

MEET YOUR SCHOOL PSYCHOLOGIST

ASHLEY CASTILLO, M.A., NCSP

A Little Bit About Ashley...

For 16 years, Ashley has served as a School Psychologist, supporting students and families as they navigate the educational system.

Originally from Montana, family adventures have taken Ashley across the country and back home again. Ashley earned her B.A. in Psychology and Human and Family Development from University of Montana (Go Griz!) before completing her M.A. in School Psychology at Trinity University in San Antonio, TX.

When not working, you'll likely find Ashley spending time outdoors, cheering at her kids' activities, antique browsing, learning new crafts, or spending time with her family and dogs. Ashley strives to build strong community connections and believes collaboration is at the heart of supporting students.
