*LP (Schools performing below a C and also not exceeding growth are determined low-performing.)

The student achievement data for the 2024-25 school year is based on analysis of all end-of- grade (EOG) and end-of-course (EOC) tests, which are aligned to the North Carolina Standard Course of Study in English Language Arts (Reading) and Mathematics and the Essential Standards in Science for all public schools in North Carolina. The data provides the percentage of students who scored at Level 3 and above (grade-level proficiency), at Level 4 and above (college-and-career readiness) and at each academic achievement level. There are four achievement levels for state testing: not proficient, 3, 4 and 5, with 5 representing the greatest mastery of the subject matter. (Information provided from the North Carolina Department of Public Instruction)

*Pasquotank Elementary School was closed in 2024 and is being converted to an Early Childhood Learning Center to house our Pre-K program. As a result, there is no grade for the school in 2025.

**Our internal projections indicate our Early College High School received a performance grade of an A. However, the school has not yet been assigned a grade by the North Carolina Department of Public Instruction. We will share updates when their grade is released.
