

I am very excited to join the football coaching staff at Rancho Mirage High School. I am looking forward to helping develop young players with the high standards that Rancho Mirage High School demands.

I was born and raised in Southern California and graduated from Cathedral City High School, where I wrestled and played football. My coaching career began a few years after I graduated in 2004 when I coached Linebackers at Cathedral City High School.

I took a coaching break from football to start a young family. I was fully committed to my growing family and training in Brazilian Jiu-Jitsu where I also became a coach there.

My wife and I have been blessed with 3 boys. Once they became old enough to walk they started playing football where my coaching picked back up again. Over the last 10 years I have coached my 3 sons in flag football, 7v7, and youth tackle with the Southern California Junior All-American League, where they won several championships in each category.

I ultimately wanted to get back into coaching high school football, and last season I was the Defensive Line/Outside Linebackers coach on the Junior Varsity team at Cathedral City High School. Not only am I proud of watching young athletes do well in the sport of football, I take pride in being there to help develop every aspect of their lives as well. I believe that I teach respect, integrity, humility, and leadership qualities to these athletes that will help them go far in life with and after football. I look forward to a successful season and the opportunity to help shape these young men to be positive leaders and role models in our community.
