Subject: Introducing the Standard Response Protocol (SRP) for School Safety

Dear Families,

The safety of our students and staff remains a top priority. This year, our district will be utilizing the **Standard Response Protocol (SRP)** as our emergency response system.

SRP is a nationally recognized approach used by schools across the country. Its strength is in its **simplicity and clarity**—using consistent, easy-to-understand language for different types of emergencies. This helps ensure that students, staff, and first responders can respond quickly and effectively.

By adopting SRP, we are working to create the safest possible environment for our students while also ensuring that **families stay informed** during any emergency situation.

Included with this communication is a two-page handout that explains in more detail the five specific actions associated with the Standard Response Protocol (SRP). This resource is intended to give you a clearer understanding of what your student will be trained to do and what you can expect during each type of response.

As a reminder, we have previously shared information about our Reunification Process. For your convenience, we are also providing those documents again so you can review what the reunification process would look like in the event it is needed.

Thank you for your continued partnership in supporting the safety and well-being of our school community.

Sincerely,

Patrick Lee
Superintendent
Rogue River School District
