

I would like to help my child make choices about what they are reading..

## What are my options?

**1**

Ask to meet with your child's principal, teacher, or librarian to discuss options.

**2**

Ask your child's teacher to share books being assigned for class. If you have concerns, ask that your child have an alternate assignment.

**3**

You can log into the library platform and block books/titles/subjects that you do not want your student to access..

**4**

If you believe the book is inappropriate for ALL students (not just your child) you can formally challenge the book.
