project management skills. Students will focus on higher level problem solving involving critical thinking necessary for digital design professions and learn about wireframing for mobility. Students will have direct client experience working with SHS community members, or students as clients in cross program efforts to design products for immediate need. Students will expand their proficiency in the Adobe Creative Suite (Illustrator, Photoshop, InDesign and XD). Students will regularly partake in design critiques. Opportunities for internships are encouraged. Prerequisite: C or better in Graphic

Health Science Technology

The healthcare industry is one of the top three industries in New Hampshire and abroad. The employment opportunity is vast in this diverse field of study. This outstanding program will prepare you for a variety of healthcare jobs. Our program completers are highly successful and typically go on to be nurses, EMT's, physicians, occupational and physical therapists, pharmacists and physician's assistants to name a few.

Health Science Technology 1

889

CCP

Full Year

2 Credits
Double
Period

Gr. 10-11

Health Science Technology is a two-year program for juniors and seniors who are interested in pursuing a career in the healthcare field. During the first year, we will concentrate on establishing a strong foundation in anatomy and physiology, safety issues, infection control and career exploration. Students are eligible to

receive 3 college credits in medical terminology from Manchester Community College. Classroom activities include: lecture, poster presentations, internet projects, competitive games, anatomy labs and audio-visual learning related to diagnosis, treatment and prevention of disease. Skills component includes: vision and hearing testing, vital signs, (temperature, pulse, respiration and blood pressure), gown, glove and hand-washing techniques as well as training in taking EKGs. Students interested in pursuing any career in healthcare would benefit greatly from this course. Prerequisite: Current grade of B- or better in Biology or Biomedical Science 1 at time of application.

Health Science Technology 2

891

CCP

Full Year

2 Credits
Double
Period

Gr. 11-12

Health Science Technology 2 continues with the completion of studies in anatomy and physiology, pathophysiology, infectious disease, and safety training. American Heart Association CPR certification is provided to all level two students. During the second semester, students choose to participate in one of three clinical rotations: Emergency Medical Technician (EMT), Licensed Nursing Assistant (NA), or Allied Health Community Internship (MA). The EMT and NA program require both classroom and clinical rotations at the Salem Fire Department or the Northeast Rehabilitation Hospital. These rotations will require some weekend and evening clinical hours. Upon successful completion of the EMT or NA program, and the corresponding state licensing exam, licensing will occur. Students in the Nursing Assistant program (NA) are responsible for coordinating and assisting with an annual blood drive. Students enrolled in the Allied Health Community Internship program (MA) require both classroom hours and a four month clinical rotation in the community with a preceptor of their choice. A clinical interview with the clinical preceptor is required for all students. At the end of the semester, students will have approximately 60 clinical hours of experience. Available community sites include agencies specializing in radiology, pharmacology, internal medicine, dental health, physical or occupational therapy and veterinary medicine. Health Science Technology promotes responsibility, leadership, maturity, communication skills and professional behavior. **Prerequisite: Grade of B- or better in HST 1 and teacher recommendation. Successful completion of HST 1 and HST 2 satisfies the graduation requirement for health. Requirements: EMT course: EMT book and uniform approximate cost \$150.00. NA course: book and uniform approximate cost \$100.00; financial aid is available. Additional cost of approximately \$100.00 for students who pursue state licensing and NA students are required to have a COVID-19 and influenza vaccine and pass a drug test prior to clinical. Name tag and immunization records with updated PPD within the year are also required.**

Teaching Pathway

This program will introduce you to education history, theory and methods of teaching as well as providing you with a basic understanding and introduction to the teaching and education profession. The competencies and curriculum focus on education topics similar to those taught in a college curriculum. The nature of this program requires mature, responsible, self-directed learners interested in pursuing a career in the education field. You should have an excellent attendance record. Emphasis is placed on work-ready skills and academic skills and content. You are required to complete observation hours in a variety of classroom settings. Professional attire is required when you are at practicum and observation sites. Students considering careers in all levels of the education field benefit from this program and are well prepared for college. This program is eligible for up to 10 college credits from SNHU.

Teacher Education 1

Gr. 10-12

In this course you will be introduced to education history, theory and methods of teaching. This course provides you with a basic understanding and introduction to the teaching and education profession. The competencies and curriculum focus on education topics similar to those taught in a college curriculum. The nature of this course requires mature, responsible, self-directed learners interested in pursuing a career in the education field. You should have an excellent attendance record. Emphasis is placed on work-ready skills and academic skills and content. You are required to complete observation hours in a variety of classroom settings. Professional attire is required when you are at practicum and observation sites. Students considering careers in all levels of the education field benefit from this program and are well prepared for college. This course is eligible for 4 college credits through SNHU.
Recommendation: Grade of C or better in current English and Math course.

Teacher Education 2

857B

CCP
Full Year
2 Credits
Double
Period
Gr. 11-12

Teacher Education 2 focuses on child growth and development. Theories relevant to individual stages of development are discussed and the sociological, cultural and psychological aspects of human growth and development are studied. An overview of all developmental stages will be covered and students will explain and discuss age and developmentally appropriate experiences for children, particularly in an educational context. Additionally, this course will introduce students to the principles and practices of assessment for teaching and learning. Topics include the types, benefits, and uses of formal and informal assessment as well as the ethical issues of assessment and grading. Students will create assessments aligned with standards based content and understand what educators need to know about the goals, benefits, and uses of formal and informal assessment. Through classroom observations, students will identify developmentally appropriate use of classroom resources, procedures, and assessments. This course is eligible for 6 college credits through SNHU.
Prerequisite: Students enrolling in Teacher Education 2 are expected to have mastered or be proficient in the basic teaching skills learned in Teacher Education 1 and teacher recommendation.

Television and Media Production

TV and Media Production is a program designed for students who are interested in careers in the visual arts, broadcasting and production. This highly hands-on, project-oriented program teaches you a multitude of skills and techniques which rivals many college programs. If you have an interest or passion for film, broadcasting, TV and production, this is where you belong. Many of our graduates have gone on to lucrative jobs and careers in this profession.

Television and Media Production 1

864

CCP
Full Year
2 Credits
Double
Period
Gr. 11

Television and Media Production 1 is designed to help you gain an understanding of the writing and technical skills required for quality video production. Emphasis will be on building a foundation through lecture, readings, writing, and video production. Completing this course will be preparing you for the rigorous production work in level 2. You will utilize state-of-the-art television, computer and multimedia equipment to produce quality media productions. Through interesting and thought-provoking project-based assignments, you will learn the basics of creating clear and concise multimedia presentations. You must be able to work well in a team environment as this class relies heavily on group work. Assignments will range from short films, PSA's, music videos and news production, and finished projects will air on our local educational channel, SLC-6 and our YouTube channel. Active class participation is mandatory, and you should be prepared to perform daily in front of and behind the camera. Students are expected to assist on some productions of after school sports and school-related events as part of the curriculum.

Television and Media Production 2

858

CCP
Full Year
2 Credits
Double
Period
Gr. 12

Television and Media Production 2 is an advanced course that builds upon the skills gained in level 1, and exposes you to advanced concepts in television and media production. You will assume the roles of writer, producer, director, actor, camera person, technical and audio director, and editor while applying organizational production skills to produce a weekly newscast among many other projects throughout the year. Projects are designed to solidify your skills. You will direct live studio productions as well as direct and produce ENG and EFP productions. You will demonstrate effective pre-production, production, and post-production skills using best practices all while reinforcing the fundamentals of digital video and broadcast journalism. You are expected to participate in extracurricular production work and assist Salem's SLC-6 channel with the videotaping of sports and school events as part of the curriculum. Students completing this course gain the skills and knowledge needed to advance into a college level program or seek gainful employment in a rapidly growing field.
Prerequisite: Grade of C+ or better in Television and Media Production 1, or permission of the instructor.

**The following CTE programs are available through the regional center at
Pinkerton Academy:**

Animal Science

Animal Science & Management 859AA

CCP
Full Year
2 Credit
Gr. 11

This full-year (2 credit) course meets every day and dives into the world of companion and large animals. In the first semester, focus on understanding the care and behavior of companion animals like dogs, cats, and small mammals, covering topics such as nutrition, health care, and the human-animal bond. Transitioning to the second semester, delve into the management of large agricultural animals such as cattle, horses, and sheep, learning about husbandry practices, nutrition, and reproductive management. Through hands-on experiences, lab activities, and discussions on ethics and animal welfare, students develop essential skills and knowledge to responsibly engage with and advocate for the well-being of animals in various contexts

Animal Health & Veterinary Technology 859B

Eligible for concurrent credit

CCP
Full Year
2 Credits
Double
Period
Gr. 12

This full-year (2 credit) course meets every day. It is designed for students who are interested in a future career with animals in the health and veterinary technology field. Units of instruction will include but are not limited to: Introduction to veterinary technology, veterinary terminology, animal diseases, animal behavior & training, animal anatomy & physiology. Students will be certified in Pet CPR & First Aid through an accredited program. Students will also learn how to properly perform basic grooming on canines and run a student CTE enterprise: Pinkerton Pet Palace. Early College Program credits available.

Prerequisite: Successful completion of Introduction to Animal science & Animal Management with a min. grade of 80 and permission from the CTE Director.

Architecture & Design

Architecture & Design 1 TBD

CCP
Full Year
2 Credit
Gr. 11

This full-year (2-credit) course provides an excellent opportunity to learn about Architecture, Engineering and the field of design. Gain knowledge about all aspects of Architecture from the Ancient world to all the elements needed to design a building. Get creative designing various projects while learning how to use Revit, the software that many colleges and offices use. Develop your creative and presentation skills by learning how to present your projects using Photoshop. Increase your sketching skills while building your portfolio. Expand your teamwork and communication skills. College articulations may be available. Eligibility requirements: per the post-secondary partners students must be in 10th, 11th and 12th grade to enroll for college credit.

Architecture & Design 2 TBD

CCP
Full Year
2 Credit
Gr. 12

This full-year (2-credit) course allows students to continue to gain experience designing various projects. Projects will consist of various designs as well as the New Hampshire AIA High School design competition. Develop an impressive portfolio of your work over the course of the two year program. Expand your knowledge of Architecture and sustainability. Increase your experience working as a team and building strong communication skills. College articulations may be available. Eligibility requirements: per the post-secondary partners students must be in 10th, 11th and 12th grade to enroll for college credit.

Prerequisite(s): Successful completion of Architecture & Design 1 and permission from the CTE Director.

Electrical Technology

Electrical Technology I

872

CCP
Full Year
2 Credits
Double
Period
Gr. 11

This full-year (2 credit) course meets every day. It is the first half of a 2-year program designed to have the student gain the knowledge and skills necessary to successfully enter the field as an apprentice electrician. The student will acquire skills in all phases of residential wiring including basic electrical theory, safety, test equipment, blueprint reading and local code requirements. Students will complete calculations for normal residential circuits and special purpose wiring systems. This hands-on experience is accomplished in a simulated residential setting. Job searching skills as well as quality workmanship and professionalism will be an integral part of the classroom environment. Students will have the opportunity to obtain their OSHA 10 certification with successful completion of the course.
LAB FEE: Students will be required to obtain the NH Apprentice Electrical license-approximate cost is \$60.
Prerequisite(s): CTE Application and completion of Algebra 1A or B with a 75 or higher, or an 80 for Algebra 1C

Electrical Technology II

872A

CCP
Full Year
2 Credits
Double
Period
Gr. 12

This full-year (2 credit) course meets every day. It is the second half of a 2-year program and intensifies, follows through, and elaborates on material covered in Electrical Technology 1. The course covers industrial, commercial installations and basic generator install and maintenance. Students will also participate in the actual wiring, planning, cost estimation, NEC code requirements, and material acquisition needed to complete various projects. Students will learn how to use power tools, test equipment, specialty tools and control circuits used in the electrical field. Successful completion of the Electrical Technology 1 and 2 programs will credit the student with a portion of classroom and work hours required to obtain a Journeyman Electrical License.

Prerequisite(s): Completion of Electrical Technology I with a 80 or higher and permission from the CTE Director.

Welding Technology

Welding Technology I

874

CCP
Full Year
2 Credits
Double
Period
Gr. 11

This full-year (2 credit) course meets every day. It is the first half of a 2-year program and is designed for anyone who wishes to learn welding and metal fabrication. Students are instructed in the safe operation of all tools, material handling and techniques used in welding. Areas of instruction include flame cutting, brazing, arc welding, and metal-fabrication. Personal protective equipment required to be worn.

Prerequisite: CTE Application

Welding Technology II

874A

CCP
Full Year
2 Credits
Double
Period
Gr. 12

This full-year (2 credit) course meets every day. It is the second half of a 2-year program and intensifies, follows through, and elaborates on material covered in Welding Technology 1. Emphasis will be on entry-level job proficiency with gas welding, soldering, cutting skills with ferrous and non-ferrous materials, shielded electrode arc welding equipment, metal fabrication and power tools, metal inert gas (MIG) welding, and tungsten inert gas (TIG) welding. Modern welding techniques developed for aluminum and steel alloys will be skill options available to students. Focus will be on production, fabrication and repair skills rather than home-type objectives. Personal protective equipment required to be worn.

Prerequisite: Successful completion of Welding Tech. 1 with a min. grade of 75 and permission from the CTE Director.

Environmental Science Level I

Exploring Plant & Animal Science 883A

CCP
Half Year
0.5 Credits
Gr. 11-12

This half-year (0.5 credit) course is designed to dive into agricultural & animal science topics and its global impact, and learn about scientific and research concepts that drive the field, as well as the effects of agriculture on the environment. The course will also teach you about the career opportunities available in the field and how to promote yourself best so you can land your dream job. Specialized lab activities will give you the hands-on practice you need to master the content. Every student has the opportunity to enhance their skills by participating in FFA.

Note: Students take concurrently with Environmental Science for the first semester.
Prerequisite(s): CTE Application

Sustainable Living 883D

CCP
Half Year
0.5 Credits
Gr. 11-12

This half-year (0.5 credit) course is designed to educate students on the principles and practices of sustainability, with a focus on personal and community-based actions to reduce environmental impact and promote a more sustainable lifestyle. Through interdisciplinary lessons, hands-on activities, and real-world applications, students will explore topics such as renewable energy, waste reduction, conservation, organic gardening, and ethical consumption. By the end of the course, students will be empowered to make informed decisions that contribute to a more sustainable and environmentally conscious society. Every student has the opportunity to enhance their skills by participating in FFA and SEA.

Note: Students take concurrently with Horticulture

Environmental Science 883B

CCP
Half Year
0.5 Credits

This half-year (0.5 credit) course is designed for students interested in environmental topics such as wild and marine life, water resources, forests and plant life, and propagation principles. Hands-on activities include using the classroom greenhouse and Pinkerton Academy Campus to explore and gain knowledge in a variety of habitats and ecosystems. This course is connected to CTSO FFA and Student Activity SEA.

Gr. 11-12
Note: Students take concurrently with Exploring Plant & Animal Science for the first semester.
Prerequisite(s): CTE Application

Horticulture and Landscaping 883C

CCP
Half Year
0.5 Credits
Gr. 11-12

This half-year (0.5 credit) course offers a comprehensive exploration of the vital role and rich diversity of horticulture. Students delve into botany, plant growth, plant materials, floriculture, landscape design, and maintenance while gaining insight into various horticulture occupations. Through hands-on activities and projects, they develop practical skills in plant propagation, landscaping, and floral design. This program not only prepares students for further education at two or four-year colleges but also provides them with the foundational knowledge and skills needed to embark directly on a rewarding career path in horticulture. Every student has the opportunity to enhance their skills by participating in FFA.

Note: Students take concurrently with Sustainable Living for the second semester.

Environmental Science Level II

Environmental Science: Advanced Studies 884B

CCP
Full Year
1 Credit
Gr. 11-12

This semester (1 credit) course meets every day. It is for students who wish to further their knowledge and skills in environmental science. Activities include analyzing and applying the skills acquired in classes like Biology, Environmental, Animal science and other ecological sciences. This course will teach students to apply knowledge to global ecosystems, native & invasive wildlife and plants, drinking water and pollution. Students will deploy game cameras on campus to study and understand the diversity of Pinkerton. Students will obtain Industry certifications in outdoor safety. College articulations are available. Related student organizations: FFA and SEA.

Note: Students take this first semester.

Prerequisite(s): Successful completion of Environmental Science 1 and permission from the CTE Director.

Environmental Science: Work Based Learning / SAE 884C

CCP
Full Year
1 Credit
Gr. 11-12

This full-year (1 credit) course meets every day. It is for students who wish to further their knowledge and skills in environmental science. Activities include analyzing and applying the skills acquired in classes like Biology, Environmental, Animal science and other ecological sciences. This course will teach students to apply knowledge to global ecosystems, native & invasive wildlife and plants, drinking water and pollution. Students will deploy game cameras on campus to study and understand the diversity of Pinkerton. They will participate in a citizenship science project that focuses on responsible stewardship of the environment. There are many hands-on activities and chances to develop industry relations with maple syrup production, NH Fish and Game, NH Audubon, Manchester Water Works and Forsaith Forest in Chester. Students will obtain Industry certifications in outdoor safety. College articulations are available. Related student organizations: FFA and SEA.

Note: Students take this second semester.

Prerequisite(s): Completion of Environmental Science: Advanced Studies CT0672 with a grade of a minimum of 80%

Evening Division

The Evening Division program offers students a way to learn outside of the traditional school day. Most Evening Division students are taking classes during the daytime as well. Many students use Evening Division courses to supplement their educational program, while others are ‘catching up’ with their credit status. Students in these classes, which utilize the same curricula and many of the same teachers as the day school program, earn CCP credit towards a Timberlane Regional High School diploma. Students wishing to complete their education solely in the evening must complete the exact same requirements as students in the day program. Those interested should contact their school counselor for a schedule of the classes, requirements for entry, and restrictions on the number of absences. Most classes meet one evening a week, from 4:00—7:00 pm. Specific class offerings are finalized in August and December of each school year. For more information, please contact the School Counseling office at the high school.

Courses typically offered through Evening Division (subject to change):

Course Descriptions:

ART

Foundations of Art	001
CCP	Fundamental two-dimensional and three-dimensional art and design will be investigated.
Spring	Elements of art, drawing and painting skills, expressive ideas and imaginative thinking will be reinforced. Introduction to artists and techniques both contemporary and historic are included to enhance understanding. Foundations of Art is a prerequisite to all other Art Department courses.
.5 Credit	
Gr. 9-12	

BUSINESS

Microsoft Office Essentials	108
CCP	This hands-on course is designed to develop proficiency in Microsoft Office and enhance decision making, productivity communication and problem solving skills. Instructional strategies include computer/technology applications, interdisciplinary and/or culminating projects, problem solving and critical thinking activities. Integral to the course will be student creation and design of original documents. This course meets computer requirements for graduation.
Spring	
.5 Credit	
Gr. 9-12	

ENGLISH

World Literature	221
CCP	In this course, students will explore world literature that is chosen for its relevance as an expression of human thought and its relationship to students’ own experiences. Students will learn to analyze texts and research, understand the societies from which they emerged, and recognize the roles those societies played in shaping today’s world. Literature will represent a variety of genres and cultures. Students will continue to develop skills through vocabulary development, informational writing, argumentative writing, research, and oral presentations.
Fall	
1 Credit	
Gr. 10-12	

American Literature	218
CCP	This course focuses on the major movements of American Literature including: Puritanism, Romanticism, Realism, Modernism, and Post-Modernism. A variety of texts will be read including: poetry, drama, fiction, and non-fiction that also correspond to the major movements in US history. Students will continue to develop skills through vocabulary study, literary analysis, and composition. A major research paper is an expectation of all students in this course.
Spring	
1 Credit	
Gr. 11-12	

Expository Writing**217**

CCP
Fall
.5 Credit
Gr. 11-12

Expository Writing is a course in nonfiction writing designed to foster critical and complex thinking. Students will compose a variety of analytical essays in the following genres: personal, definition, compare and contrast, persuasive, and research. Throughout the course, emphasis will be placed on prewriting, revision and frequent peer and teacher conferences. In addition, the class will read the work of the professional authors as a means of exploring writing strategies and of understanding the links between reading and writing. Regular and varied reading of informational texts and nonfiction is also required. Vocabulary development will be a regular feature of this course.

**The Short Story and Its Writer****255**

CCP
Spring
.5 Credit
Gr. 11-12

Students in this course will trace the development of the art of short story writing from the nineteenth century and twentieth century. Students will study a number of authors and literary movements. Writing skills such as character development, construction of plot, point of view, setting, and figurative language, will be developed through analysis and practice. Students will complete analytical, argumentative and research based essay writing. In addition to the texts that are read and the writing that is completed, class discussions, grammar study, and vocabulary study will be integral components of the course.

HEALTH AND PHYSICAL EDUCATION**Intro to Physical Education****405**

CCP
Fall/Spring
.5 Credit
Gr. 10-12

This course will cover the 5 Components of Physical Fitness (Cardio-vascular endurance, muscular strength, muscular endurance, flexibility, and body composition). Students will engage in a variety of activities such as, but not limited to; strength training, yoga, interval training, plyometric workouts, and dance. Students will take responsibility for their own personal fitness levels. Individual fitness plans will be developed and monitored throughout the course.

Health I**402**

CCP
Fall
.5 Credit
Gr. 9-12

The Health I course is designed to provide students with current information regarding the dimensions of health while giving them an opportunity to apply necessary skills for the future to be a healthy person. The topics students will be learning include, but are not limited to: Personal Health and Skills, Mental and Emotional Health, First Aid, CPR and AED, Alcohol, Tobacco, and Other Drugs, Nutrition, and Human Sexuality. The goal of this course is to explore major health topics and help students develop the necessary skills to achieve and maintain high-levels of health.

Health II**412**

CCP
Spring
.5 Credit
Gr. 10-12

Health II will take a deeper look at many of the course topics that were introduced in Health I. These topics may include but are not limited to: Eating Disorders, Addiction and Recovery, Healthy Relationships, and refresh skills in CPR and using an AED. Hands on activities, discussions, technology, and project based learning will be a large component of this class. Students will also be required to complete a service learning component. **Prerequisite: Successful completion of Health I.**

MATH

Algebra I

609

CCP
Fall
1 Credit
Gr. 10-12

Students in Algebra I—CCP will develop problem-solving skills through the use of algebra, functions, relations, and analysis. Students will become fluent in algebraic simplification, solving equations, inequalities, and systems, and analyzing and transforming both linear and non-linear functions. Models, tables, equations, and graphs will form a basis for interpreting and analyzing data. Students will be expected to effectively communicate their processes both orally and in writing and to critique the reasoning of others. This course solidifies the foundation for all future math courses.

Applied Geometry

616

CCP
Fall/Spring
1 Credit
Gr. 10-12

This course is designed to support students who have had difficulty with the Algebra I concepts. Applied Geometry will engage and challenge students with all the topics presented in a traditional geometry program. These topics include angle and segment measurement, triangles, quadrilaterals, congruency, parallelism, similarity, circles, and an introduction to trigonometry. The program is designed to appeal to all learners with topics introduced by using hands-on activities that reflect real-life applications. Technological tools and Internet-based resources will be an integral part of classroom activities. **Prerequisite: Successful completion of Algebra I.**

Algebra II—Part 1

623

CCP
Fall/Spring
1 Credit
Gr. 11-12

This course provides the student with the basic algebra manipulation skills needed to compute solutions. The algebra topics offered are signed numbers, polynomial operations, solutions of linear equations and inequalities involving numerical and literal terms, factoring polynomials, word problems, formula manipulation, graphing linear equations, systems of linear equations and equations by factoring or the quadratic formula as well as quadratic equations and exponential functions. **Prerequisites: Successful completion of Algebra I and Geometry.**

SCIENCE

Physical Science

707

CCP
Fall
1 Credit
Gr. 10-12

The purpose of this course is to provide a comprehensive introduction to the foundational concepts of physics and chemistry. This course is designed to serve as a prerequisite for other science courses.

Applied Biology

713

CCP
Spring
1 Credit
Gr. 10-12

This course involves the practical application of biological concepts to everyday life. Students will learn to be global citizens by studying topics such as environmental issues, animal husbandry, horticulture, and new advances in genetic engineering.

Environmental Science

721

CCP
Fall
.5 Credit
Gr. 11-12

This course is to provide students with the scientific principles, concepts, and methodologies required to understand the interrelationships of the natural world, to identify and analyze environmental problems both natural and human-made, to evaluate the relative risks associated with these problems, and to examine alternative solutions for resolving and/or preventing them. Students will take part in outdoor laboratory experiences and gain hands-on experience in environmentally related topics. **Prerequisite: Successful completion of Physical Science and Biology or Departmental approval.**

Introduction to Meteorology

723

CCP
Half Year
.5 Credit
Gr. 11-12

This course provides a survey of weather study including topics such as history of weather observations, atmospheric structure and composition, earth-sun relationships, air pressure and winds, cloud formation, air masses and resulting precipitation. Weather phenomena, such as hurricanes and tornadoes are investigated and the study of climates is introduced. **Prerequisite: Successful completion of two years of science.**

SOCIAL STUDIES

World History

811

CCP
Fall
1 Credit
Gr. 10-12

World History builds upon the learning from the middle school curriculum and begins with a study of the Renaissance, moving into the Enlightenment, Age of Exploration and eventually into the 21st Century. This course includes units relating to events in Europe, Asia, Africa and the Americas. Students will be asked to use their classroom learning to interpret historical events. Analysis of primary sources, Internet and library-based research, field trips, reading from the text and other sources, film analysis and classroom discussions are all possible learning techniques.

United States History**809**

CCP
Spring
1 Credit
Gr. 11-12

United States History builds upon the learning from the middle school curriculum and begins with a study of the end of the Civil War. This course takes an in-depth look at the events of the last part of the 19th Century, all of the 20th Century, and uses that learning to analyze the events of the first decade of the 21st Century. Students will be asked to join in classroom discussion, read outside of class, think creatively and write about their learning. A particular emphasis will be placed on the process of researching and writing a long-form paper.

**Current Issues****843**

CCP
Spring
.5 Credit
Gr. 11-12

This course will provide the students with a perspective of events and trends in the world as well as a contemporary view of history in the making. The development of communication, critical-thinking, decision-making, research and geography skills will center around strong student interaction. General topics include political, economic, and social trends, the environment, crime and international relations, and current world events.

**American Values in Film and Music****841**

CCP
Spring
.5 Credit
Gr. 11-12

This course used film and music to examine traditional and contemporary American values and ethical issues. Students will be able to explain how American values are represented in mass media and how they are perceived by outside sources. Personal traits of courage, love, family and integrity, in addition to social issues of racism, morality, freedom of religion, altruism and social justice will be explored. Because movies and television are filled with historical inaccuracies, the purpose of the course will not be to teach history but to use film and popular music as a vehicle for the students to examine and analyze society and themselves. Students may contract for accelerated credit.

Cultural Geography**823**

CCP
Fall
.5 Credit
Gr. 11-12

This course deals with the interconnectivity of culture, politics, economics, religion, and human perception and regionalization. Students will recognize that places and regions serve as symbols for individuals and societies. Students will distinguish how cultural traits shape the characteristics of a region, analyze the increasing interdependence of the world's countries, and demonstrate how cooperation and conflict are involved in shaping the distribution of social, political, and economic spaces on Earth. Students will also explain the results of globalization and how changes in the physical environment can diminish its capacity to support human activity.
