

Prospective Student

QUESTIONNAIRE & WRITING SAMPLE

Student Name: _____

We know that you are more than your test scores and grades! Please respond to the questions provided on both sides of this sheet in your own handwriting; do not type out your answers. **Do not use AI. We want to get a deeper understanding of who you are and observe your unique writing style.** It is important that you pay attention to proper grammar and punctuation as these will be taken into consideration during evaluation.

1. Tell us about yourself. What are some things that are important about your background, family, or experiences that will help us understand who you are?

2. Cristo Rey Jesuit is a Catholic, college-preparatory school, with a unique work-study program. Why do you want to attend Cristo Rey Jesuit? How do you hope Cristo Rey Jesuit will impact and shape you?

3. Reflect on one experience or challenge that has shaped who you are today. How has it influenced the way you see yourself and the world around you?

4. Every student has unique strengths and areas for growth. How would you describe yourself as a student? What strengths do you bring to the classroom, and what areas do you hope to improve? How will you challenge yourself to grow during high school?

QUESTIONNAIRE & WRITING SAMPLE

5. Cristo Rey Jesuit combines rigorous academics with real-world work experience at one of Houston’s many businesses.

What excites you about this model, and what do you think will be the hardest part for you? How will you prepare yourself to succeed in both school and work?

6. Imagine yourself graduating from Cristo Rey Jesuit. What kind of person do you hope to be by then, and what steps will you need to take to get there? What would you want people to say about who you were as a student at Cristo Rey Jesuit?

7. “Who I Am” Project

We want to see your personality, creativity, and voice in a different way. Use the space below to create something that represents you — this could be a drawing, collage, poem, short story, or even a chart/diagram. There’s no “right” answer.
