Welcome to Spanish Class!

We are very excited to have your student in our classroom.

Imagine learning Spanish by speaking with native speakers. Our teachers in Colombia will work with the students to explore language and culture, and by the end, they will be able to hold conversations in Spanish.

Seal of Biliteracy

Last year, Lenguas Club celebrated several of our students receiving College credits for their Spanish Classes.

This year, we strive to offer the Seal of Biliteracy, an official recognition of their proficiency in two languages, which is key to their academic and professional future.

Cultural exchange

Since last year, we have organized language exchanges with students from the US and Colombia. It is a unique experience to practice real Spanish, share culture, and make new friends.

Conversation clubs

With more than 15 native teachers, our conversation clubs allow students to learn different accents and ways of speaking Spanish, strengthening all their language skills.

Why learning Spanish?

Spanish is not only one of the most widely spoken languages in the world, it is also rapidly gaining ground on the internet. In addition, teaching Spanish as a foreign language is in high demand today, which has led to the development of training programs for highly qualified teachers.

Academic Preparation

Our curriculum is based in the NY World Language Standards. Our classes are based on a communicative model. We prepare our students to succeed in the Checkpoint Exams. Our units include activities for students to practice on their own.
