

Each year, our CIRC MakerSpace provides students from kindergarten through sixth grade with a variety of materials to inspire creativity and innovation. We welcome donations of both new and recyclable items that can be used for hands-on projects.

If you have materials to contribute, please send them with your child in a sealed bag or container to prevent spills on the bus or drop them off at either the elementary or middle school office.

Thank you for helping us create a resource-rich environment that benefits our entire school community!

thank you

We have also created a Wish List on Amazon for materials and tools that can be used in CIRC.
