Superintendent's Message

Welcome to a New School Year: Our Vision, Priorities, and Partnership

As we begin this new school year, I want to thank our families, residents, and supporters for the warm welcome I've received as your superintendent. My first month has deepened my appreciation for the passion and care that define our communities. I'm grateful to be here and committed to supporting our staff, students, and families in meaningful ways.

This year our efforts will continue to follow the Moffat CSD#2 Strategic Plan, centered on six key Focus Areas: Learning, Teaching, Programs, Financial Stewardship, Facilities & Support Systems, and Partnerships. These priorities will guide decisions we make as we work together to serve our students and community.

Here's how we will focus our work:

- **Learning:** We are dedicated to helping every student grow through rigorous and relevant academics in a safe and supportive environment. Our goal is for all students to feel valued, to discover their strengths, and to develop skills that will serve them throughout life.
- **Teaching:** Attracting and retaining talented educators is fundamental. We recognize that having affordable and quality housing options for staff directly impacts their ability to live and work in our community. This year, we will focus on exploring housing solutions to better support our staff and recruit new educators who are committed to our students.
- **Programs:** Expanding access to strong academics, arts, athletics, enrichment opportunities, career pathways, college credits, and industry certifications remains a strong priority. We want our students to have opportunities that inspire and prepare them for success beyond graduation.

- Financial Stewardship: We are committed to responsible management of district resources and transparency with the community about how funds are used to maximize student learning.
- Facilities, Support Systems & Food Service: Maintaining safe, healthy, and welcoming spaces—from classrooms and cafeterias to athletic fields and transportation—is essential for student success. We will continue investing in these areas to create environments that support learning and well-being.
- Partnerships: Collaboration with families, local organizations, and community members strengthens our district. We will continue to nurture and build these partnerships to better meet the needs of our students and our community.

In line with our focus on learning, this year we will define our Moffat CSD#2 Portrait of a Graduate. Together with input from students, families, staff, and community members, we will identify the knowledge, skills, and character traits that reflect what we value most for our graduates from kindergarten through 12th grade. This shared vision will help guide our instructional focus and community efforts. Listening remains a top priority for me. I want to hear from all of you—parents, staff, students, and community partners—as we work to improve and evolve our district.

Through this newsletter and additional outlets, we will regularly provide district updates on important information throughout the year. Keeping our community informed helps us all work together to support our students' growth and achievement. Lastly, I understand the importance of being visible and engaged in our schools and community. Although I may not be able to attend every event, I will make it a priority to be present where I can, to show my support for our students and staff.

Thank you for your trust, partnership, and dedication. Together, with clear priorities and a spirit of continuous improvement, we will make this a year of strong progress and positive outcomes for everyone in Moffat CSD#2.

With Gratitude,

Andrea "Ande" Davis

A warm welcome back to all our students, and to all of our new district employees! We are also grateful for our returning staff, whose unwavering dedication continually strengthens our schools and ensures consistency as we strive for continual improvement and excellence, year after year.

The District Accountability Committee (DAC) plays a vital role in shaping the direction of our schools by providing input and guidance on academic programs, budgets, and district priorities. Parents are invited to attend the first DAC meeting of the year on September 3rd from 5:30pm - 6:30pm. The DAC is where your voice and ideas can help make a positive impact on our students and community. Join us to stay informed, contribute to important decisions, and connect with other families and district leaders.

We are excited to welcome Marie Pollard as the Athletic Director for both Moffat CSD#2 and Mountain Valley School Districts. Parents and community members are encouraged to come out, support our student-athletes, and attend games and activities throughout the season. To stay up to date, please check the [athletic schedules](#).

State test results for Colorado students are now available, providing valuable insights into academic progress and achievement. Parents can access their child's individual scores and detailed reports online through the Colorado Department of Education's parent portal. Reviewing these results helps families understand strengths, identify areas for growth, and partner with teachers to support learning. For more information or to view your student's CMAS results, visit the Colorado Department of Education's [Parent Portal](#) and your student's PSAT/SAT scores can be accessed through your [College Board Account](#). Please call the front office of your student's school if you need assistance accessing either portal.

Moffat CSD#2 schools will be participating in the Every School Day Matters campaign with the Colorado Department of Education. This initiative emphasizes the importance of regular school attendance for every student's success, growth, and academic achievement. By working together—families, staff, and the community—we can help students build strong habits and reach their full potential. Let's make every day count!

Stay tuned as Moffat K-12 is working on a Friday School program to begin in October, supporting students academically and with literacy development and growth. More to come from Mrs. Garcia this month.
