

### AAC Guidance Scope and Sequence

*The goals and objectives of this curriculum are designed to equip students with the knowledge, skills, and attitudes necessary for academic success, personal growth, and responsible citizenship from middle school through high school. Emphasizing a holistic approach, the curriculum integrates social-emotional learning with rigorous academic standards to foster self-awareness, effective communication, critical thinking, and resilience. Students will develop essential competencies such as goal setting, time management, digital responsibility, and leadership, while gaining practical knowledge about health, career exploration, and financial literacy. Through reflective practices and real-world applications, learners will be prepared to navigate the complexities of adolescence, make informed decisions, and plan proactively for their educational and career futures.*

| Q1                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | Q2                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Q3                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Q4                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

## 5th Grade

- Demonstrate understanding of core values and apply them to personal and social contexts.
- Develop note-taking skills by extracting key information from videos and stories.
- Exhibit empathy and self-awareness through activities promoting self-love.
- Recognize and appreciate individual differences through inclusive activities that embrace diversity.
- Explore the emotional and practical applications of artificial intelligence in communication.
- Analyze verbal and non-verbal communication cues and their effects on interpersonal interactions.
- Participate in group reading and shared storytelling to enhance oral fluency and comprehension.

- Practice gratitude through journaling and collaborative classroom activities.
- Demonstrate active listening skills focused on understanding rather than reacting.
- Identify bullying behaviors and develop strategies to prevent and address them.
- Reflect on changing perspectives regarding failure and resilience.
- Apply forgiveness and letting-go strategies to improve social relationships and emotional well-being.
- Develop organizational skills to support academic success.
- Understand the impact of nutrition and addictions on personal health.

- Practice respectful disagreement and constructive communication in group settings.
- Engage in group decision-making processes through collaborative games and activities.
- Demonstrate kindness and empathy in both online and offline social interactions.
- Create visual aids such as posters to address problem-solving and conflict resolution.
- Recognize and resist negative social behaviors such as exclusion and gossip.
- Understand the importance of protecting personal information in social and digital contexts.
- Respect personal space boundaries in social interactions.

- Develop presentation skills through mini-projects such as “A Day in the Life of...” vlogs.
- Deliver simple oral presentations about family members’ professions with appropriate permissions.
- Practice expressing gratitude sincerely to others, focusing on strengths rather than faults.
- Create visual representations of future workplaces to explore career aspirations.
- Research various career options and present findings through guided independent projects.
- Write reflective summaries about learning experiences and share them orally with peers.

## 6th Grade

-Demonstrate effective social skills including making friends, setting personal boundaries, building refusal skills, initiating conversations, fostering group belonging, and resolving conflicts.

-Understand and follow school routines and expectations related to sleep schedules, healthy eating, and responsible device use.

- Students will describe basic concepts of artificial intelligence and demonstrate responsible, ethical use of AI tools in everyday learning activities.

-Identify and interpret emotions through recognition of facial expressions and related physical changes.

-Develop time management and organizational skills by prioritizing tasks, optimizing environmental settings, and maintaining concentration.

-Identify personal stressors and implement positive, proactive stress management techniques.

-Apply active listening strategies and use assertive communication in social interactions.

-Differentiate between verbal and non-verbal communication cues to enhance interpersonal understanding.

-Analyze the concept of popularity and its influence on social relationships and behavior.

-Implement proper sleep hygiene practices to support immune function, mental health, academic performance, and physical well-being.

-Articulate the importance of learning and its impact on personal growth.

-Examine the influence of peer pressure and develop strategies to manage its effects.

-Take personal responsibility for conduct and digital citizenship on online social platforms.

-Utilize mnemonic devices and memory techniques to improve learning and information retention.

-Explore and articulate personal interests, strengths, and hobbies to support self-awareness.

-Build character and resilience by adopting a growth mindset when facing challenges.

-Recognize unhealthy habits such as excessive screen time and poor nutrition, and set realistic health and wellness goals.

-Review principles of healthy decision-making to support overall well-being.

-Investigate and understand various career options and pathways.

-Learn foundational concepts of positive psychology to promote mental wellness.

-Develop awareness of mental health issues including anxiety, depression, and addiction.

## 7th Grade

-Demonstrate personal responsibility by taking ownership of actions and understanding their

-Understand adolescent brain development and its impact on behavior and learning.

-Apply problem-solving skills to identify issues and develop effective solutions.

-Identify and reflect on personal values, interests, and strengths to support self-awareness and goal setting.
