

Throughout my 15+ years of experience as a coach, I have consistently demonstrated a deep passion for sports and developed a strong commitment to assisting athletes in achieving excellence both on and off the field. With a solid background of expertise and practical experience in coaching, I possess the confidence to make a positive contribution to the Rancho Mirage High School Rattler's Football Team.

My coaching career began in 2008 with competing in the highly competitive Southern California Junior All-American Football Conference, where over the past four seasons (2021 – 2024) have finished with a 39-6 record, including a commanding 22-1 record, that led to back-to-back championships in 2023 and 2024 at the Division 1 level by focusing on the strategic and tactical aspects of football to develop game plans, studying opponents, and using analytics to gain competitive advantages. My belief in teamwork, discipline, and a growth mindset helped create a winning culture among athletes; while also allowing me to prioritize instilling qualities such as sportsmanship, leadership, and resilience. Additionally, one of my greatest strengths has been my ability to adapt and communicate effectively with athletes from diverse backgrounds, by focusing on building strong relationships with individual players to understand their strengths and/or weaknesses and tailoring my coaching methods to help them reach their full potential. To which has consistently led to players achieving their goals and exceeding expectations.

The highlight of my coaching career is my eldest son, who received a full athletic scholarship to Washington State University to play running back/wide receiver in 2020. Ultimately, this led me to return to school and earn a Bachelor of Science in Psychology with an Emphasis in Performance and Sport degree, from Grand Canyon University. I currently work on the 29 Palms Marine Corp Base as an Operations Manager, where I focus on building and leading effective site level management, supervise teams, provide leadership, mentor, priority-set, and hold staff accountable to high performance standards to establish human capital growth.

Most importantly, to me, character development is just as important as skill development. To be able to mentor and guide young people to build a belief that personal growth leads to success has always been my dream. I am excited and eager to contribute to the legacy of this esteemed football program. With my knowledge and dedication to achieving excellence, both with the players and the coaching staff on the field and academically. My passion for the game, strategic mindset, communication skills, and commitment to student development make me an ideal fit for this coaching position.

Therefore, I am confident that my enthusiasm and experience will significantly contribute to the success of our younger generation.
