

SCSD #1 3ad Start

DAILY PLAYGROUND INSPECTION		Monday	Tuesday	Wednesday	Thursday	Friday	
		Inspection	Action Taken	Inspection	Action Taken	Inspection	Action Taken
The entrance and walkways are free of snow and ice; the gate is locked.							
The equipment has adequate protective surfacing under and around it and the surfacing materials have not deteriorated.							
Loose fill surfacing materials are not compacted and do not have reduced depth in heavy use areas such as under slide exits.							
There are no sharp points, corners or edges on the equipment.							
There are no missing or damaged protective caps or plugs.							
There are no hazardous protrusions or projections.							
There are no potential clothing entanglement hazards, such as open S-hooks or protruding bolts.							
There are no pinch, crush, and shearing points or exposed moving parts.							
There are no trip hazards, such as exposed footings and anchoring devices and rocks, roots, or any other environmental obstacles.							
The equipment has no rust, rot, cracks, or splinters, especially where it comes in contact with the ground.							
There are no broken or missing components on the equipment and there are no damaged fences, benches, or signs on the playground.							
The entire play area has satisfactory drainage especially in heavy use areas and under slide exits.							
There are no visible areas of paint peeling, cracking, chipping or chalking.							
The entire area is free of debris or litter such as tree branches, soda cans, bottles, glass and animal waste.
