District Set Asides and Overview		
JACKSON CO SCHOOL DIST (3000) Public District - FY 2025 - Consolidated - Rev 4 - Title I-A		
Required Reservations and Other Instructional Initiatives	Amount	
Homeless: (The homeless set-aside may be used to provide services to homeless students in schools that are not ordinarily provided to other Title I students.) 1. Please describe how the LEA plans to spend this required set aside to help homeless students in both non-Title I and Title I schools take advantage of educational opportunities (for example, describing programming or services offered, staff, materials, etc.). For the 2023-2024 school year, the LEA had 94 homeless students. The LEA determined it will reserve at least \$25.00 per homeless student. The Jackson County School District has board approved policies that cover the enrollment process for students with limited English proficiency, children with disabilities, migratory students, neglected and delinquent youth, and homeless children. Each school will follow these policies during the enrollment process and provide the proper documentation to the central office. Services for children who are homeless are provided by Title I, District, and Local Community groups. Title I funds are coordinated with other local and district funding to provide additional services, such as tutoring, supplies, uniforms, course fees, field trip fees, bookbags, etc. to homeless children and immigrant children to increase program effectiveness and reduce fragmentation of the instructional program. The LEA will also continue to utilize ARP Homeless II Funds to provide services and assistance to identified homeless students. The LEA plans to use the Title I-A homeless reservation for non-instructional supplies, as the experience of homelessness results in a loss of personal possessions and a lack of personal hygiene items, which makes it difficult to adjust socially with their peers. Additionally, a portion of the homeless set-aside will be used to fund the homeless liaison salary, benefits, and travel, who will work to ensure that all homeless students and their families are connected with resources needed to ensure their academic, social, and emotional growth. The JCSD will implement the following goals for the 24-25 school year. The JCSD has the following goals and purposes for students who are homeless: (These funds are located in Function 2190) ▪ Students will increase student achievement ▪ Students will achieve at the same rate as other children on state assessments. ▪ JCSD will meet the educational and physical needs (when appropriate) for the child. ▪ Tutorial services will be provided, when needed to perform academically. ▪ School supplies will be provided for children who are homeless.	18,750.41

Program Guidance:

Administration (reasonable and necessary)

Provide a summary of how the Title I program is administered and which funds support these activities/personnel (Title I admin, consolidated admin (cost pool), local funds, etc.)

JCSD will fund 50% of the Federal Programs Director salary out of state and local funds, and the other half of the director's salary will come out of the Title programs. This percentage covers time spent training counselors on how to better serve students who are homeless and in foster care, overseeing the EL program, and coordinating all Title programs within the district. The Director also maintains funds from Title I homeless, District, and Community donations to ensure the physical and academic goals are met for all students who are homeless and keeps a record of all students who are homeless for reporting purposes. 100% of the Federal Programs Coordinator & 100% of the Federal Grant Accountant is paid from all Title funds which is organized in the Consolidated Cost pool.

Schools "Skipped" in Rank Order

For any school not served with Title I-A funds (marked as "skip school" on the School Eligibility page), please indicate the amount and source of state or local supplemental funds that are used to provide services to low-achieving students in lieu of the funds that would have been provided by Title I-A.

School Name	State Provided Funding Source	Amount

Explain why the school(s) are being skipped.		

Evidence-Based Action Plan for Schools Identified as Comprehensive, Targeted, and Additional Targeted Support and Improvement

JACKSON CO SCHOOL DIST (3000) Public District - FY 2025 - Consolidated - Rev 4 - Title IV-A	
Title IV-A	
Prioritizing Funds	* Describe how the LEA prioritizes Title IV, Part A Funding for certain Schools. (Sec. 4106(e)(2)(A)) The LEA ensures that all Title IV funding is equitably distributed among all 14 schools to enhance the use of technology among all students. Each school receives an equal amount of funding for STEM/STEAM throughout JCSD. Additionally, all three high schools receive funding to expand the participation of low-income students in Dual Credit courses. Lastly, all school counselors and instructional technologists have equitable access to Title IV funding for needed professional development, supplies, and technological resources. For each program budgeted, provide a narrative description of how you will use your funding by describing in detail the need for the project, the goals, and objectives.
1. Well-Rounded	\$ 45,974.48 Amount Description of activity (number activities if more than one). 1.Funding for Dual Credit course fees for low-income students to ensure that all students have access to a well-rounded education. 2.Funding for STEM/STEAM supplies and equipment for all 14 campuses. 3.Funding for College & Career Counseling Supplies Describe the need for the activity. According to our FY24 needs assessment, stakeholders desired to see Title IV funds spent promoting access to accelerated learning opportunities, including Dual Credit courses. After reviewing student enrollment data, all high schools sought for ways to increase participation in our AP and Dual credit courses among students qualifying for free/reduced lunch. Since 2018-19 school year, we have utilized Title IV funds to alleviate the financial burden for the abovementioned student group. Moreover, our district, as well as our School Board of Education, has invested local district funds to increase opportunities for STEM/STEM within all Jackson County schools. As all JCSD schools seek to meet and exceed technology standards, each campus has devoted a STEM/STEAM lab to ensure that the science, technology, engineering, and math skills are being practiced and engaged in. Therefore, funding is needed to outfit these labs with recently released technologies to ensure that students' training remain relevant. Moreover, high school students and parents will receive resources/supplies to aid them in college and career preparation.
List Activity Goal(s)	1. Increase College and Career enrollment and participation. 2. Increase student participation in Dual enrollment courses among students receiving free/reduced lunch. 3. Increase student efficacy in computer science and the acquisition of technology skills.

List Activity Objective(s)

1. Providing programming to improve instruction and student engagement in science, technology, engineering and mathematics (STEM) including computer science, and increasing access to these subjects for underrepresented groups across all JCSD schools. At least 50% Elementary and Secondary students will receive access to at least 1 hour of instruction.
2. Promoting access to accelerated learning opportunities including dual or concurrent enrollment programs with at a 25% increase in student enrollment across all three high schools within JCSD.
3. Provide additional resources and supplies to parents and students seeking to enter into college.

2. Safe and Healthy

\$ 80,795.95 Amount

Description of activity (number activities if more than one).

1. Funding to improve school conditions for all student learning that will address bullying prevention, suicide prevention, drug prevention, and other mental health activities by providing on-site mental health services.
2. Funding for supplies that will support bullying prevention, drug prevention, suicide prevention, and other mental health activities
3. Funding for School Counselor Professional Development to build trauma-informed schools, both on-site and off-site.

Describe the need for the activity.

JCSD has experienced tremendous loss within the school district. Suicides and other fatal tragedies have occurred, which has shifted our focus to building trauma-sensitive schools. We have had student suffering from various mental health issues that has also plagued the classrooms and the communities these students and staff members reside in. Parents have asked that our school counselors have an opportunity to exercise their gifts and actually have the skillset and the time to provide effective school counseling. For the FY24 school year, school counselors have participated in several hours of training to become ASCA-model trained and they have re-defined their roles on their campus to promote the utilization of SEL skills and implementation of both direct and indirect services.

List Activity Goal(s)

1. To decrease suicides, bullying incidents, drug use, and mental health crises.
2. To equip students, teachers and school counselors with the resources needed to decrease suicides, bullying incidents, drug use, and mental health crises.
3. To increase and professionally develop school counselors in understanding and implementing SEL/CASEL/ASCA standards through the integration of technology.

List Activity Objective(s)

1. To decrease all suicides, bullying incidents, drug use, and mental health crises/incidents by 25%.
2. To Increase school counselor efficacy and school counseling services by 25% during the 24-25 school year.

3. Effective Use of Technology

\$ 20,018.15 Amount

Description of activity (number activities if more than one). Uses RDIM to intelligently populate based on amount budgeted to the "linked" budget tag. Funding for Educational Technology Specialists, who will be responsible for providing professional development to improve instructional technology practices for the both local school and district-level personnel.

Describe the need for the activity.

Parents, teachers, and community members were surveyed to determine how technology could be effectively utilized in JCSD. Many principals and teachers presented a clear and present need for students to obtain and develop technology skills that align to the new MDE technology standards. These standards must be taught by certified, well-trained teachers. These teachers will need additional training to develop competencies in effectively teaching the new computer science standards mandated by MDE.

List Activity Goal(s)

To provide professional development in the use of technology (which may be provided through partnerships with outside organizations) to enable teachers and instructional leaders to increase student achievement in the areas of science, technology, engineering, and mathematics, including computer science;

List Activity Objective(s)

Every school throughout the district will successfully teacher at least one computer science lesson a week, ensuring that all technology standards are taught to students in all grades K-12.
