Syosset, New York 11791-3200

Dr. Theresa Curry
Deputy Superintendent of Schools

Greg Hamilton
Executive Director of Operations

Severino Fasulo
Director of Facilities

September 5, 2025

Dear Staff and Parents:

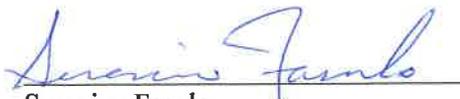

The Syosset Central School District is committed to protecting the health and well-being of our students, teachers and staff. In compliance with the New York State Department of Health (NYS DOH) regulation titled Lead Testing in School Drinking Water (10 NYCRR Subpart 67-4), we recently performed an updated inventory of all water outlets in the school district and another round of sampling of all applicable water outlets. As you may be aware, these outlets were previously tested in 2016 and 2020.

Sampling of potable water outlets (water used for cooking or drinking) was performed by our environmental consulting and testing firm, J.C. Broderick & Associates.

In accordance with this regulation and our remediation plan, any outlet which revealed concentrations of lead above the New York State action level of 5 parts per billion have been removed from service or otherwise restricted until proper action and/or remediation is performed.

Details pertaining to Lead in Water Testing can be referenced on the Facilities page on the District website <https://www.syossetschools.org/about-us/facilities>. As always, if you have any questions, comments or concerns please contact the Facilities Department at 516-364-5661 or 516-364-5671.

Sincerely,

Severino Fasulo
