

Edgerton Elementary Drop Off and Dismissal Guidelines for Success

Thank you for your continued patience with our loop and parking at Edgerton School. We are trying to be as diligent as possible to keep our loops moving and to not have traffic back up. Please follow these guidelines that we have in place for the safety of your children!

All parent pick-ups and drop-offs will take place in the front of the building for Early Lit through 5th grade students. The loop at the back of the school will be used by buses only. Please do not park along the street side behind Edgerton closest to school, this is for buses only. It blocks the buses if you are parked along this area and they can't pull in to load and unload students in a safe manner. All pick-ups and drop-offs will be at the front of the building in the color coded loops. If you want to park on the street and pick up your child in the back, you are welcome to. *No dogs are allowed on the playground property during school hours or pick up or drop off.*

Drop Off & Dismissal

- Please **DO NOT** park in the middle circle side where the sidewalk is red. This is for our special education buses.
- The **Blue loop** will be pick-up and drop off for all students with the last name beginning with letters **A-L**. Kindergarten parents in classes **Mouat and Floyd** use this loop.
- The **White loop** will be pick-up and drop off for all students with the last name beginning with letters **M-Z**. Kindergarten parents from classes **Lalor and Wiley** use this loop.
- Please pull all the way forward along the sidewalk and leave a minimal gap between your car and the next so we can fit as many cars in the pickup lane along the sidewalk as possible.
- Keep the loops moving forward. Do not drive around cars in the waiting line to the traffic lane to find an open spot.
- Do not get out of your car to walk and get your child. The loops are only for loading and unloading at the sidewalk.
- If you are wishing to park and come into the building please use the main staff parking lot at the front of school or in the neighborhood.
- Do not park and leave your car unattended in the pick-up loops at any time.

Please remember it takes a few weeks to get everyone going in the right direction. Please be patient and follow guidelines for your child's safety. We have these guidelines in place to keep our kids safe!

Respectfully, Mrs. Stein
