Collier Youth Services

BELONGING - DIGNITY - HOPE

Dear Business Owner:

Collier School is a state-approved, private, non-profit school for students with disabilities whose needs cannot be met within the public school. Students at Collier learn that education is a lifelong learning process. They discover that their lives are connected to a larger world, a world that requires a relationship to the community.

In addition to the academics taught at Collier Schools, students also require time to prepare for the world of work. These students are 18-21 years old and are beginning to focus on building career skills through real-world experiences. This is an essential aspect needed to prepare them for independent living and lead them to greater success in the next phase of their lives. We would like to offer you an opportunity to partner with Collier School in our Work-Based Learning Experience Program. Your business will benefit from what these young people offer in terms of service, and our students benefit by gaining valuable real-world work experience.

If you have an opportunity in which your business can offer our students a few hours of internship/volunteer or paid work experience per week during the school day, I would love to hear from you. Please feel free to contact me. You will be impressed with our students and feel gratified knowing that your assistance has made a difference in the life of a young person.

Thank you for your time and consideration.

Warmest Regards,

Jean Reash
