GRADING

Mastery of each essential unit is evaluated with an **A** or **B** (mastery grades). **B** denotes mastery of learning outcomes at a high level of understanding. **A** represents mastery where the student demonstrates higher order thinking skills. Mediocre or poor work, resulting in **Cs** and **Ds**, is not acceptable, and students will re-engage until they demonstrate mastery. Students who master a unit with a **B** evaluation may attempt to demonstrate a higher level of mastery at a later time, within that current school year, to change the evaluation to an **A**. Time periods (quarters, semesters, and terms) are not evaluated. Assessment is continuous and student performance is assessed on learning outcomes and units of study.
